

## HP.HPE2-B02.v2025-08-15.q126

<b>Exam Code:</b>	HPE2-B02
<b>Exam Name:</b>	HPE Virtual Desktop Infrastructure Solutions
<b>Certification Provider:</b>	HP
<b>Free Question Number:</b>	126
<b>Version:</b>	v2025-08-15
<b># of views:</b>	107
<b># of Questions views:</b>	1260
<a href="https://www.freepdfdumps.com/HP.HPE2-B02.v2025-08-15.q126.html">https://www.freepdfdumps.com/HP.HPE2-B02.v2025-08-15.q126.html</a>	

### NEW QUESTION: 1

Which aspect of the user environment is essential to consider when sizing VDI resources?

- A. Printer model
- B. Video conferencing software
- C. Email server
- D. Device type

**Answer: D (LEAVE A REPLY)**

The type of devices used by the users directly impacts the resources needed for VDI sizing and performance optimization.

### NEW QUESTION: 2

Which VDI solution provider offers a product called Workspace ONE?

- A. VMware
- B. Microsoft
- C. Teradici
- D. Citrix

**Answer: A (LEAVE A REPLY)**

VMware offers Workspace ONE as part of its VDI solutions.

### NEW QUESTION: 3

When designing a Virtual Desktop Infrastructure (VDI) solution, which factor should be considered to ensure optimal performance?

- A. Number of users
- B. Application compatibility
- C. Network bandwidth
- D. Server capacity

**Answer: (SHOW ANSWER)**

Network bandwidth is a crucial factor in VDI design to ensure smooth operation and user experience.

**NEW QUESTION: 4**

Which VDI solution provider is known for its partnership with NVIDIA in providing virtualized graphics solutions?

- A. Teradici
- B. VMware
- C. Microsoft
- D. Citrix

**Answer: D (LEAVE A REPLY)**

Citrix has a partnership with NVIDIA to offer virtualized graphics solutions in VDI environments.

**NEW QUESTION: 5**

Which major technology partners are typically included in the HPE Portfolio for VDI solutions?

- A. Cisco
- B. Microsoft
- C. HPE GreenLake
- D. Google Cloud

**Answer: B (LEAVE A REPLY)**

Major technology partners included in the HPE Portfolio for VDI solutions often include Microsoft.

**NEW QUESTION: 6**

What is a golden image in the context of VDI?

- A. A template for creating virtual desktop environments
- B. A server hardware configuration
- C. A virtual desktop session that is ready for a user to log in
- D. A specialized type of hypervisor

**Answer: (SHOW ANSWER)**

A golden image is a template used for creating consistent virtual desktop environments in a VDI setup.

**NEW QUESTION: 7**

What is one key feature of HPE's storage solutions?

- A. Speed
- B. Security
- C. Scalability
- D. None of the above

**Answer: (SHOW ANSWER)**

One key feature of HPE,s storage solutions is scalability.

**NEW QUESTION: 8**

Which of the following is an important consideration when determining the hardware requirements for a VDI solution?

- A. Processor speed
- B. All of the above
- C. Storage capacity
- D. RAM

**Answer: (SHOW ANSWER)**

All of the above components play a critical role in determining the hardware requirements for a VDI solution.

**NEW QUESTION: 9**

When choosing a VDI solution, what is an important factor to consider in terms of licensing cost?

- A. Network speed
- B. Number of virtual machines
- C. Storage capacity
- D. Features and functionalities

**Answer: D (LEAVE A REPLY)**

Licensing costs for VDI solutions can vary based on the included features and functionalities.

**NEW QUESTION: 10**

In what ways does VDI technology support remote working and mobility?

- A. By limiting network connectivity
- B. By requiring physical presence in the office
- C. By restricting access to desktop environments
- D. By centralizing data storage

**Answer: D (LEAVE A REPLY)**

VDI technology supports remote working and mobility by centralizing data storage, enabling employees to access their desktop environments from anywhere with an internet connection.

**NEW QUESTION: 11**

What is an important consideration when determining customer requirements for a VDI solution?

- A. Budget constraints
- B. Weather conditions

- C. Brand loyalty
- D. Political climate

**Answer: A (LEAVE A REPLY)**

Budget constraints are a crucial factor to consider when meeting customer requirements for a VDI solution.

**NEW QUESTION: 12**

When meeting customer requirements for a VDI solution, what is a key consideration to ensure user satisfaction?

- A. Low network latency
- B. Limited remote access options
- C. High server availability
- D. Lack of customization options

**Answer: (SHOW ANSWER)**

Low network latency is crucial for providing a seamless user experience in a VDI environment.

**NEW QUESTION: 13**

Which VDI solution offers Thin Clients as part of its virtual desktop solutions?

- A. VMware
- B. None of the above
- C. Teradici
- D. Citrix

**Answer: C (LEAVE A REPLY)**

Teradici includes Thin Clients as part of its virtual desktop solutions.

**NEW QUESTION: 14**

Which HPE storage solution is specifically designed for VDI environments?

- A. HPE SimpliVity
- B. HPE Primera Storage
- C. HPE Nimble Storage
- D. HPE StoreOnce

**Answer: C (LEAVE A REPLY)**

HPE Nimble Storage is optimized for VDI workloads.

**NEW QUESTION: 15**

What is an important factor to consider when designing a VDI solution for mobile users?

- A. Keyboard layout
- B. Device screen size
- C. Location-based services
- D. Network connectivity

**Answer: D (LEAVE A REPLY)**

When designing a VDI solution for mobile users, network connectivity is an important factor to consider for seamless access.

**NEW QUESTION: 16**

Which VDI solution is known for its focus on high-performance, secured virtual workspaces?

- A. Citrix
- B. Teradici
- C. Microsoft
- D. VMware

**Answer: (SHOW ANSWER)**

Teradici is known for its focus on high-performance, secured virtual workspaces.

**Valid HPE2-B02 Dumps** shared by Actual4test.com for Helping Passing HPE2-B02 Exam! Actual4test.com now offer the **newest HPE2-B02 exam dumps**, the Actual4test.com HPE2-B02 exam **questions have been updated** and **answers have been corrected** get the **newest** Actual4test.com HPE2-B02 dumps with Test Engine here: [https://www.actual4test.com/HPE2-B02\\_examcollection.html](https://www.actual4test.com/HPE2-B02_examcollection.html) (305 Q&As Dumps, **30%OFF Special Discount: Freepdfdumps**)

**NEW QUESTION: 17**

For small businesses looking for affordable storage solutions, the \_\_\_\_\_ is an appropriate choice.

Response:

- A. HPE MSA Storage
- B. HPE 3PAR StoreServ Storage
- C. HPE StoreEasy Storage
- D. HPE Nimble Storage

**Answer: A (LEAVE A REPLY)**

**NEW QUESTION: 18**

Which company is known for its VDI solutions under the name "VMware Horizon Apps"?

- A. Oracle
- B. VMware
- C. Citrix
- D. Microsoft

**Answer: B (LEAVE A REPLY)**

VMware offers VDI solutions through VMware Horizon Apps.

**NEW QUESTION: 19**

Which design principle focuses on ensuring that VDI solutions can accommodate varying workloads and user demands?

- A. Security
- B. Scalability
- C. Optimization
- D. Standardization

**Answer: B (LEAVE A REPLY)**

Scalability in VDI design allows the system to grow or shrink based on changing demands and requirements.

**NEW QUESTION: 20**

Which HPE technology focuses on providing an adaptive backup and recovery solution for virtualized environments?

- A. HPE ProLiant
- B. HPE Nimble Storage
- C. HPE Aruba
- D. HPE StoreOnce

**Answer: D (LEAVE A REPLY)**

HPE StoreOnce is HPE's adaptive backup and recovery solution designed for virtualized environments, providing efficient data protection.

**NEW QUESTION: 21**

Which VDI solution is known for its VMware Horizon product for desktop virtualization?

- A. VMware
- B. Teradici
- C. Citrix
- D. None of the above

**Answer: A (LEAVE A REPLY)**

VMware is recognized for its VMware Horizon product for desktop virtualization in the VDI space.

**NEW QUESTION: 22**

Which feature is emphasized in HPE's GreenLake as-a-Service offerings?

- A. Cost-efficiency
- B. Scalability
- C. None of the above
- D. Security

**Answer: A (LEAVE A REPLY)**

Cost-efficiency is emphasized in HPE's GreenLake as-a-Service offerings.

**NEW QUESTION: 23**

What does VDI stand for in the context of virtualization technology?

- A. Virtual Desktop Infrastructure
- B. Virtual Data Interaction
- C. Virtual Desktop Interface
- D. Virtual Data Integration

**Answer: A (LEAVE A REPLY)**

VDI stands for Virtual Desktop Infrastructure, which refers to the practice of hosting a desktop operating system within a virtual machine run on a remote server.

**NEW QUESTION: 24**

What are the key considerations when deploying VDI in an organization?

- A. Virtual machine backups, patch management, and storage capacity
- B. Antivirus software, browser plugins, and network latency
- C. Software licensing, server capacity, and physical hardware
- D. User requirements, network infrastructure, and security

**Answer: D (LEAVE A REPLY)**

Key considerations for deploying VDI include understanding user requirements, evaluating network infrastructure, and ensuring data security.

**NEW QUESTION: 25**

Which HPE networking solution is commonly used in VDI deployments to provide high-speed, low-latency connectivity?

- A. HPE ProCurve switches
- B. HPE Aruba switches
- C. HPE FlexFabric switches
- D. HPE OfficeConnect switches

**Answer: B (LEAVE A REPLY)**

HPE Aruba switches are often used for VDI deployments due to their performance and reliability.

**NEW QUESTION: 26**

What is the difference between persistent and non-persistent desktops in VDI?

- A. Persistent desktops are more secure than non-persistent desktops
- B. Persistent desktops retain user changes; non-persistent desktops reset after each session
- C. Persistent desktops are faster to deploy than non-persistent desktops
- D. Non-persistent desktops require more server resources

**Answer: (SHOW ANSWER)**

Persistent desktops retain user changes across sessions, while non-persistent desktops reset to their original state after each session in VDI.

**NEW QUESTION: 27**

When meeting customer requirements for VDI solutions, what should be considered as a primary focus?

- A. Brand popularity
- B. Latest technology features
- C. Cost-effectiveness
- D. Customer location

**Answer: C (LEAVE A REPLY)**

Cost-effectiveness should be a primary focus when meeting customer requirements for VDI solutions.

**NEW QUESTION: 28**

What is the main virtual desktop infrastructure solution offered by VMware?

- A. Remote Desktop Services
- B. Horizon View
- C. Teradici Cloud Access Software
- D. XenDesktop

**Answer: B (LEAVE A REPLY)**

**NEW QUESTION: 29**

What is the purpose of VDI remote display protocols?

- A. To deliver a virtual desktop experience to users over the network
- B. To handle user authentication
- C. To manage networking
- D. To manage storage

**Answer: A (LEAVE A REPLY)**

The purpose of VDI remote display protocols is to deliver a virtual desktop experience to users over the network.

**NEW QUESTION: 30**

When considering licensing for VDI solutions, what should an organization be aware of?

- A. All of the above
- B. Number of users
- C. Virtualization platform compatibility
- D. Feature requirements

**Answer: A (LEAVE A REPLY)**

Organizations should consider factors such as number of users, virtualization platform compatibility, and feature requirements when evaluating VDI licensing.

### NEW QUESTION: 31

What is the first step in understanding and meeting customer requirements for a VDI solution?

- A. Deploying the solution
- B. Ignoring customer feedback
- C. Skipping the planning phase
- D. Gathering information

**Answer: D (LEAVE A REPLY)**

Gathering information is the first step in understanding and meeting customer requirements for a VDI solution.

**Valid HPE2-B02 Dumps** shared by Actual4test.com for Helping Passing HPE2-B02 Exam! Actual4test.com now offer the **newest HPE2-B02 exam dumps**, the Actual4test.com HPE2-B02 exam **questions have been updated** and **answers have been corrected** get the **newest** Actual4test.com HPE2-B02 dumps with Test Engine here: [https://www.actual4test.com/HPE2-B02\\_examcollection.html](https://www.actual4test.com/HPE2-B02_examcollection.html) (305 Q&As Dumps, **30%OFF Special Discount: Freepdfdumps**)

### NEW QUESTION: 32

Explain the concept of session virtualization in the context of VDI.

- A. It involves running multiple virtual desktop instances on a single server
- B. It focuses on optimizing network bandwidth for virtual desktop access
- C. It refers to running virtual desktops on different physical servers
- D. It allows users to share a common session on a virtual desktop

**Answer: D (LEAVE A REPLY)**

Session virtualization in VDI allows multiple users to share a common session on a virtual desktop, increasing efficiency and resource utilization.

### NEW QUESTION: 33

Which HPE solution is known for providing high-performance storage arrays designed for hybrid IT environments?

- A. HPE ProLiant
- B. HPE Nimble Storage
- C. HPE SimpliVity
- D. HPE Aruba

**Answer: B (LEAVE A REPLY)**

HPE Nimble Storage offers high-performance storage arrays for hybrid IT environments, with predictive analytics and automation capabilities.

**NEW QUESTION: 34**

Which HPE technology enables organizations to simplify and automate IT operations through AI-driven insights and recommendations?

- A. HPE Pointnext
- B. HPE InfoSight
- C. HPE Financial Services
- D. HPE GreenLake

**Answer: B (LEAVE A REPLY)**

HPE InfoSight provides AI-driven insights and recommendations to simplify and automate IT operations, improving efficiency and performance.

**NEW QUESTION: 35**

Which VDI solution is known for its Remote Desktop Services (RDS) providing virtual desktop infrastructure?

- A. VMware
- B. Microsoft
- C. Citrix
- D. Teradici

**Answer: (SHOW ANSWER)**

Microsoft is known for its Remote Desktop Services (RDS) providing virtual desktop infrastructure.

**NEW QUESTION: 36**

Which VDI solution is known for its role in providing virtual desktop infrastructure solutions for business environments?

- A. Microsoft
- B. Teradici
- C. Citrix
- D. VMware

**Answer: D (LEAVE A REPLY)**

VMware is known for providing virtual desktop infrastructure solutions for business environments.

**NEW QUESTION: 37**

What is HPE GreenLake for VDI?

- A. A managed service that brings the cloud experience to your data center
- B. A standalone VDI platform
- C. A hardware-only solution
- D. A software application for virtual desktop infrastructure

**Answer: A (LEAVE A REPLY)**

HPE GreenLake for VDI is a managed service that brings the cloud experience to your data center.

**NEW QUESTION: 38**

Which company is known for its VDI solutions under the name "Citrix Virtual Desktop"?

- A. VMware
- B. Citrix
- C. Microsoft
- D. Oracle

**Answer: B (LEAVE A REPLY)**

Citrix provides VDI solutions through Citrix Virtual Desktop.

**NEW QUESTION: 39**

When considering VDI solutions, what role does licensing play in terms of cost management?

- A. All of the above
- B. Scalability options
- C. Predictable costs
- D. Support services

**Answer: C (LEAVE A REPLY)**

Licensing for VDI solutions can help manage costs by offering predictable pricing structures and options for scalability.

**NEW QUESTION: 40**

When sizing a VDI solution, why is it important to consider the workload requirements of users?

- A. To ensure that users have enough resources to run their applications efficiently
- B. To simplify the deployment process
- C. To minimize costs for hardware and software
- D. To improve network security

**Answer: A (LEAVE A REPLY)**

Sizing a VDI solution involves considering the workload requirements of users to ensure that they have enough resources to run their applications efficiently.

**NEW QUESTION: 41**

How does VDI differ from traditional desktop computing?

- A. VDI requires specialized hardware
- B. VDI is more expensive
- C. VDI allows for remote access
- D. VDI does not support multimedia applications

**Answer: C (LEAVE A REPLY)**

VDI differs from traditional desktop computing by allowing users to access their desktop environment remotely from any device.

**NEW QUESTION: 42**

Which VDI solution may offer a per-user licensing model allowing access to virtual desktops from multiple devices?

- A. Citrix
- B. VMware
- C. Teradici
- D. Microsoft

**Answer: D (LEAVE A REPLY)**

Microsoft may offer a per-user licensing model allowing access to virtual desktops from multiple devices.

**NEW QUESTION: 43**

What is the role of a connection broker in a VDI deployment?

- A. Handling user authentication
- B. Managing virtual desktop resources
- C. Securing data transmission
- D. Connecting end users to their virtual desktop sessions

**Answer: D (LEAVE A REPLY)**

A connection broker in a VDI deployment is responsible for connecting end users to their virtual desktop sessions, often based on user credentials and resource availability.

**NEW QUESTION: 44**

What is the purpose of profile management in a VDI environment?

- A. Monitoring virtual desktop performance
- B. Storing user profile data across virtual desktop sessions
- C. Securing virtual desktop access
- D. Managing network infrastructure

**Answer: (SHOW ANSWER)**

Profile management in a VDI environment involves storing user-specific data and settings across virtual desktop sessions for a consistent user experience.

**NEW QUESTION: 45**

Which of the following infrastructure components must be included for a VDI setup catering to graphic designers?

(Choose Three)

Response:

- A. 10Gb Ethernet adapters
- B. NVMe storage

- C. Basic SATA drives
- D. High-performance GPUs
- E. Fiber channel switches

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 46**

Explain the concept of desktop virtualization in the context of VDI.

- A. It allows users to access their desktop environment remotely
- B. It focuses on virtualizing network infrastructure
- C. It involves virtualizing physical desktop computers
- D. It refers to the process of distributing desktops in a virtual environment

**Answer: C ([LEAVE A REPLY](#))**

Desktop virtualization in the context of VDI involves virtualizing physical desktop computers to improve manageability and security.

**Valid HPE2-B02 Dumps** shared by Actual4test.com for Helping Passing HPE2-B02 Exam! Actual4test.com now offer the **newest HPE2-B02 exam dumps**, the Actual4test.com HPE2-B02 exam **questions have been updated** and **answers have been corrected** get the **newest** Actual4test.com HPE2-B02 dumps with Test Engine here: [https://www.actual4test.com/HPE2-B02\\_examcollection.html](https://www.actual4test.com/HPE2-B02_examcollection.html) (305 Q&As Dumps, **30%OFF Special Discount: Freepdfdumps**)

**NEW QUESTION: 47**

When sizing storage for VDI solutions, what is the importance of considering redundant storage options?

- A. Increase application performance
- B. Enhance data protection
- C. Reduce server costs
- D. Improve user experience

**Answer: B ([LEAVE A REPLY](#))**

Redundant storage options enhance data protection and ensure data availability in case of storage failure in a VDI environment.

**NEW QUESTION: 48**

Which VDI solution offers a comprehensive suite of products and solutions for virtual desktops, applications, and networking?

- A. Teradici
- B. None of the above
- C. VMware

D. Citrix

**Answer: (SHOW ANSWER)**

Citrix provides a wide range of products and solutions for virtual desktops, applications, and networking in the VDI market.

**NEW QUESTION: 49**

What should be considered when addressing a customer's budget constraints for a VDI solution?

- A. User training needs
- B. Hardware specifications
- C. Licensing costs
- D. Support services availability

**Answer: (SHOW ANSWER)**

Licensing costs play a significant role in determining the feasibility of a VDI solution within a customer's budget constraints.

**NEW QUESTION: 50**

How does HPE GreenLake for VDI help organizations meet their virtual desktop infrastructure needs?

- A. By limiting customization options
- B. By offering fixed pricing with no flexibility
- C. By providing a flexible consumption-based model
- D. By requiring organizations to manage the entire infrastructure themselves

**Answer: C (LEAVE A REPLY)**

HPE GreenLake for VDI helps organizations meet their virtual desktop infrastructure needs by providing a flexible consumption-based model.

**NEW QUESTION: 51**

Why is it important to communicate effectively with the customer when gathering requirements for a VDI solution?

- A. To confuse the customer
- B. To delay the project
- C. To ensure their needs are met
- D. To increase costs

**Answer: C (LEAVE A REPLY)**

It is important to communicate effectively with the customer when gathering requirements for a VDI solution to ensure their needs are met accurately.

**NEW QUESTION: 52**

Which of the following is NOT a benefit of VDI?

- A. Increased hardware costs

- B. Improved security
- C. Flexible access for users
- D. Centralized management

**Answer: A (LEAVE A REPLY)**

Increased hardware costs is not a benefit of VDI.

**NEW QUESTION: 53**

What role does ongoing support play in meeting customer requirements for a VDI solution?

- A. Ensuring the availability of support services
- B. It is not important
- C. One-time setup is sufficient
- D. Ignoring customer needs after implementation

**Answer: B (LEAVE A REPLY)**

Ongoing support ensures the availability of assistance and maintenance services to address any issues that may arise with the VDI solution.

**NEW QUESTION: 54**

What role does scalability play in meeting customer requirements for VDI solutions?

- A. Scalability is irrelevant
- B. Scalability is only important for small businesses
- C. Scalability is crucial to ensure the solution can grow with the business
- D. Scalability only matters for large enterprises

**Answer: C (LEAVE A REPLY)**

Scalability is crucial to ensure the VDI solution can grow with the business and meet customer requirements.

**NEW QUESTION: 55**

What is the primary benefit of implementing VDI in an organization?

- A. Increased physical hardware costs
- B. Improved data security
- C. Minimal user access control
- D. Reduced network bandwidth

**Answer: (SHOW ANSWER)**

One of the primary benefits of VDI is improved data security as the desktop environments are stored and managed centrally on servers.

**NEW QUESTION: 56**

What is the main purpose of VDI technology?

- A. Increasing physical server capacity
- B. Improving internet speed
- C. Centralizing desktop management

D. Enhancing graphic design capabilities

**Answer: C (LEAVE A REPLY)**

The main purpose of VDI technology is centralizing desktop management to simplify administration and improve security.

**NEW QUESTION: 57**

What is an advantage of implementing VDI solutions from Citrix, VMware, or Teradici over traditional desktop systems?

- A. Centralized management
- B. Flexibility for remote work
- C. All of the above
- D. Improved security

**Answer: D (LEAVE A REPLY)**

Implementing VDI solutions can offer advantages such as centralized management, improved security, and flexibility for remote work compared to traditional desktop systems.

**NEW QUESTION: 58**

Which HPE service provides a consumption-based model for delivering VDI solutions?

- A. HPE Pointnext Services
- B. HPE Datacenter Care
- C. HPE Proactive Care
- D. HPE GreenLake

**Answer: D (LEAVE A REPLY)**

HPE GreenLake offers a flexible, pay-as-you-go model for VDI solutions.

**NEW QUESTION: 59**

What is a key consideration when selecting a VDI solution for an organization?

- A. All of the above
- B. Performance
- C. Scalability
- D. Cost-effectiveness

**Answer: A (LEAVE A REPLY)**

Key considerations when choosing a VDI solution include scalability, cost-effectiveness, and performance.

**NEW QUESTION: 60**

What role does desktop virtualization play in VDI?

- A. It enables users to access virtual desktops
- B. It manages server resources
- C. It ensures data security
- D. It increases physical hardware costs

**Answer: A (LEAVE A REPLY)**

Desktop virtualization allows users to access their virtual desktops from any location, facilitating remote work and flexibility in VDI.

**NEW QUESTION: 61**

Which VDI solution offers a comprehensive suite of products for desktop virtualization, including Horizon, Workspace ONE, and vRealize?

- A. VMware
- B. Teradici
- C. None of the above
- D. Citrix

**Answer: A (LEAVE A REPLY)**

VMware offers a range of products for desktop virtualization, aimed at providing comprehensive solutions for businesses.

**Valid HPE2-B02 Dumps** shared by Actual4test.com for Helping Passing HPE2-B02 Exam! Actual4test.com now offer the **newest HPE2-B02 exam dumps**, the Actual4test.com HPE2-B02 exam **questions have been updated** and **answers have been corrected** get the **newest** Actual4test.com HPE2-B02 dumps with Test Engine here: [https://www.actual4test.com/HPE2-B02\\_examcollection.html](https://www.actual4test.com/HPE2-B02_examcollection.html) (305 Q&As Dumps, **30%OFF Special Discount: Freepdfdumps**)

**NEW QUESTION: 62**

What is a thin client in the context of VDI?

- A. A type of virtual network interface card
- B. A server room cooling system
- C. A lightweight device used to access virtual desktops
- D. A physical desktop computer

**Answer: (SHOW ANSWER)**

A thin client in the context of VDI is a lightweight device that is used to access virtual desktops running on a server.

**NEW QUESTION: 63**

When considering VDI licensing, which factor is important to consider?

- A. Number of users
- B. Server location
- C. Firewall settings
- D. Network speed

**Answer: (SHOW ANSWER)**

The number of users is an important consideration when determining VDI licensing requirements.

**NEW QUESTION: 64**

What is the purpose of a connection broker in a VDI environment?

- A. Managing user connections
- B. Providing network connectivity
- C. Allocating CPU resources
- D. Monitoring disk space

**Answer: A (LEAVE A REPLY)**

The connection broker in a VDI environment is responsible for managing user connections and directing them to the appropriate virtual desktop.

**NEW QUESTION: 65**

Which HPE product line offers scalable, low-latency solutions for demanding workloads in data centers?

- A. HPE Nimble Storage
- B. HPE SimpliVity
- C. HPE InfoSight
- D. HPE 3PAR

**Answer: (SHOW ANSWER)**

**NEW QUESTION: 66**

How does VDI technology help IT departments streamline desktop management?

- A. By limiting user access to data
- B. By increasing the number of physical desktops
- C. By centralizing management of virtual desktops
- D. By disabling software updates

**Answer: C (LEAVE A REPLY)**

VDI technology helps IT departments streamline desktop management by centralizing the management of virtual desktops, allowing for easier updates and maintenance.

**NEW QUESTION: 67**

In order to meet customer requirements for VDI solutions, what should be evaluated in terms of end-user experience?

- A. Application compatibility
- B. Network speed
- C. Bandwidth requirements
- D. Device connectivity

**Answer: A (LEAVE A REPLY)**

Application compatibility is crucial for ensuring a seamless end-user experience with VDI solutions.

**NEW QUESTION: 68**

What is a focus area of HPE's edge solutions?

- A. IoT
- B. Data storage
- C. Network security
- D. None of the above

**Answer: A ([LEAVE A REPLY](#))**

A focus area of HPE's edge solutions is IoT (Internet of Things).

**NEW QUESTION: 69**

How does the number of virtual desktops affect the hardware requirements in a VDI solution?

- A. The number of virtual desktops impacts hardware resources such as CPU, memory, and storage
- B. Fewer virtual desktops reduce CPU utilization
- C. More virtual desktops require less storage space
- D. More virtual desktops increase network bandwidth needs

**Answer: ([SHOW ANSWER](#))**

The number of virtual desktops directly impacts the hardware resources needed in a VDI solution, including CPU, memory, and storage requirements.

**NEW QUESTION: 70**

Why is it important to perform a performance analysis during the design and sizing phase of a VDI solution?

- A. To ensure compliance with licensing agreements
- B. To estimate power consumption
- C. To validate the performance meets user expectations
- D. To optimize server cooling

**Answer: ([SHOW ANSWER](#))**

Performance analysis helps in validating that the designed VDI solution will meet the performance expectations of end users.

**NEW QUESTION: 71**

Which of the following factors should be considered when sizing the storage requirements for a VDI solution?

- A. Number of user sessions
- B. Number of physical servers
- C. Amount of available disk space

D. CPU utilization

**Answer: (SHOW ANSWER)**

Storage requirements for a VDI solution should be sized based on the number of user sessions, as each session requires storage for operating system, applications, and user data.

**NEW QUESTION: 72**

Which component plays a critical role in sizing the memory allocation for VDI solutions to support various user workloads?

- A. Random access memory (RAM)
- B. Central processing units (CPUs)
- C. Network switches
- D. Graphics cards

**Answer: A (LEAVE A REPLY)**

RAM is a critical component in sizing memory allocation for VDI solutions to ensure optimal performance and user productivity.

**NEW QUESTION: 73**

Which VDI solution is popular for its Citrix XenDesktop and Citrix XenApp products?

- A. None of the above
- B. Teradici
- C. Citrix
- D. VMware

**Answer: (SHOW ANSWER)**

Citrix is well-known for its Citrix XenDesktop and Citrix XenApp products in the VDI market.

**NEW QUESTION: 74**

What does VDI stand for in the context of virtualization technology?

- A. Virtual Desktop Infrastructure
- B. Virtual Data Interface
- C. Virtual Data Integration
- D. Virtual Desktop Implementation

**Answer: A (LEAVE A REPLY)**

VDI stands for Virtual Desktop Infrastructure, which refers to the technology used to create virtual desktop environments on a centralized server.

**NEW QUESTION: 75**

Which VDI solution is known for providing desktop virtualization and virtual application delivery?

- A. Citrix
- B. VMware

- C. Teradici
- D. Microsoft

**Answer: (SHOW ANSWER)**

Citrix is known for providing desktop virtualization and virtual application delivery.

#### **NEW QUESTION: 76**

What is a common method used to estimate the storage requirements for a VDI environment?

- A. Performing a storage capacity planning exercise
- B. Assessing the number of concurrent users
- C. None of the above
- D. Calculating average file sizes used by users

**Answer: A (LEAVE A REPLY)**

Performing a storage capacity planning exercise is a common method used to estimate storage requirements for a VDI environment.

**Valid HPE2-B02 Dumps** shared by Actual4test.com for Helping Passing HPE2-B02 Exam! Actual4test.com now offer the **newest HPE2-B02 exam dumps**, the Actual4test.com HPE2-B02 exam **questions have been updated** and **answers have been corrected** get the **newest** Actual4test.com HPE2-B02 dumps with Test Engine here: [https://www.actual4test.com/HPE2-B02\\_examcollection.html](https://www.actual4test.com/HPE2-B02_examcollection.html) (305 Q&As Dumps, **30%OFF Special Discount: Freepdfdumps**)

#### **NEW QUESTION: 77**

When designing a VDI solution, what factors should be considered for determining the number of virtual desktops needed?

- A. CPU and memory requirements
- B. User workload
- C. Network bandwidth
- D. Storage capacity

**Answer: B (LEAVE A REPLY)**

When designing a VDI solution, it is important to consider the user workload to determine the number of virtual desktops needed.

#### **NEW QUESTION: 78**

What is a desktop pool in VDI?

- A. A group of virtual desktops shared by multiple users
- B. A group of physical desktops
- C. A group of virtual desktops for single-user access

D. A group of user profiles

**Answer: (SHOW ANSWER)**

A desktop pool in VDI is a group of virtual desktops shared by multiple users.

**NEW QUESTION: 79**

Which of the following areas does the HPE Portfolio cover?

A. All of the above

B. Networking

C. Computing

D. Storage

**Answer: A (LEAVE A REPLY)**

The HPE Portfolio covers networking, storage, and computing solutions.

**NEW QUESTION: 80**

When sizing storage for a VDI solution, how can deduplication and compression technologies benefit the environment?

A. Enhance user interface responsiveness

B. Increase server CPU utilization

C. Improve graphics rendering performance

D. Decrease network bandwidth usage

**Answer: D (LEAVE A REPLY)**

Deduplication and compression technologies can benefit a VDI environment by decreasing network bandwidth usage when sizing storage.

**NEW QUESTION: 81**

What is HPE GreenLake for VDI?

A. A consulting service for technical support

B. An open-source software platform

C. A physical desktop hardware solution

D. A subscription-based service offering virtual desktop infrastructure solutions

**Answer: (SHOW ANSWER)**

HPE GreenLake for VDI is a subscription-based service offering virtual desktop infrastructure solutions.

**NEW QUESTION: 82**

When evaluating VDI solutions, why is it important to consider licensing from the beginning?

A. To determine hardware requirements

B. To accurately estimate implementation costs

C. To ensure regulatory compliance

D. To avoid compatibility issues

**Answer: B (LEAVE A REPLY)**

Considering licensing from the beginning helps in accurately estimating the implementation costs of VDI solutions.

**NEW QUESTION: 83**

What should be considered when meeting customer requirements for a VDI solution in terms of security?

- A. Sharing passwords among users
- B. Encryption of data at rest and in transit
- C. Allowing unmanaged devices to access the VDI
- D. Disabling multi-factor authentication

**Answer: (SHOW ANSWER)**

Encryption of data at rest and in transit is a key consideration to maintain security in a VDI solution.

**NEW QUESTION: 84**

Which of the following is NOT typically a consideration when it comes to VDI licensing?

- A. Number of virtual desktops
- B. Support and maintenance fees
- C. Number of concurrent connections
- D. Hard drive capacity

**Answer: D (LEAVE A REPLY)**

Hard drive capacity is not typically a direct factor in VDI licensing considerations.

**NEW QUESTION: 85**

Which VDI solution is known for its popular virtualization software products like VMware Horizon?

- A. Citrix
- B. VMware
- C. Teradici
- D. Microsoft

**Answer: (SHOW ANSWER)**

VMware is known for its popular virtualization software products like VMware Horizon.

**NEW QUESTION: 86**

Why is it important to consider user personas when designing a VDI solution?

- A. To reduce hardware and software costs
- B. To ensure that users have a personalized desktop experience
- C. To increase network performance
- D. To tailor the VDI solution to different user needs and preferences

**Answer: D (LEAVE A REPLY)**

Considering user personas when designing a VDI solution helps tailor the solution to different user needs and preferences, ultimately improving user satisfaction.

**NEW QUESTION: 87**

Which feature of HPE GreenLake for VDI directly impacts user experience by providing faster deployment and flexibility?

Response:

- A. On-demand resource availability
- B. Pre-configured hardware options
- C. Fixed performance metrics
- D. Traditional deployment models

**Answer: A (LEAVE A REPLY)**

**NEW QUESTION: 88**

Which VDI solution offers both on-premises and cloud-based VDI solutions for businesses?

- A. VMware
- B. Microsoft
- C. Citrix
- D. Teradici

**Answer: C (LEAVE A REPLY)**

Citrix offers both on-premises and cloud-based VDI solutions for businesses.

**NEW QUESTION: 89**

What is included in the HPE Portfolio in relation to Virtual Desktop Infrastructure solutions?

- A. Storage solutions
- B. Networking solutions
- C. Software solutions
- D. Server solutions

**Answer: B (LEAVE A REPLY)**

The HPE Portfolio includes networking solutions for Virtual Desktop Infrastructure solutions.

**NEW QUESTION: 90**

Which VDI solution offers the option of using NVIDIA virtual GPU technology for enhanced graphics performance on virtual desktops?

- A. Citrix
- B. VMware
- C. Microsoft
- D. Teradici

**Answer: B (LEAVE A REPLY)**

VMware offers the option of using NVIDIA virtual GPU technology for enhanced graphics performance on virtual desktops.

**NEW QUESTION: 91**

Which VDI solution is known for its Horizon View product for virtual desktop infrastructure?

- A. Citrix
- B. Teradici
- C. VMware
- D. None of the above

**Answer: (SHOW ANSWER)**

VMware is recognized for its Horizon View product for virtual desktop infrastructure in the VDI domain.

**Valid HPE2-B02 Dumps** shared by Actual4test.com for Helping Passing HPE2-B02 Exam! Actual4test.com now offer the **newest HPE2-B02 exam dumps**, the Actual4test.com HPE2-B02 exam **questions have been updated** and **answers have been corrected** get the **newest** Actual4test.com HPE2-B02 dumps with Test Engine here: [https://www.actual4test.com/HPE2-B02\\_examcollection.html](https://www.actual4test.com/HPE2-B02_examcollection.html) (305 Q&As Dumps, **30%OFF Special Discount: Freepdfdumps**)

**NEW QUESTION: 92**

Which of the following is NOT a VDI solution provider mentioned in the question?

- A. Citrix
- B. Amazon Web Services
- C. VMware
- D. Microsoft

**Answer: (SHOW ANSWER)**

Amazon Web Services is not traditionally considered a VDI solution provider.

**NEW QUESTION: 93**

Citrix's FMA architecture is designed to improve which aspect of VDI performance?

Response:

- A. Flexibility and scalability
- B. Security only
- C. Physical desktop integration
- D. Data compression rates

**Answer: A (LEAVE A REPLY)**

**NEW QUESTION: 94**

Describe the concept of application virtualization in the context of VDI.

- A. It focuses on virtualizing network connections for remote access
- B. It refers to running applications on physical desktops
- C. It involves isolating applications from the underlying operating system
- D. It optimizes the performance of virtual machines

**Answer: C (LEAVE A REPLY)**

Application virtualization in VDI involves isolating applications from the underlying operating system, allowing for more efficient distribution and management.

#### **NEW QUESTION: 95**

Which HPE solution can help optimize virtualized desktops and applications through automated infrastructure management?

- A. HPE SimpliVity
- B. HPE OneSphere
- C. HPE Nimble Storage
- D. HPE Apollo Systems

**Answer: B (LEAVE A REPLY)**

HPE OneSphere can help optimize virtualized desktops and applications through automated infrastructure management.

#### **NEW QUESTION: 96**

Why is it important to conduct thorough testing and validation during the design and sizing phase of a VDI project?

- A. To ensure that the solution meets performance requirements
- B. To identify potential bottlenecks
- C. To assess the scalability of the solution
- D. All of the above

**Answer: D (LEAVE A REPLY)**

Conducting thorough testing and validation helps in ensuring that the VDI solution meets performance requirements, identifies potential bottlenecks, and assesses scalability.

#### **NEW QUESTION: 97**

What is HPE GreenLake for VDI?

- A. A free trial for VDI solutions
- B. A software-only solution for VDI
- C. A subscription-based service for virtual desktop infrastructure solutions
- D. A physical hardware solution for VDI

**Answer: C (LEAVE A REPLY)**

HPE GreenLake for VDI is a subscription-based service that offers virtual desktop infrastructure solutions.

**NEW QUESTION: 98**

What factors should be considered when tailoring VDI solutions to meet specific customer requirements?

- A. Budget constraints
- B. Latest trends in the tech industry
- C. Weather forecasts
- D. Customer requests

**Answer: A (LEAVE A REPLY)**

Factors such as budget constraints should be considered when tailoring VDI solutions to meet specific customer requirements.

**NEW QUESTION: 99**

Which VDI solution provider offers solutions specifically designed for industries such as healthcare, finance, and government?

- A. None of the above
- B. VMware
- C. Citrix
- D. Teradici

**Answer: C (LEAVE A REPLY)**

Citrix provides solutions tailored for specific industries such as healthcare, finance, and government, addressing industry-specific needs.

**NEW QUESTION: 100**

What is a common consideration when sizing storage for VDI solutions?

- A. Memory allocation
- B. Network latency
- C. Storage capacity
- D. Number of CPUs

**Answer: C (LEAVE A REPLY)**

Storage capacity is crucial in VDI sizing to ensure that the system can handle user data and application requirements effectively.

**NEW QUESTION: 101**

What is the first step in meeting customer requirements for a VDI solution?

- A. Suggesting additional features
- B. Providing a budget estimate
- C. Implementing the solution
- D. Gathering technical requirements

**Answer: D (LEAVE A REPLY)**

Gathering technical requirements is crucial in understanding the needs of the customer before proposing a solution.

**NEW QUESTION: 102**

Which factor should be taken into account when sizing hardware components for a VDI solution?

- A. Power consumption
- B. Physical size
- C. Performance metrics
- D. Cable management

**Answer: (SHOW ANSWER)**

Performance metrics of the hardware components are crucial in accurately sizing them for optimal VDI operation and user experience.

**NEW QUESTION: 103**

What is the purpose of profile management in VDI?

- A. To provide secure access to virtual desktops
- B. To store user data and preferences separate from the desktop image
- C. To allocate hardware resources
- D. To manage virtual machines

**Answer: B (LEAVE A REPLY)**

The purpose of profile management in VDI is to store user data and preferences separate from the desktop image.

**NEW QUESTION: 104**

When designing a Virtual Desktop Infrastructure (VDI) solution, what factors should be considered for sizing the environment?

- A. Type of applications being used
- B. Network bandwidth
- C. All of the above
- D. Number of users

**Answer: C (LEAVE A REPLY)**

All of the above factors should be considered when sizing a VDI environment to ensure optimal performance.

**NEW QUESTION: 105**

What is the purpose of a connection broker in a VDI environment?

- A. Installs software on end-point devices
- B. Manages the connections between end-users and virtual desktops
- C. Maintains network infrastructure
- D. Monitors virtual machine performance

**Answer: B (LEAVE A REPLY)**

A connection broker in a VDI environment manages the connections between end-users and virtual desktops, ensuring efficient access.

**NEW QUESTION: 106**

Which of the following elements should be discussed with the customer to ensure their needs are met?

- A. Pet,s name
- B. Favorite color
- C. Hardware specifications
- D. Favorite movie

**Answer: C (LEAVE A REPLY)**

Hardware specifications are essential to discuss with the customer when meeting their requirements for a VDI solution.

**Valid HPE2-B02 Dumps** shared by Actual4test.com for Helping Passing HPE2-B02 Exam! Actual4test.com now offer the **newest HPE2-B02 exam dumps**, the Actual4test.com HPE2-B02 exam **questions have been updated** and **answers have been corrected** get the **newest** Actual4test.com HPE2-B02 dumps with Test Engine here: [https://www.actual4test.com/HPE2-B02\\_examcollection.html](https://www.actual4test.com/HPE2-B02_examcollection.html) (305 Q&As Dumps, **30%OFF Special Discount: Freepdfdumps**)

**NEW QUESTION: 107**

In a VDI solution, what is the purpose of creating user profiles and personas during the design and sizing phase?

- A. To select the appropriate networking equipment
- B. To calculate the ROI of the VDI project
- C. To personalize the virtual desktop experience
- D. To determine the number of physical servers required

**Answer: (SHOW ANSWER)**

Creating user profiles and personas helps in personalizing the virtual desktop experience for different user groups based on their requirements and preferences.

**NEW QUESTION: 108**

When designing and sizing a VDI solution, what key factor should be considered to ensure optimal performance and user experience?

- A. RAM size
- B. Network bandwidth
- C. Screen resolution
- D. Processor speed

**Answer: B (LEAVE A REPLY)**

Network bandwidth is a critical factor in designing and sizing a VDI solution to ensure smooth performance and user experience.

**NEW QUESTION: 109**

Which VDI solution offers a VDI-in-a-Box product for simple and cost-effective virtual desktop deployments?

- A. Teradici
- B. VMware
- C. Citrix
- D. None of the above

**Answer: C (LEAVE A REPLY)**

Citrix provides a VDI-in-a-Box product for straightforward and budget-friendly virtual desktop deployments.

**NEW QUESTION: 110**

How does HPE GreenLake for VDI help organizations meet their VDI requirements?

- A. By limiting scalability options
- B. By providing a fixed infrastructure
- C. By offering a pay-per-use model for resources
- D. By reducing security measures

**Answer: C (LEAVE A REPLY)**

HPE GreenLake for VDI helps organizations meet their VDI requirements by offering a pay-per-use model for resources.

**NEW QUESTION: 111**

Which factor should be taken into consideration when determining the number of virtual desktops to deploy for a customer's VDI solution?

- A. User workload
- B. Network latency
- C. RAM size
- D. CPU speed

**Answer: A (LEAVE A REPLY)**

User workload should be analyzed to determine the appropriate number of virtual desktops needed for a VDI solution.

**NEW QUESTION: 112**

What role does user profile management play in the design and sizing of a VDI solution?

- A. It helps in defining user access permissions
- B. It assists in allocating appropriate resources to users
- C. None of the above

D. It ensures data security

**Answer: (SHOW ANSWER)**

User profile management assists in allocating appropriate resources to users based on their specific requirements and usage patterns.

**NEW QUESTION: 113**

Why is it important to align VDI solutions with customer requirements?

A. To ensure customer satisfaction and usability

B. To impress competitors

C. To make the solution more expensive

D. To limit innovation

**Answer: (SHOW ANSWER)**

Aligning VDI solutions with customer requirements is important to ensure customer satisfaction and usability.

**NEW QUESTION: 114**

What is the purpose of a hypervisor in a VDI environment?

A. Providing user authentication

B. Managing network traffic

C. Enabling virtualization on server hardware

D. Delivering applications to end users

**Answer: C (LEAVE A REPLY)**

The purpose of a hypervisor in a VDI environment is to enable virtualization on server hardware, allowing for multiple virtual desktops to run on a single physical server.

**NEW QUESTION: 115**

When meeting customer requirements for a VDI solution, what should be considered when it comes to security?

A. Disregarding compliance regulations

B. Implementing multi-factor authentication

C. Using default passwords

D. Ignoring security concerns

**Answer: (SHOW ANSWER)**

Implementing multi-factor authentication is essential to enhance security measures in a VDI environment.

**NEW QUESTION: 116**

What is the role of a hypervisor in a VDI environment?

A. Patches the virtual desktops

B. Monitors the network connectivity

C. Creates and runs virtual machines

D. Manages the physical desktops

**Answer: C (LEAVE A REPLY)**

The hypervisor is responsible for creating and running virtual machines in a VDI environment.

**NEW QUESTION: 117**

What should organizations consider when evaluating VDI solutions from different vendors?

- A. Vendor reputation
- B. Support and maintenance offerings
- C. All of the above
- D. Compatibility with existing infrastructure

**Answer: (SHOW ANSWER)**

Organizations should consider factors such as compatibility with existing infrastructure, support and maintenance offerings, and vendor reputation when comparing VDI solutions.

**NEW QUESTION: 118**

Which HPE product line is known for providing high-performance computing solutions?

- A. HPE Nimble Storage
- B. HPE Aruba
- C. HPE SimpliVity
- D. HPE High Performance Computing (HPC) solutions

**Answer: D (LEAVE A REPLY)**

HPE High Performance Computing (HPC) solutions are designed for high-performance computing requirements.

**NEW QUESTION: 119**

Which VDI solution offers solutions such as XenDesktop and XenApp?

- A. Citrix
- B. Microsoft
- C. Teradici
- D. VMware

**Answer: A (LEAVE A REPLY)**

Citrix offers solutions such as XenDesktop and XenApp.

**NEW QUESTION: 120**

How does VDI technology contribute to disaster recovery planning?

- A. By centralizing data storage and backups
- B. By reducing the need for network connectivity
- C. By disabling user access during emergencies
- D. By increasing the number of physical desktops

**Answer: A (LEAVE A REPLY)**

VDI technology contributes to disaster recovery planning by centralizing data storage and backups, making it easier to restore desktop environments in case of a disaster.

**NEW QUESTION: 121**

What is an important consideration when determining the hardware requirements for a VDI solution?

- A. Disk I/O
- B. GPU capabilities
- C. Memory
- D. CPU

**Answer: (SHOW ANSWER)**

When determining hardware requirements for a VDI solution, GPU capabilities are an important consideration, especially for graphics-intensive applications.

**Valid HPE2-B02 Dumps** shared by Actual4test.com for Helping Passing HPE2-B02 Exam! Actual4test.com now offer the **newest HPE2-B02 exam dumps**, the Actual4test.com HPE2-B02 exam **questions have been updated** and **answers have been corrected** get the **newest** Actual4test.com HPE2-B02 dumps with Test Engine here: [https://www.actual4test.com/HPE2-B02\\_examcollection.html](https://www.actual4test.com/HPE2-B02_examcollection.html) (305 Q&As Dumps, **30%OFF Special Discount: Freepdfdumps**)

**NEW QUESTION: 122**

Which of the following considerations is important when selecting hardware components for VDI infrastructure design?

- A. Energy efficiency
- B. Aesthetic design
- C. Total cost
- D. Gaming performance

**Answer: (SHOW ANSWER)**

When selecting hardware components for VDI infrastructure design, energy efficiency is important to reduce power consumption and operational costs.

**NEW QUESTION: 123**

Which VDI solution is known for PCoIP (PC-over-IP) technology that delivers secure virtual workspaces?

- A. VMware
- B. Citrix
- C. Teradici
- D. Microsoft

**Answer: C (LEAVE A REPLY)**

Teradici is known for PCoIP technology that delivers secure virtual workspaces.

**NEW QUESTION: 124**

VMware offers a VDI solution known as \_\_\_\_\_.

- A. RemoteFX
- B. Horizon View
- C. ThinApp
- D. XenDesktop

**Answer: B (LEAVE A REPLY)**

VMware,s VDI solution is called Horizon View.

**NEW QUESTION: 125**

What is a virtual desktop pool in VDI architecture?

- A. An online marketplace for VDI software
- B. A group of virtual machines with similar configurations
- C. A collection of physical desktop computers
- D. A network of remote access servers

**Answer: B (LEAVE A REPLY)**

A virtual desktop pool in VDI architecture refers to a group of virtual machines with similar configurations that are deployed for users.

**NEW QUESTION: 126**

What role does user mobility play in VDI licensing considerations?

- A. It does not impact licensing requirements
- B. It increases the number of required virtual desktops
- C. It determines the support and maintenance fees
- D. It influences the choice of VDI solution provider

**Answer: B (LEAVE A REPLY)**

User mobility may increase the number of required virtual desktops in VDI licensing considerations.

**Valid HPE2-B02 Dumps** shared by Actual4test.com for Helping Passing HPE2-B02 Exam!
