NEW QUESTION: 1

For the polarization of electromagnetic waves, which of the following descriptions is correct is (). (Select 3 Answers)

- A. The polarization of the antenna refers to the direction of the magnetic field strength formed when the antenna radiates
, The direction of the electric field changes according to a certain rule
- B. If the electric field direction of the electric wave is perpendicular to the ground, we call it a vertically polarized wave
- C. The antenna radiates electromagnetic waves to the surrounding space
- D. If the transmitting antenna is circularly polarized, the receiving antenna must also be circularly polarized, and the polarization direction of the two must be the same.

Answer: B,C,D (LEAVE A REPLY)

NEW QUESTION: 2

Which of the following descriptions of management VLAN is correct is ().

- A. Service VLAN under the service set template
- B. PVID VLAN under the WLAN ESS interface
- C. Mainly responsible for transmitting data when WLAN users go online
- D. Responsible for the establishment of the CAPWAP tunnel between AC and AP

Answer: D (LEAVE A REPLY)

NEW QUESTION: 3

AP The size of the coverage area is controlled by ().

(Select 2 Answers)

- A. adjust AP Power supply
- B. adjust AP Transmit power
- C. adjust AP Antenna angle

D. adjust AP Access bandwidth

Answer: B,C (LEAVE A REPLY)

NEW QUESTION: 4

The following () service model can provide end-to-end QoS services, but the scalability is not good.

A. FIFO model

B. Best Effort model

C. IntServ model

D. DiffServ model

Answer: C (LEAVE A REPLY)

NEW QUESTION: 5

For shared key authentication, the error described below is ().

A. The shared secret requires users and AP Use the same shared secret

B. For skinny AP, The shared key is preset in AC middle

C. After adopting shared key authentication, you must use WEP Encryption

D. The disadvantages of shared keys are poor scalability and not very secure

Answer: B (LEAVE A REPLY)

NEW QUESTION: 6

Which of the following commands connect Huawei to the switch

A. interface GigabitEthernet 0/0/1

port link-type trunk

trunk allow-pass VLAN 100

B. interface

GigabitEthernet 0/0/1 port link-type

access

port allow-pass VLAN 100

C. interface GigabitEthernet 0/0/1

port link-type trunk

VLAN 100

D. interface GigabitEthernet 0/0/1

port link-type access

GE 0/0/1 Port added to VLAN100 middle()?

port default VLAN 100

Answer: D (LEAVE A REPLY)

NEW QUESTION: 7

about WDS Which of the following statements is correct ()? (Select 2 Answers)

A. Huawei indoor AP not support WDS Features

- B. WDS Used by default 2.4GHz Band as a bridge band
- C. Connect two independent LAN segments through a wireless bridge and provide data transmission between them
- D. Scalability is good, and there is no need to lay new wired connections and deploy more

Answer: C,D ([LEAVE A REPLY](#))

NEW QUESTION: 8

The index used to describe the degree of antenna convergence of the transmit power is (

- A. Broadband
- B. power
- C. Gain
-).
D. polarity

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 9

For the following WLAN networking configuration, which statement is correct ().

(Select 3 Answers)

- A. The WMM template is bound to the RF template
- B. The user tries his best to ensure that the planning data is detailed when planning the data, which will greatly facilitate the later configuration
- C. Before sending the configuration to the AP, the AP must be online
- D. Configure the WMM template can be directly bound to the antenna

Answer: A,B,C ([LEAVE A REPLY](#))

NEW QUESTION: 10

AC6605 supports three ways to establish AP and AC intercommunication, what are the differences ()?

(Select 3 Answers)

- A. Find APs through multicast and go online automatically
- B. Automatically discover the AP and go online normally
- C. Automatically discover AP and confirm to go online
- D. Add AP offline

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 11

Multi-floor deployment in a building AP When, the factor that needs attention is ().

(Select 3 Answers)

- A. The material of the wall
- B. Unified planning channel
- C. In order not to affect the beauty, AP Should be hidden in the ceiling

D. Other interference signals

Answer: A,B,D (LEAVE A REPLY)

NEW QUESTION: 12

The distance between the center frequencies of the two channels is less than or equal to In order to avoid adjacent channel interference during domain channel planning, the same channel is not allowed to be used.

25MHz When there is an overlapping area between the channels, there will be some interference, so in the adjacent area

A. False

B. True

Answer: A (LEAVE A REPLY)

NEW QUESTION: 13

Which of the following statements are correct () ? (Select 3 Answers)

(Select 3 Answers)

A. WDS can transmit the data of the wired network through the wireless network as a relay structure, so that the network data can be transmitted to another wireless network Network environment, or another wired network.

B. Because the virtual network line is formed through the wireless network, WDS is also called the wireless network bridging function.

C. WDS can allow wireless APs to bridge (relay) wirelessly, but the bridged wireless APs cannot provide coverage at the same time.

D. The wireless network bridging function usually refers to one-to-one, but the WDS architecture can do one-to-many.

Answer: A,B,D (LEAVE A REPLY)

NEW QUESTION: 14

WLAN When configuring the network, WMM Which of the following templates should the template be bound to ()?

A. radio-profile

B. traffic-profile

C. service-set

D. security-profile

Answer: B (LEAVE A REPLY)

NEW QUESTION: 15

Which of the following 2.4GHz The frequency bands are non-overlapping channels (). (Select 3 Answers)

A. 4 and 10

B. 3 and 8

- C. 4 and 8
- D. 6 and 11

Answer: A,B,D (LEAVE A REPLY)

NEW QUESTION: 16

802.11a What kind of technology is used to implement the agreement?

- A. OFDM
- B. DSSS
- C. MIMO
- D. FHSS

Answer: A (LEAVE A REPLY)

Valid H12-311_V3.0 Dumps shared by Actual4test.com for Helping Passing H12-311_V3.0 Exam! Actual4test.com now offer the **newest H12-311_V3.0 exam dumps**, the Actual4test.com H12-311_V3.0 exam **questions have been updated** and **answers have been corrected** get the **newest** Actual4test.com H12-311_V3.0 dumps with Test Engine here: https://www.actual4test.com/H12-311_V3.0_examcollection.html (343 Q&As Dumps, **30%OFF Special Discount: Freepdfdumps**)

NEW QUESTION: 17

Which of the following commands can be viewed AC Current configuration()?

- A. display ap all
- B. display version
- C. display interface
- D. display current-configuration

Answer: D (LEAVE A REPLY)

NEW QUESTION: 18

802.11g What rates can be supported?

- A. 6,9,12,18,24,30,36,48,54 Mbps
- B. 1,2,5.5,11&6,9,12,18,24,36,48,54 Mbps
- C. 6, 9, 12, 18, 24, 36, 48, 54 Mbps
- D. 1,2,5.5,11&6,9,12,18,24,30,36,48,54 Mbps

Answer: (SHOW ANSWER)

NEW QUESTION: 19

In the following options, () is not the main purpose of roaming.

- A. Guarantee users IP The address remains unchanged
- B. Ensure that the user's network rate remains unchanged

- C. Ensure that the user authorization information remains unchanged
- D. Avoid long authentication time during roaming, resulting in packet loss or even business interruption

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 20

To the following WLAN In the description of the network diagram, the error is ().

- A. Can be configured and managed on the access switch VLAN of PVIDA.
- B. can use AC As DHCP Server ,give AP distribute IP address
- C. The picture shows the bypass networking
- D. You cannot use the aggregation switch to STA distribute IP address

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 21

1999 Year, IEEE 802.11a The standard formulation is completed. The standard stipulates that the working frequency band of wireless local area network can reach the transmission rate 11Mbps .

5.15 ~5.825GHz , Data transmission

- A. True
- B. False

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 22

802.11a What are the supported rates ()?

- A. 6,12,24,54 Mbps
- B. 6,12,18,24,36,48,54 Mbps
- C. 6, 9, 12, 18, 24, 36, 48, 54 Mbps
- D. 6,9,12,18,24,30,36,48,54 Mbps

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 23

STA issued 802.11 Message to pass AP When entering the Ethernet, it is converted to 802.3 Packets that are not in the priority mapping method are ().

- A. Arrive according to the message AP Precedence
- B. according to UP Map to priority
- C. No priority mapping
- D. According to different VAP Set different priorities

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 24

thin AP Find AC In the process, the first step is AP Check if there is pre-configured static AC of IP List.

- A. True
- B. False

Answer: (SHOW ANSWER)

NEW QUESTION: 25

In order to facilitate management and maintenance, AP The power supply mode is generally preferred to select () for power supply.

- A. POE switch
- B. Independent power adapter
- C. POE adapter
- D. AC power supply

Answer: A (LEAVE A REPLY)

NEW QUESTION: 26

Huawei Wireless Controller AC6605 The upgrade operation can only be performed on the wired side of the controller.

- A. False
- B. True

Answer: B (LEAVE A REPLY)

NEW QUESTION: 27

Which of the following descriptions of power splitters and couplers are correct is ().

- A. Power divider and coupler are unequal power distribution
- B. The power divider is equal power distribution, and the coupler is unequal power distribution
- C. Power divider and coupler are equal power distribution
- D. The power divider is unequal power distribution, and the coupler is equal power distribution

Answer: B (LEAVE A REPLY)

NEW QUESTION: 28

The following about SSID The statement is wrong ().

- A. One AP Can release the same SSID Signal
- B. One AP Configurable SSID There is no limit to the number
- C. One AP Can release multiple different SSID
- D. Multiple AP Can release the same one on SSID

Answer: B (LEAVE A REPLY)

NEW QUESTION: 29

Which of the following is a restart AC6605 The command()?

- A. <Quidway> reboot
- B. [Quidway]reload
- C. <Quidway> reload
- D. [Quidway] reboot

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 30

Which of the following protocols support 2.4GHz Frequency band()? (Select 3 Answers)

- A. 802.11a
- B. 802.11b
- C. 802.11g
- D. 802.11n

Answer: B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 31

It can be connected with the antenna via ().

- A. Network cable
- B. CATV coaxial cable
- C. Power cord
- D. 50 ohm RF coaxial cable

Answer: ([SHOW ANSWER](#))

Coaxial cable

Valid H12-311_V3.0 Dumps shared by Actual4test.com for Helping Passing H12-311_V3.0 Exam! NEW QUESTION: 32

WLAN middle,AP It has been working in a half-duplex state.

- A. False
- B. True

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 33

CCMP The algorithm used for encryption is ().

- A. RC4
- B. AES
- C. SMS4
- D. Michael

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 34

IEEE 802.11 The standard used to define roaming is ().

- A. IEEE 802.11h
- B. IEEE 802.11r
- C. IEEE 802.11c
- D. IEEE 802.11j

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 35

2.4 GHz How many channels () can the frequency band be divided into at most?

- A. 3
- B. 14
- C. 13
- D. 11

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 36

Terminal is different VLAN The roaming within belongs to ().

- A. Four-tier roaming
- B. Seamless AP roaming
- C. Three-tier roaming
- D. Two-tier roaming

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 37

By multiple AP And the infrastructure mode network composed of distributed systems connecting them, also called what ()?

- A. Extended service area
- B. Basic service set
- C. Basic service area
- D. Extended service set

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 38

The following statement is correct ().

(Select 3 Answers)

- A. WAPI is China's national standard system for wireless LAN
- B. WPA2 uses 802.1X authentication
- C. When the user performs web authentication, it is triggered by the user's http message after successfully obtaining the IP address; at this time, it is forcibly redirected to the portal server, Go through the certification process
- D. WPA2 PSK authentication requires the user to enter a user name and password to connect

Answer: A,B,C ([LEAVE A REPLY](#))

NEW QUESTION: 39

Which of the following functions does the Huawei WLAN planning tool have ()?

(Select 3 Answers)

- A. Support exporting standardized WLAN planning reports
- B. Support automatic identification of obstacles
- C. Support the division of general coverage areas and key coverage areas
- D. Support automatic deployment of AP locations

Answer: A,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 40

exist WDS In the deployment, what kinds of bridge networking modes are included ()?

(Select 3 Answers)

- A. Point-to-multipoint
- B. Multipoint to multipoint
- C. Point-to-point method
- D. Relay bridging method

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 41

If one BSS Totally by STA Composition, then BSS What is also called ()?

- A. ESS
- B. SSID
- C. BSA
- D. IBSS

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 42

AP There are several types of domain deployment (). (Select 3 Answers)

- A. Ordinary deployment
- B. Densely deployed
- C. Discrete deployment

D. Independent deployment

Answer: A,B,C ([LEAVE A REPLY](#))

NEW QUESTION: 43

Huawei AP The product can only support one configuration SSID .

A. True

B. False

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 44

original 802.11 What is the working frequency band used by the agreement ()?

A. 2.0 GHz

B. 5 GHz

C. 2.4 GHz

D. 900 MHz

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 45

for AC6605 , The following command () can be used to view AP Is it online?

A. display ap-type all

B. display ap online all

C. display ap-run-info all

D. display ap all

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 46

original 802.11 What is the maximum rate supported by the protocol Mbps ()?

A. 11

B. 1

C. 2

D. 5.5

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 47

MIMO(Multiple input and multiple output) The client can use at most 3 Two spatial streams transmit data at the same time, and the maximum theoretical rate can reach , That is, multiple input and multiple output, using 600Mbps . 802.11n Technology wireless access point and guest

- A. True
- B. False

Answer: B (LEAVE A REPLY)

NEW QUESTION: 48

To obtain better coverage, try to use AP Signal can () Through the wall.

- A. 45°
- B. vertical
- C. 60°
- D. parallel

Answer: B (LEAVE A REPLY)

NEW QUESTION: 49

The following is for thin AP Is the description correct ()?

- A. thin AP Also known as wireless router
- B. thin AP can be realised 802.1X Authentication, encryption and other functions, others such as QoS, Roaming functions are implemented on the wireless controller
- C. thin AP Cannot be configured separately, must be used in conjunction with the wireless controller
- D. thin AP Because of lack of function, is gradually getting fat AP replace

Answer: (SHOW ANSWER)

NEW QUESTION: 50

If one wireless client connects to two AP identical SSID Next, what is used to determine which wireless terminal is connected to? ()?

- AP
- A. SSID
 - B. BSSID
 - C. ESSID
 - D. BSA

Answer: B (LEAVE A REPLY)

NEW QUESTION: 51

How to set the condition of switching trigger (). (Select 2 Answers)

- A. when STA Yohara AP Start switching after reaching a certain distance
- B. Set current AP With neighbors AP Signal strength ratio, switch when reaching the threshold
- C. Yohara AP Start the switch when the network speed is very slow during association
- D. Check the packet loss rate and start the handover when the packet loss rate reaches a certain value

Answer: [\(SHOW ANSWER\)](#)

NEW QUESTION: 52

CAPWAP The port number of the control message of the tunnel protocol is ().

- A. 1645
- B. 5247
- C. 1646
- D. 5246

Answer: B [\(LEAVE A REPLY\)](#)

NEW QUESTION: 53

AP Unavailable IP Common reasons for addresses are (). (Select 3 Answers)

- A. Incorrect address pool configuration
- B. POE Power failure
- C. Intermediate network problem
- D. Address pool exhausted

Answer: A,C,D [\(LEAVE A REPLY\)](#)

NEW QUESTION: 54

Which of the following ports can only belong to 1 Piece VLAN ().

- A. trunk
- B. eth-trunk
- C. hybrid
- D. access

Answer: D [\(LEAVE A REPLY\)](#)

NEW QUESTION: 55

802.11 In the frame, STA Which type of frame () does the association request and authentication request belong to?

- A. Management frame
- B. Data Frame
- C. Data frame, control frame, management frame have this function
- D. Control frame

Answer: A [\(LEAVE A REPLY\)](#)

NEW QUESTION: 56

Huawei plug-in controller ACU Board manageable AP What is the maximum number of ()?

- A. 512
- B. 256
- C. 1024
- D. 128

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 57

In theory, the network cable used in the project cannot exceed ()rice.

- A. 150
- B. 80
- C. 100
- D. 50

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 58

Which modulation method is the picture below ()?

- A. AM
- B. Wave modulation
- C. FM
- D. phase modulation

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 59

The following pairs PSK The authentication description is wrong ().

- A. WPA and WPA2 All support PSK Certification
- B. PSK Authentication requires the same pre-shared key to be configured on the wireless client and device
- C. PSK Certification is passed 4 Handshake Key Negotiate to verify STA side Key The legitimacy
- D. PSK The authentication process is similar to the shared key authentication process, so the security is the same

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 60

There are four wireless STA, According to the following backoff time parameters, which workstation has the priority to occupy the channel?

- A. 7
- B. 4

C. 6

D. 5

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 61

If a AP Has been added offline, then AP You can go online directly.

A. True

B. False

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 62

802.11 In the frame, RTS and CTS What is the interframe interval between ()?

A. PIFS

B. DIFS

C. SIFS

D. IFS

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 63

If there is a high demand for WLAN capacity in a coverage area, the construction method of () should be considered.

A. Combination of indoor distribution system

B. Outdoor AP+ directional antenna

C. Combination of outdoor distribution system

D. Indoor installation

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 64

Which of the following rates is not 802.11

a. The rate supported by the protocol ()?

A. 6Mbps

B. 30Mbps

C. 24Mbps

D. 12Mbps

Answer: B (LEAVE A REPLY)

NEW QUESTION: 65

WDS Technology improves the flexibility and convenience of the entire network structure, but it can only support point-to-point working mode.

A. False

B. True

Answer: A (LEAVE A REPLY)

NEW QUESTION: 66

Which of the following statements about antenna classification is correct ()? (Select 2 Answers)

A. Classified by working frequency band: communication antenna, TV antenna, radar antenna, etc.

B. Classified by directivity: omnidirectional antenna, directional antenna, etc.

C. Classified by shape: linear antenna, planar antenna, etc.

D. Classified by purpose: short wave antenna, ultra short wave antenna, microwave antenna, etc.

Answer: B,C (LEAVE A REPLY)

NEW QUESTION: 67

Which of the following standards organizations implements WLAN technical interoperability for WLAN equipment certification ()?

A. IETF

B. IEEE

C. WiFi

D. FCC

Answer: C (LEAVE A REPLY)

NEW QUESTION: 68

By a wireless AP And what is the network of associated wireless clients called ()?

A. BSS

B. ESS

C. NSS

D. IBSS

Answer: A (LEAVE A REPLY)

NEW QUESTION: 69

Which configuration methods does the wireless controller support ()?

(Select 3 Answers)

- A. console Port configuration
- B. LLDP Configuration
- C. pass through eSight Configuration
- D. telnet Configuration

Answer: A,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 70

Which of the following options are 802.11b/g What are the differences between the agreements? (Select 3 Answers)

- A. Working frequency is different
- B. Different throughput
- C. The two protocols use different technologies
- D. Different supported data rates

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 71

AP able to pass POE The switch performs power supply and data transmission.

- A. False
- B. True

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 72

The lobe width is a very important parameter commonly used in directional antennas. It refers to the width of the antenna's radiation pattern below the peak (.)dB The angle of the premises

- A. 5
- B. 4
- C. 3
- D. 6

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 73

Various pipes, metal keels and aluminum alloy gussets in the ceiling will have a greater impact on the actual signal coverage effect.

- A. True
- B. False

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 74

SSID What is the Chinese name of ()?

- A. Service set ID
- B. Basic service area
- C. Basic service set
- D. Extended service set

Answer: (SHOW ANSWER)

NEW QUESTION: 75

AP The systematic process of radio frequency resource management is ().

- A. Acquisition -> Analysis -> Decision -> Execution
- B. Acquisition -> Analysis -> Execution -> Decision
- C. Analysis -> Acquisition -> Decision -> Execution
- D. Acquisition -> Decision -> Analysis -> Execution

Answer: A (LEAVE A REPLY)

NEW QUESTION: 76

802.11g What is the bandwidth of each channel of the frequency band ()?

- A. 20 MHz
- B. 50 MHz
- C. 22 MHz
- D. 25 MHz

Answer: A (LEAVE A REPLY)

NEW QUESTION: 77

What are the prerequisites for users to achieve three-tier roaming ()?

(Select 3 Answers)

- A. The SSID released by the two APs of the user roaming handover must have the same authentication method
- B. User roaming requires two AP signals to cover overlapping areas
- C. The two APs for user roaming switching must have the same VLAN
- D. The two APs that the user roams over must have the same SSID

Answer: A,B,D (LEAVE A REPLY)

NEW QUESTION: 78

Which is the longest interval between 802.11 frames ()?

- A. SIFS
- B. IFS
- C. DIFS
- D. PIFS

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 79

Regarding the networking mode, the following description is correct ().

- A. Compared with the three-layer network, the two-layer network is more suitable for large-scale networks such as parks and stadiums.
- B. In a direct-connected network, AP Business data can not go through AC And directly reach the upstream network
- C. The advantage of the three-layer network is simple configuration and easy networking
- D. if AC The ability to process data is relatively weak, it is recommended to use bypass networking

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 80

802.11 The parameter used in the frame to check the integrity of the received frame is ()

- A. Sequence control bit
- B. Frame Control
- C. Duration
- D. FCS

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 81

Capacity planning mainly starts from the aspects of equipment performance, number of users, bandwidth requirements, and wireless environment, and estimates the amount required to meet the business volume. AP number quantity.

- A. False
- B. True

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 82

Configuration AP Authentication mode, AP What are the supported authentication methods ()? (Select 3 Answers)

- A. no-auth
- B. mac-auth
- C. mac-sn-auth

D. sn-auth

Answer: A,B,D ([LEAVE A REPLY](#))

NEW QUESTION: 83

The following description of TKIP encryption is wrong ().

- A. TKIP encryption adds the mechanism of Key generation, management and transmission
- B. TKIP encryption uses the same encryption algorithm as WEP encryption
- C. The motivation for developing TKIP encryption is to upgrade the security of the old WEP hardware
- D. The length of IV used in TKIP encryption is 24 bits

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 84

Below does not belong AP The binding template is ().

- A. AP template
- B. RF template
- C. ESS template
- D. Planning table template

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 85

BSS Full name Basic Service Set ,BSS It can be divided Independent BSS and Infrastructure BSS Two kinds.

- A. True
- B. False

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 86

A large number of devices appear AP and AC How to deal with the version mismatch failure ().

- A. Upgrade the versions to match each other
- B. replace AP equipment
- C. Replace the switch
- D. an examination POE Is the power supply normal

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 87

802.11 In the frame, Address Which address bit represents the address of the receiving end of the frame ()?

- A. Address 1
- B. Address 2

C. Address 3

D. Address 4

Answer: A (LEAVE A REPLY)

NEW QUESTION: 88

CCMP Encryption ratio TKIP Encryption security is high because of ().

A. Used longer IV

B. Added message integrity check mechanism

C. A more complex encryption algorithm is used

D. Added a key distribution mechanism, no longer using a single key

Answer: (SHOW ANSWER)

NEW QUESTION: 89

Which of the following devices belong to Huawei Wireless Dual Band AP(Access Point)?

(Select 2 Answers)

A. AP6010SN

B. AP6010DN

C. AP5010SN

D. AP5010DN

Answer: (SHOW ANSWER)

NEW QUESTION: 90

AP If you want to pass DNS Server fetch AC of IP Address, first get your own IP address,DHCP Server and DNS of IP address.

A. False

B. True

Answer: B (LEAVE A REPLY)

NEW QUESTION: 91

Regarding the functional characteristics of AP6010SN, which of the following statements is correct is ().

(Select 2 Answers)

A. AP6010SN is an indoor distributed AP, which only supports working in the 2.4GHz frequency band

B. AP6010SN has an Ethernet interface and supports 802.3af PoE power supply standard

C. AP6010SN not only has a built-in antenna, but also an external antenna, which is very convenient

D. AP6010SN supports WDS function, which can realize point-to-point and point-to-multipoint wireless bridging

NEW QUESTION: 92

Huawei Box Wireless Controller AC6605 support twenty four Piece PoE Interface in WLAN Can be directly connected when networking AC of AP Make a supply Electricity.

- A. False
- B. True

Answer: A (LEAVE A REPLY)

NEW QUESTION: 93

802.11a exist 20M How many sub-carriers can be used to transmit data in the mode ()?

- A. 52
- B. 56
- C. 48
- D. 54

Answer: (SHOW ANSWER)

NEW QUESTION: 94

AP Domain AP The deployment type does not include ().

- A. Orderly deployment
- B. Discrete deployment
- C. Densely deployed
- D. Ordinary deployment

Answer: (SHOW ANSWER)

NEW QUESTION: 95

Among the following options, which factors will cause users to be unable to search for wireless network signals ()? (Select 2 Answers)

- A. AP Configured 5G Priority, leading to 2.4G Wireless client cannot find the signal
- B. The user's wireless network card is not enabled or the hardware switch of the wireless network card is not turned on
- C. The wireless controller is equipped with user isolation function
- D. The user's wireless network card driver is abnormal

Answer: (SHOW ANSWER)

NEW QUESTION: 96

CAPWAP What are the main contents of the agreement ()? (Select 3 Answers)

- A. AP right AC Automatic discovery and AP&AC State machine operation and maintenance
- B. AC right AP Perform management and business configuration delivery
- C. Defined Mac Layer and physical layer transmission rate
- D. STA Data encapsulation CAPWAP Tunnel forwarding

Answer: A,B,D ([LEAVE A REPLY](#))

NEW QUESTION: 97

and 802.11a/b/g The standards are different, 802.11n Protocol is dual-frequency working mode (support 2.4GHz and 5GHz Two working frequency bands).

- A. True
- B. False

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 98

because 802.11a The maximum rate supported is the same as 802.11g. The maximum rate supported is the same, so 802.11a Protocol is backward compatible 802.11g Agreement.

- A. False
- B. True

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 99

In a point-to-multipoint networking environment, one device serves as the central device, and all other devices only establish wireless bridges with the central device to realize the interconnection of multiple networks. The disadvantage is that the intercommunication of multiple branch networks must be forwarded through the central bridge device.

- A. False
- B. True

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 100

Barker Code is a 11 Bit sequence (e.g. 10110111000), there are advantages in wireless transmission, which can effectively reduce interference, but it reduces efficiency.

- A. True
- B. False

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 101

Which of the following options is the frequency range supported by China 5GHz Frequency band()?

- A. 5.725~5.825GHz
- B. 5.15~5.25GHz
- C. 5.25~5.35GHz
- D. 5.725~5.850GHz

Answer: (SHOW ANSWER)

NEW QUESTION: 102

The equipment manufacturer can usually be judged according to the following ().

- A. Encryption type
- B. MAC address
- C. SSID
- D. channel

Answer: B (LEAVE A REPLY)

NEW QUESTION: 103

For protection WLAN Security, which of the following measures can be taken? (Select 3 Answers)

- A. encryption
- B. Authentication
- C. Control flow
- D. System protection

Answer: A,B,D (LEAVE A REPLY)

NEW QUESTION: 104

Which of the following statements is correct ()?

(Select 2 Answers)

- A. When the user performs web authentication, it is triggered by the user's http message after successfully obtaining the IP address; at this time, it is forcibly redirected to the portal server, Go through the certification process
- B. WPA2 uses 802.1X authentication
- C. WPA only supports TKIP, an encryption technology
- D. When the user performs web authentication, it is triggered by the user's http message before the IP address is successfully obtained; at this time, it is forcibly redirected to the portal server, Go through the certification process

Answer: A,B (LEAVE A REPLY)

NEW QUESTION: 105

WLAN The signal passes through which of the following materials with less penetration loss (). (Select 2 Answers)

- A. Gypsum board
- B. Brick wall
- C. Glass window (colorless)
- D. Concrete wall

Answer: A,C (LEAVE A REPLY)

NEW QUESTION: 106

The 802.11 physical layer standard defines some common operations on the physical layer of wireless networks: such as QoS, security, and roaming operations.

- A. False
- B. True

Answer: A (LEAVE A REPLY)
