NEW QUESTION: 1
What would be the reason for a large number of duplicate Account records and many sharing rules created in Salesforce?
A. The Organization-Wide Default for the Account object is Public Read/Write
B. The Object permissions for the Account object are Create, Read, and Edit
C. The Organization-Wide Default for the Account object is Private
D. The Organization-Wide Default for the Account object is Public Read-Only
Answer: C (LEAVE A REPLY)

NEW QUESTION: 2
Regarding the use of Apex Sharing Reasons, which two reasons should an Architect consider? (Choose two.)
A. Making sure the developer can more easily troubleshoot programmatic sharing
B. Making sure the Share record is deleted upon ownership change
C. Making sure the Share record is NOT deleted upon ownership change
D. Making sure there is additional criteria available for Criteria-Based Sharing
Answer: (SHOW ANSWER)

NEW QUESTION: 3
Your company is deploying Chrome devices. You want to make sure the machine assigned to the employee can only be signed in to by that employee and no one else. What two things should you do? (Choose two.)
A. Disable Guest Mode and Public Sessions.
B. Enroll a 2-Factor hardware key on the device using the employee email address.

C. Enable a Device Policy of Restrict Sign In to List of Users, and add the employee email address.
D. Enable a User Policy of Multiple Sign In Access and add just the employee email address.
E. Enable a Device Policy of Sign In Screen and add the employee email address.
Answer: B,E (LEAVE A REPLY)

NEW QUESTION: 4
Your company policy requires that managers be provided access to Drive data once an employee leaves the company.
How should you grant this access?
A. Transfer ownership of all Drive data using the file transfer ownership tool in the G Suite Admin console.
B. Make the manager a delegate to the former employee's account.
C. Copy the data from the former employee's My Drive to the manager's My Drive.
D. Login as the user and add the manager to the file permissions using the "Is owner' privilege for all Drive files.
Answer: (SHOW ANSWER)

NEW QUESTION: 5
Your organization has just appointed a new CISO. They have signed up to receive admin alerts and just received an alert for a suspicious login attempt. They are trying to determine how frequently suspicious login attempts occur within the organization. The CISO has asked you to provide details for each user account that has had a suspicious login attempt in the past year and the number of times it occurred for each account.
What action should you take to meet these requirements?
A. Use the login audit report to export all suspicious login details for analysis.
B. Use the account activity report to export all suspicious login details for analysis.
C. Create a custom query in BigQuery showing all suspicious login details.
D. Create a custom dashboard with the security investigation tool showing suspicious logins.
Answer: (SHOW ANSWER)

NEW QUESTION: 6
User A is a Basic License holder. User B is a Business License holder. These two users, along with many additional users, are in the same organizational unit at the same company. When User A attempts to access Drive, they receive the following error: "We are sorry, but you do not have access to Google Docs Editors. Please contact your Organization Administrator for access." User B is not presented with the same error and accesses the service without issues.
How do you provide access to Drive for User A?

A. In Apps > G Suite > Drive and Docs, select the organizational unit the users are in and enable Drive for the organizational unit.
B. In Apps > G Suite, determine the Group that has Drive and Docs enabled as a service. Add User A to this group.
C. Select User A in the Directory, and under the Licenses section, change their license from Basic to Business to add the Drive and Docs service.
D. Select User A in the Directory, and under the Apps section, check whether Drive and Docs is disabled.
If so, enable it in the User record.
Answer: C (LEAVE A REPLY)

NEW QUESTION: 7
Your Security Officer ran the Security Health Check and found the alert that "Installation of mobile applications from unknown sources" was occurring. They have asked you to find a way to prevent that from happening.
Using Mobile Device Management (MDM), you need to configure a policy that will not allow mobile applications to be installed from unknown sources.
What MDM configuration is needed to meet this requirement?
A. In the Application Management menu, configure the whitelist of apps that Android and iOS devices are allowed to install.
B. In the Application Management menu, configure the whitelist of apps that Android, iOS devices, and Active Sync devices are allowed to install.
C. In Android Settings, ensure that "Allow non-Play Store apps from unknown sources installation" is unchecked.
D. In Device Management > Setup > Device Approvals menu, configure the "Requires Admin approval" option.
Answer: C (LEAVE A REPLY)

NEW QUESTION: 8
Your company has been engaged in a lawsuit, and the legal department has been asked to discover and hold all email for two specific users. Additionally, they have been asked to discover and hold any email referencing "Secret Project 123." What steps should you take to satisfy this request?
A. Create a Matter and a Hold. Set the Hold to Gmail, set it to Accounts, and set the usernames to:
user1@your-company.com, user2@your-company. Set the search terms to secret OR project OR 123.
Save.

B. Create a Matter and a Hold. Set the Hold to Gmail, set it to Accounts, and enter: user1@your- company.com AND user2@your-company.com. Set the search terms to: secret AND project AND 123.
Save.
C. Create a Matter and a Hold. Set the Hold to Gmail, set it to Accounts, and set the usernames to:
user1@your-company.com, user2@your-company. Set the search terms to: (secret project 123). Save.
D. Create a Matter and a Hold. Set the Hold to Gmail, set it to the top level Organization, and set the search terms to "secret project 123." Create a second Hold. Set the second Hold to Gmail, set it to Accounts, and enter: user1 @your-company.com, user2@your-company.com. Save.
Answer: (SHOW ANSWER)

NEW QUESTION: 9
The application development team has come to you requesting that a new, internal, domain-owned G Suite app be allowed to access Google Drive APIs. You are currently restricting access to all APIs using approved whitelists, per security policy. You need to grant access for this app.
What should you do?
A. Add OAuth Client ID to Google Drive Trusted List.
B. Enable "trust domain owned apps" setting.
C. Enable all API access for Google Drive.
D. Whitelist the app in the G Suite Marketplace.
Answer: A (LEAVE A REPLY)

NEW QUESTION: 10
The organization is concerned with third-party applications accessing contact information. As a G Suite Super Admin, you are tasked to restrict third-party access without limiting users' ability to share contacts manually. What should you do?
A. Enable Contact Sharing.
B. Enable API access to Google Contacts and disable Directory Sharing.
C. Disable Contact Sharing.
D. Disable API access to Google Contacts and enable Directory Sharing.
Answer: D (LEAVE A REPLY)

NEW QUESTION: 11
Ursa Major Solar needs to prevent Users in a Custom Sales Department Profile from deleting Opportunities.
What should an Architect do to achieve this goal?

A. In the Object Permissions, remove the "Opportunity Delete" Permission from the User's Profile
B. Override the Standard button with a Visualforce Page that warns them that they do NOT have permission to delete
C. Ensure a Validation Rule is created that checks the User's Profile before allowing the IsDeleted flag to be set to True
D. Ensure that the Delete button from the Opportunity Page Layout and Record Type settings is removed
Answer: (SHOW ANSWER)

NEW QUESTION: 12
A company has thousands of Chrome devices and bandwidth restrictions. They want to distribute the Chrome device updates over a period of days to avoid traffic spikes that would impact the low bandwidth network.
Where should you enable this in the Chrome management settings?
A. Randomly scatter auto-updates.
B. Update over cellular.
C. Disable Auto update.
D. Throttle the bandwidth.
Answer: A (LEAVE A REPLY)
Explanation Explanation

NEW QUESTION: 13
Cloud Kicks is implementing a community and has the following requirements:
- The Community will have High-Volume Community users.
- Community users should be able to see records associated to their Account or Contact record.
An Architect wants to use a Sharing Set to provide access to the records. However, when setting up the Sharing Set, certain objects are not available in the list of Available Objects.
What are two explanations for why an object would be excluded from the list of Available Objects in a Sharing Set? (Choose two.)
A. The object's Organization-Wide sharing setting is set to Public Read/Write
B. The object is a custom object, and therefore NOT available for a sharing set
C. The custom object does NOT have a lookup to Accounts or Contacts
D. The object's Organization-Wide sharing setting is set to Private
Answer: (SHOW ANSWER)

NEW QUESTION: 14
Get Cloudy Consulting has the following requirements:
- Users should only see Accounts they or their subordinates own.

- All Accounts with the custom field "Key Customer" should be visible to all Senior Account Managers.
- There is a custom field on the Account record that contains sensitive information and should be hidden from all users, except 10 designated users who require view and edit access.
- These 10 users come from different user groups, and will change occasionally.
Which three platform security features are required to support these requirements with the minimum amount of effort? (Choose three.)
A. Apex Managed Sharing
B. Permission Sets
C. Role Hierarchy
D. Owner-Based Sharing Rules
E. Criteria-Based Sharing Rules
Answer: B,C,E (LEAVE A REPLY)

NEW QUESTION: 15
User A is a Basic License holder. User B is a Business License holder. These two users, along with many additional users, are in the same organizational unit at the same company. When User A attempts to access Drive, they receive the following error: "We are sorry, but you do not have access to Google Docs Editors.
Please contact your Organization Administrator for access." User B is not presented with the same error and accesses the service without issues.
How do you provide access to Drive for User A?
A. In Apps > G Suite > Drive and Docs, select the organizational unit the users are in and enable Drive for the organizational unit.
B. Select User A in the Directory, and under the Apps section, check whether Drive and Docs is disabled.
If so, enable it in the User record.
C. In Apps > G Suite, determine the Group that has Drive and Docs enabled as a service. Add User A to this group.
D. Select User A in the Directory, and under the Licenses section, change their license from Basic to Business to add the Drive and Docs service.
Answer: (SHOW ANSWER)

NEW QUESTION: 16
The CEO of your company has indicated that messages from trusted contacts are being delivered to spam, and it is significantly affecting their work. The messages from these contacts have not always been classified as spam. Additionally, you recently configured SPF, DKIM, and DMARC for your domain. You have been tasked with troubleshooting the issue.
What two actions should you take? (Choose two.)

A. Validate that your domain is not on the Spamhaus blacklist.
B. Conduct an Email log search to trace the message route.
C. Review the contents of the messages in Google Vault.
D. Obtain the message header and analyze using G Suite Toolbox.
E. Set up a Gmail routing rule to whitelist the sender.
Answer: D,E (LEAVE A REPLY)

NEW QUESTION: 17
A user does not follow their usual sign-in pattern and signs in from an unusual location.
What type of alert is triggered by this event?
A. Suspicious mobile activity alert.
B. Suspicious login activity alert.
C. Leaked password alert.
D. User sign-in alert.
Answer: B (LEAVE A REPLY)

NEW QUESTION: 19

After making a recent migration to G Suite, you updated your Google Cloud Directory Sync configuration to synchronize the global address list. Users are now seeing duplicate contacts in their global directory in G Suite. You need to resolve this issue.
What should you do?
A. Train users to use G Suite's merge contacts feature.
B. Enable directory contact deduplication in the G Suite Admin panel.
C. Update shared contact search rules to exclude internal users.
D. Create a new global directory, and delete the original.
Answer: (SHOW ANSWER)
Explanation

NEW QUESTION: 20
In your organization, users have been provisioned with either G Suite Enterprise, G Suite Business, or no license, depending on their job duties, and the cost of user licenses is paid out of each division's budget. In order to effectively manage the license disposition, team leaders require the ability to look up the type of license that is currently assigned, along with the last logon date, for their direct reports.
You have been tasked with recommending a solution to the Director of IT, and have gathered the following requirements:
* Team leaders must be able to retrieve this data on their own (i.e., self-service).
* Team leaders are not permitted to have any level of administrative access to the G Suite Admin panel.
* Team leaders must only be able to look up data for their direct reports.
* The data must always be current to within 1 week.
* Costs must be mitigated.
What approach should you recommend?
A. Use App Script and filter views within a Google Sheet.
B. Create an app using AppMaker and App Script.
C. Use a third-party tool.
D. Export log data to BigQuery with custom scopes.
Answer: A (LEAVE A REPLY)

NEW QUESTION: 21
The CFO just informed you that one of their team members wire-transferred money to the wrong account because they received an email that appeared to be from the CFO. The CFO has provided a list of all users that may be responsible for sending wire transfers. The CFO also provided a list of banks the company sends wire transfers to. There are no external users that should be requesting wire transfers. The CFO is working with the bank to resolve the issue and needs your help to ensure that this does not happen again.
What two actions should you take? (Choose two.)
A. Enable all admin settings in Gmail's safety > spoofing and authentication.

B. Create a rule requiring secure transport for all messages regarding wire transfers.
C. Configure objectionable content to reject messages with the words "wire transfer."
D. Verify that DMARC, DKIM, and SPF records are configured correctly for your domain.
E. Add the sender of the wire transfer email to the blocked senders list.
Answer: (SHOW ANSWER)

NEW QUESTION: 22
Your organization deployed G Suite Enterprise within the last year, with the support of a partner. The deployment was conducted in three stages: Core IT, Google Guides, and full organization. You have been tasked with developing a targeted ongoing adoption plan for your G Suite organization.
What should you do?
A. Use Google Guides to deliver ad-hoc training to all of their co-workers and reports.
B. Use Work Insights to gather adoption metrics and target your training exercises.
C. Use Reports APIs to gather adoption metrics and Gmail APIs to deliver training content directly.
D. Use a script to monitor Email attachment types and target users that aren't using Drive sharing.
Answer: (SHOW ANSWER)
Explanation

NEW QUESTION: 23
Your company has been engaged in a lawsuit, and the legal department has been asked to discover and hold all email for two specific users. Additionally, they have been asked to discover and hold any email referencing
"Secret Project 123."
What steps should you take to satisfy this request?
A. Create a Matter and a Hold. Set the Hold to Gmail, set it to Accounts, and enter: user1@your- company.com AND user2@your-company.com. Set the search terms to: secret AND project AND 123.
Save.
B. Create a Matter and a Hold. Set the Hold to Gmail, set it to Accounts, and set the usernames to:
user1@your-company.com, user2@your-company. Set the search terms to: (secret project 123). Save.
C. Create a Matter and a Hold. Set the Hold to Gmail, set it to the top level Organization, and set the search terms to "secret project 123." Create a second Hold. Set the second Hold to Gmail, set it to Accounts, and enter: user1 @your-company.com, user2@your-company.com. Save.
D. Create a Matter and a Hold. Set the Hold to Gmail, set it to Accounts, and set the usernames to:

user1@your-company.com, user2@your-company. Set the search terms to secret OR project OR 123.
Save.

NEW QUESTION: 24
Your company has received help desk calls from users about a new interface in Gmail that they had not seen before. They determined that it was a new feature that Google released recently. In the future, you'll need time to review the new features so you can properly train employees before they see changes.
What action should you take?
A. Company Profile > Profile > New User Features > Enable "Rapid Release"
B. Device Management > Chrome > Device Settings > Stop auto-updates
C. Company Profile > Profile > New User Features > Enable "Scheduled Release"
D. Apps > G Suite > Gmail > Uncheck "Enable Gmail Labs for my users"
Answer: C (LEAVE A REPLY)

NEW QUESTION: 25
Your company's Chief Information Security Officer has made a new policy where third-party apps should not have OAuth permissions to Google Drive. You need to reconfigure current settings to adhere to this policy.
What should you do?
A. Access the Security Menu > API Permissions > choose Drive and Disable All Access.
B. Access the Security Menu > API Permissions > choose Drive and Disable High Risk Access.
C. Access the Security Menu> API Reference > disable all API Access.
D. Access Apps > G Suite > Drive and Docs > Sharing Settings and disable sharing outside of your domain
Answer: D (LEAVE A REPLY)

NEW QUESTION: 26
Security and Compliance has identified secure third-party applications that should have access to G Suite data.
You need to restrict third-party access to only approved applications
What two actions should you take? (Choose two.)
A. Whitelist G Suite Marketplace apps
B. Disable the Drive SDK
C. Whitelist Trusted Apps
D. Disable add-ons for Gmail
E. Restrict API scopes
Answer: C,E (LEAVE A REPLY)

NEW QUESTION: 27
Your organization is concerned with the increasing threat of phishing attacks that may impact users.
Leadership has declined to force-enable 2-Step verification. You need to apply a security measure to prevent unauthorized access to user accounts.
What should you do?
A. Enable Enforce Strong Password policy.
B. Revoke token authorizations to external applications.
C. Decrease the Maximum User Session Length.
D. Enable Employee ID Login Challenge.
Answer: B (LEAVE A REPLY)

NEW QUESTION: 28
External Company is reporting that they are not receiving messages from your users. Your users are reporting that everything is sending fine and they are not receiving bounceback messages or any notifications. You need to determine what could be causing the non-delivery and why they aren't receiving the notifications. What should you do?
A. Ask other customers on Cloud Connect Community if they are experiencing outages.
B. Connect to the user's mailbox and review the headers using the G Suite Toolbox.
C. Review the affected sent messages in the email audit log.
D. Using MX Toolbox, ensure that your SPF, DKIM, and DMARC records are up to date.
Answer: C (LEAVE A REPLY)

NEW QUESTION: 29
Your organization has implemented Single Sign-On (SSO) for the multiple cloud-based services it utilizes. During authentication, one service indicates that access to the SSO provider cannot be accessed due to invalid information.
What should you do?
A. Verify the NameID Element in the SAML Response matches the Assertion Consumer Service (ACS) URL.
B. Verify the Audience Element in the SAML Response matches the Assertion Consumer Service (ACS) URL.
C. Verify the Subject attribute in the SAML Response matches the Assertion Consumer Service (ACS) URL.
D. Verify the Recipient attribute in the SAML Response matches the Assertion Consumer Service (ACS) URL.
Answer: B (LEAVE A REPLY)

NEW QUESTION: 30

Your Accounts Payable department is auditing software license contracts companywide and has asked you to provide a report that shows the number of active and suspended users by organization unit, which has been set up to match the Regions and Departments within your company. You need to produce a Google Sheet that shows a count of all active user accounts and suspended user accounts by Org unit.
What should you do?
A. From the Admin Console Billing Menu, turn off auto-assign, and then click into Assigned Users and export the data to Sheets.
B. From the Admin Console Users Menu, download a list of all Users to Google Sheets, and join that with a list of ORGIDs pulled from the Reports API.
C. From the G Suite Reports Menu, run and download the Accounts Aggregate report, and export the data to Google Sheets.
D. From the Admin Console Users Menu, download a list of all user info columns and currently selected columns.
Answer: (SHOW ANSWER)
Explanation/Reference: https://support.google.com/a/answer/7348070?hl=en

NEW QUESTION: 31
Your Chief Information Security Officer is concerned about phishing. You implemented 2 Factor Authentication and forced hardware keys as a best practice to prevent such attacks. The CISO is curious as to how many such email phishing attempts you've avoided since putting the 2FA+Hardware Keys in place last month.
Where do you find the information your CISO is interested in seeing?
A. Reporting > Reports > Phishing
B. Security > Advanced Security Settings > Phishing Attempts
C. Security > Dashboard > Spam Filter: Phishing
D. Apps > G Suite > Gmail > Phishing Attempts
Answer: B (LEAVE A REPLY)

NEW QUESTION: 32

Your company recently migrated to G Suite and wants to deploy a commonly used third-party app to all of finance. Your OU structure in G Suite is broken down by department. You need to ensure that the correct users get this app.
What should you do?
A. For the Finance OU, enable the third-party app in SAML apps.
B. For the Finance OU, enable the third-party app in Marketplace Apps.
C. At the root level, disable the third-party app. For the Finance OU, allow users to install any application from the G Suite Marketplace.
D. At the root level, disable the third-party app. For the Finance OU, allow users to install only whitelisted apps from the G Suite Marketplace.

NEW QUESTION: 33
Your client is a 5,000-employee company with a high turn-over rate that requires them to add and suspend user accounts. When new employees are onboarded, a user object is created in Active Directory. They have determined that manually creating the users in G Suite Admin Panel is time-consuming and prone to error.
You need to work with the client to identify a method of creating new users that will reduce time and error.
What should you do?
A. Install Google Cloud Directory Sync on all Domain Controllers.
B. Install G Suite Sync for Microsoft Outlook on all employees' computers.
C. Install Google Cloud Directory Sync on a supported server.
D. Install Google Apps Manager to automate add-user scripts.
Answer: A (LEAVE A REPLY)

NEW QUESTION: 34
Your organization syncs directory data from Active Directory to G Suite via Google Cloud Directory Sync. Users and Groups are updated from Active Directory on an hourly basis. A user's last name and primary email address have to be changed. You need to update the user's data.
What two actions should you take? (Choose two.)
A. Change the user's last name in the G Suite Admin panel.
B. Change the user's last name in Active Directory.
C. Add the user's old email address to their account in the G Suite Admin panel.
D. Change the user's primary email address in the G Suite Admin panel.
E. Change the user's primary email in Active Directory.
Answer: (SHOW ANSWER)

NEW QUESTION: 35

Your Security Officer ran the Security Health Check and found the alert that "Installation of mobile applications from unknown sources" was occurring. They have asked you to find a way to prevent that from happening.
Using Mobile Device Management (MDM), you need to configure a policy that will not allow mobile applications to be installed from unknown sources.
What MDM configuration is needed to meet this requirement?
A. In Device Management > Setup > Device Approvals menu, configure the "Requires Admin approval" option.
B. In the Application Management menu, configure the whitelist of apps that Android, iOS devices, and Active Sync devices are allowed to install.
C. In the Application Management menu, configure the whitelist of apps that Android and iOS devices are allowed to install.
D. In Android Settings, ensure that "Allow non-Play Store apps from unknown sources installation" is unchecked.
Answer: (SHOW ANSWER)

NEW QUESTION: 36
Your organization is on G Suite Enterprise and allows for external sharing of Google Drive files to facilitate collaboration with other G Suite customers. Recently you have had several incidents of files and folders being broadly shared with external users and groups. Your chief security officer needs data on the scope of external sharing and ongoing alerting so that external access does not have to be disabled.
What two actions should you take to support the chief security officer's request? (Choose two.)
A. Create a custom Dashboard for external sharing in the Security Investigation Tool.
B. Automatically block external sharing using DLP rules.
C. Review total external sharing in the Aggregate Reports section.
D. Review who has viewed files using the Google Drive Activity Dashboard.
E. Create an alert from Drive Audit reports to notify of external file sharing.
Answer: B,E (LEAVE A REPLY)

NEW QUESTION: 37
Cloud Kicks is customizing the security and sharing features of Salesforce Account Teams and has decided to implement a Custom Account Team object. Cloud Kicks wants the new implementation to utilize Apex and Visualforce on the Custom Account Team object, while still including all of the features of the existing account team.
An Architect is considering two different approaches for designing this enhancement.
Which two considerations are valid? (Choose two.)
A. The need to customize Account screens in Visualforce, as the AccountShare object CANNOT be maintained programmatically

B. The need to dynamically create Criteria-Based Sharing rules with Custom Account Team object data
C. The need to synchronize the AccountTeamMember object with the Custom Account Team object data
D. The need to maintain the AccountShare object based upon the Custom Account Team object data
Answer: C,D (LEAVE A REPLY)

NEW QUESTION: 38
In the years prior to your organization moving to G Suite, it was relatively common practice for users to create consumer Google accounts with their corporate email address (for example, to monitor Analytics, manage AdSense, and collaborate in Docs with other partners who were on G Suite.) You were able to address active employees' use of consumer accounts during the rollout, and you are now concerned about blocking former employees who could potentially still have access to those services even though they don't have access to their corporate email account.
What should you do?
A. Provide a list of all active employees to the managers of your company's Analytics, AdSense, etc. accounts, so they can clean up the respective access control lists.
B. Use the Transfer Tool for Unmanaged Accounts to send requests to the former users to transfer their account to your domain as a managed account.
C. Provision former user accounts with Cloud Identity licenses, generate a new Google password, and place them in an OU with all G Suite and Other Google Services disabled.
D. Contact Google Enterprise Support to provide a list of all accounts on your domain(s) that access non-G Suite Google services and have them blocked.
Answer: A (LEAVE A REPLY)

NEW QUESTION: 39
Your company is in the process of deploying Google Drive Enterprise for your sales organization. You have discovered that there are many unmanaged accounts across your domain. Your security team wants to manage these accounts moving forward.
What should you do?
A. Open a support ticket to have Google transfer unmanaged accounts into your domain.
B. Use the Transfer Tool for unmanaged accounts to invite users into the domain.
C. Use the Data Migration Service to transfer the data to a managed account.
D. Disable access to all "Other Services" in the G Suite Admin Console.
Answer: C (LEAVE A REPLY)

NEW QUESTION: 40
Your company works regularly with a partner. Your employees regularly send emails to your partner's employees. You want to ensure that the Partner contact information

available to your employees will allow them to easily select Partner names and reduce sending errors.
What should you do?
A. Create shared contacts in the Directory using the Domain Shared Contacts API.
B. Create shared contacts in the Directory using the Directory API.
C. Add a secondary domain for the Partner Company and create user entries for each Partner user.
D. Educate users on creating personal contacts for the Partner Employees.
Answer: A (LEAVE A REPLY)

NEW QUESTION: 41
The CIO of your-company.com recently implemented a new compliance policy that requires creating a daily backup of management data in G Suite. You found a good third-party solution that can do exactly that, but you need to make sure that it has access only to the management mail and drive data. What should you do?
A. Create a whitelist of trusted apps and allow users to access Google Drive with the Drive SDK API.
B. Create a content compliance and routing rule that forwards mail and Drive data to your backup solution.
C. Review third-party app access to API scopes, whitelist trusted apps, and block specific API scopes.
D. Create a Service Account and enable G Suite Domain-wide Delegation to access management data.
Answer: C (LEAVE A REPLY)

NEW QUESTION: 42
A company wants to distribute iOS devices to only the employees in the Sales OU. They want to be able to do the following on these devices:
* Control password policies.
* Make corporate apps available to the users.
* Remotely wipe the device if it's lost or compromised
What two steps are required before configuring the device policies? (Choose two.)
A. Turn on Advanced Mobile Management for the domain.
B. Turn on Advanced Mobile Management for Sales OU
C. Set up an Apple Push Certificate.
D. Set up Device Approvals.
E. Deploy Apple Certificate to every device.
Answer: A,D (LEAVE A REPLY)

NEW QUESTION: 43

Madeupcorp.com is in the process of migrating from a third-party email system to G Suite. The VP of Marketing is concerned that her team already administers the corporate AdSense, AdWords, and YouTube channels using their @madeupcorp.com email addresses, but has not tracked which users have access to which service. You need to ensure that there is no disruption.
What should you do?
A. Run the Transfer Tool for Unmanaged users.
B. Use a Google Form to survey the Marketing department users.
C. Assure the VP that there is no action required to configure G Suite.
D. Contact Google Enterprise Support to identify affected users.
Answer: A (LEAVE A REPLY)

NEW QUESTION: 44
Your company has sales offices in Madrid, Tokyo, London, and New York. The outbound email for those offices needs to include the sales person's signature and a compliance footer. The compliance footer needs to say "Should you no longer wish to receive emails about this offer, please reply with UNSUBSCRIBE." You are responsible for making sure that users cannot remove the footer.
What should you do?
A. Send an email to each sales person with the instructions on how to add the footer to their Signature.
B. Ensure that each sales team is in their own OU, and configure the Append Footer with the signature and footer content translated for each locale.
C. Ensure that each sales team is in their own OU, and configure the Append Footer with the footer content translated for each locale.
D. Ensure that each sales team is in their own OU, and configure the Append Footer with footer content.
Answer: C (LEAVE A REPLY)

NEW QUESTION: 45
Your client is a multinational company with a single email domain. The client has compliance requirements and policies that vary by country. You need to configure the environment so that each country has their own administrator and no administrator can manage another country.
What should you do?
A. Create an OU for each country. Create an admin role and assign an admin with that role per OU.
B. Create a Team Drive per OU, and allow only country-specific administration of each folder.

C. Create Admin Alerts, and use the Security Center to audit whether admins manage countries other than their own.
D. Establish a new GSuite tenant with their own admin for each region.

NEW QUESTION: 46
You have configured your G Suite account on the scheduled release track to provide additional time to prepare for new product releases and determine how they will impact your users. There are some new features on the latest roadmap that your director needs you to test as soon as they become generally available without changing the release track for the entire organization.
What should you do?
A. Create a new OU and tum on the rapid release track just for this OU.
B. Create a new Google Group with test users and enable the rapid release track.
C. Establish a separate Dev environment, and set it to rapid release.
D. Ask Google for a demo account with beta access to the new features.

NEW QUESTION: 47
Your company moved to G Suite last month and wants to install Hangouts Meet Hardware in all of their conference rooms. This will allow employees to walk into a room and use the in-room hardware to easily join their scheduled meeting. A distributed training session is coming up, and the facilitator wants to make remote room joining even easier. Participants in remote rooms should walk into their room and begin receiving the training without having to take any actions to join the session.
How should you accomplish this?
A. By adding the rooms to the Calendar invite, they will all auto-join at the scheduled time.
B. In the Admin Console, select the devices in Meeting Room Hardware, select Call, and Enter the meeting code.

C. Select Add Live Stream to the Calendar invite; all rooms added to the event will auto-join at the scheduled time.
D. Room participants will need to start the meeting from the remote in the room.

NEW QUESTION: 50
Cloud Kicks has the following environment:
- Two custom objects named Open Position and Candidate.
- The Candidate object has a lookup relationship to Open Position.
- Both objects are set to Private in sharing settings.
- The Human Resources team will own all Open Position and Candidate records.
Cloud Kicks requests that their Salesforce Architect automatically share the Candidate when the Interviewer (lookup to user record) has been populated. The interviewer can be from any department.

What approach should the Architect use to accomplish this goal?
A. Build Apex Managed Sharing code to share Candidate with the Interviewer user
B. Build a workflow email notification to notify the interviewer of the record assignment
C. Build a criteria-based sharing rule between the Candidate and the Interviewer
D. Build a standard sharing rule between Candidate and the Interviewer

NEW QUESTION: 53

Your CISO is concerned about third party applications becoming compromised and exposing G Suite data you have made available to them. How could you provide granular insight into what data third party applications are accessing?
What should you do?
A. Create a report using the Calendar Audit Activity logs.
B. Create a report using the Drive Audit Activity logs.
C. Create a reporting using the API Permissions logs for Installed Apps.
D. Create a report using the OAuth Token Audit Activity logs.
Answer: D (LEAVE A REPLY)

NEW QUESTION: 54
Cloud Kicks needs to provide implicit record access to users.
Which two options will help Cloud Kicks achieve this goal? (Choose two.)
A. Access to related leads for the owner of the parent campaign
B. Access to child opportunities for the owner of the parent account
C. Read-only access to the parent account for a user with access to a child case
D. Read-only access to parent account for a user, based on a criteria-based sharing rule
Answer: (SHOW ANSWER)

NEW QUESTION: 55
In your organization, users have been provisioned with either G Suite Enterprise, G Suite Business, or no license, depending on their job duties, and the cost of user licenses is paid out of each division's budget. In order to effectively manage the license disposition, team leaders require the ability to look up the type of license that is currently assigned, along with the last logon date, for their direct reports.
You have been tasked with recommending a solution to the Director of IT, and have gathered the following requirements:
- Team leaders must be able to retrieve this data on their own (i.e., self-service).
- Team leaders are not permitted to have any level of administrative access to the G Suite Admin panel.
- Team leaders must only be able to look up data for their direct reports.
- The data must always be current to within 1 week.
- Costs must be mitigated.
What approach should you recommend?
A. Export log data to BigQuery with custom scopes.
B. Use a third-party tool.
C. Use App Script and filter views within a Google Sheet.
D. Create an app using AppMaker and App Script.

NEW QUESTION: 56
DreamHouse Realty partners with the healthcare sector to adapt housing for clients with specific health conditions. DreamHouse Realty wants to store client notes. These client notes are text data that may be long and often contain Personally Identifiable Information (PII) and Personal Health Information (PHI).
This data must be encrypted at rest as well as in transit in order to comply with the Health Insurance Portability and Accountability Act (HIPA).
Which action should the Architect perform to fulfill this requirement?
A. Use an Apex trigger and the Apex Crypto class to encrypt client notes as soon as they are saved to Salesforce
B. No action is required; all Salesforce data is encrypted at rest as part of Salesforce's standard trust measures
C. Create a new Custom Field of type "Text (Encrypted)" and move the client notes data into the new field
D. Enable Salesforce Shield Platform Data Encryption and mark the client notes field as encrypted
Answer: D (LEAVE A REPLY)

NEW QUESTION: 57
All Human Resources employees at your company are members of the "HR Department" Team Drive. The HR Director wants to enact a new policy to restrict access to the "Employee Compensation" subfolder stored on that Team Drive to a small subset of the team.
What should you do?
A. Move the contents of the subfolder to a new Team Drive with only the relevant team members.
B. Move the subfolder to the HR Director's MyDrive and share it with the relevant team members.
C. Use the Drive API to modify the permissions of the individual files contained within the subfolder.
D. Use the Drive API to modify the permissions of the Employee Compensation subfolder.
Answer: C (LEAVE A REPLY)

NEW QUESTION: 60
Your company (your-company.com) just acquired a new business (new-company.com) that is running their email on-premises. It is close to their peak season, so any major changes need to be postponed. However, you need to ensure that the users at the new business can receive email addressed to them using your- company.com into their on-premises email server. You need to set up an email routing policy to accomplish this.
What steps should you take?
A. Set up an Outbound Mail Gateway to route all outbound email to the on-premises server.
B. Set up a Default route with split delivery to route email to the on-premises server.
C. Set up accounts for the new employees, and use mail forwarding rules to send to the on-premises server.
D. Set up an Inbound Mail Gateway to reroute all inbound email to the on-premises server.
