NEW QUESTION: 1

A college has an Office 365 for Education verified tenant. Instructors create assignments for students.

A guest user reports they are unable to access an assignment that was shared with them in Microsoft Teams. You investigate the Fiddler logs and observe the following client error status response code:

401 Unauthorized

You need to determine the root cause for the issue. What is the root cause?

- A. Guest users cannot access assignments in Teams.
- B. The assignment must be re-shared with the affected guest user.
- C. You must re-assign the license for the guest user.
- D. Another guest user has the assignment opened at the same time.

Answer: (SHOW ANSWER)

NEW QUESTION: 2

A company has a Microsoft 365 subscription.

A user reports that they cannot add a guest user to a team.

You need to resolve this issue.

Which action you should perform? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point

Admin center	
Microsoft Teams admin center	Action Enable guest access. Add the guest's domain to the Allowed Domains list. Add the guest to the team from the Teams admin center.
SharePoint admin center	Set unique permission for the team site. Set inherited permission for the team site. Set organization-level external sharing settings.
Azure Active Directory admin center	Enable external collaboration settings. Create a guest user account in Azure Active Directory. Assign privileges using Azure Active Directory Privileged Identity Management (PIM).

Answer:

Admin center	Action
Microsoft Teams admin center	Enable guest access. Add the guest's domain to the Allowed Domains list. Add the guest to the team from the Teams admin center.
SharePoint admin center	Set unique permission for the team site. Set inherited permission for the team site. Set organization-level external sharing settings.
Azure Active Directory admin center	Enable external collaboration settings. Create a guest user account in Azure Active Directory. Assign privileges using Azure Active Directory Privileged Identity Management (PIM).

NEW QUESTION: 4

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals.

Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

An IT company has a Microsoft 365 subscription.

The company has a main office in one region. The company opens a new office in another region. You must relocate 400 users to the new office.

Solution: Add an emergency address and then modify the outbound calling settings for each user.

Does the solution meet the goal?

A. Yes

B. No

Answer: (SHOW ANSWER)

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/assign-change-emergency-location-user>

NEW QUESTION: 5

A company is moving users from Skype for Business on-premises To Microsoft Teams. Users who are still hosted on-premises and have had frequent interactions with the migrated users can no longer see updated presence information.

Use the drop-down menus to select the answer choice that answers each question based on the information presented in the graphic. NOTE Each correct selection is worth one point.

Answer Area

What is the cause of the issue?

Which PowerShell command should you use to investigate the issue?

Teams cache must be cleared after migration.

Teams Only user must start the chat.

Teams cache must be cleared after migration.

Preexisting threads inaccurately reflect presence.

Skype for Business client must be running for the migrated users also.

Export-CsPersistentChatData

Get-CsAuthConfig

Get-TeamsAppInstallation

Export-CsPersistentChatData

Get-CsManagementStoreReplicationStatus

Answer:

Answer Area

What is the cause of the issue?

NEW QUESTION: 6

You need to resolve the issue reported by User2.

What are two possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Ask the user to log out of their user profile and then log in again.
- B. Clear the browser cache.
- C. Update the Teams client manually.
- D. Reinstall the Teams client.

Answer: B,D ([LEAVE A REPLY](#))

NEW QUESTION: 7

A company uses Microsoft Teams licenses and mailboxes that are hosted on-premises.

Employees do not have access to Teams calendars.

You need to resolve the issue.

How should you respond? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Action	Option
Which tool should you use?	▼ IdFix Hybrid Configuration Wizard AD Connect
Which protocol should you enable?	▼ IMAP REST Exchange Web Services
Which type of license should you assign to users?	▼ Skype for Business license Exchange online license Azure AD Premium P1 license

Answer:

Action	Option

NEW QUESTION: 8

A company uses Microsoft Teams.

Users from a private channel named PrivateChannell report that guest users have access to the private channel message thread.

You need to ensure that guest users have access to the files in PrivateChannell, but no access to the message thread.

Which two actions should you perform? Each correct answer presents part of the solution, NOTE: Each correct selection is worth one point.

- A. Disable the chat in the guest access policy in Microsoft Teams admin center.
- B. Remove the guest users from PrivateChannell.
- C. Add the guest users to the member's group in the private channel SharePoint site.
- D. Add the guest users to the visitor's group in the private channel SharePoint site.

Answer: (SHOW ANSWER)

NEW QUESTION: 9

You need to provide the correct statements to User1.

Which two statements are correct? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. No matter how much memory is available, Teams will not pass the 1.5 GB threshold
- B. The Microsoft Teams web and desktop apps use memory in very different ways from each other.
- C. The more memory the machine Teams is running has, the more memory Teams will use.
- D. When other apps or services require system memory, Microsoft Teams could give up some to provide to the others.

Answer: C,D (LEAVE A REPLY)

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/teams-memory-usage-perf>

NEW QUESTION: 10

Contoso, Ltd. uses the domain contoso.com. The company adds fabrikam.com as an additional domain.

You schedule a meeting from the contoso.com domain by using the Microsoft Teams app. You are unable to add a user named UserA@fabrikam.com to the meeting.

You need to resolve this issue.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Assign an audio conferencing license to UserA.
- B. Ensure that the Fabrikam.com domain is verified in Microsoft 365.
- C. Assign a Microsoft Exchange license to UserA.
- D. Set the value of the HiddenFromAddressListsEnabled attribute to False for the user's mailbox.
- E. Set the value of the HiddenFromAddressListsEnabled attribute to True for the user's mailbox.

Answer: B,C,D (LEAVE A REPLY)

Microsoft Teams desktop logs

Azure AD sign-in logs for the guest tenant

Azure AD sign-in logs for the host tenant

Microsoft Teams desktop logs

Microsoft Teams web logs

Which administrator must you contact to resolve the issue?

Global administrator for the guest tenant

Global administrator for the guest tenant

Global administrator for the host tenant

NEW QUESTION: 12

You need to resolve the issue reported by User4.

Which two actions should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Re-install the Teams apps on the affected device.
- B. Clear the cache of Teams from the affected device.
- C. Install the Microsoft Teams app on devices that run the Skype for Business app and instruct the user to sign in to both client apps.
- D. Install the Skype for Business app on all devices that run the Microsoft Teams app. Instruct the user to sign in to both apps.
- E. Modify the messaging policy from the Teams admin center for the user.

Answer: (SHOW ANSWER)

NEW QUESTION: 13

You manage the Microsoft Teams environment for a company. A user tries to sign in to the Teams web client. The following error message displays:

CONTOSO demo

Microsoft

User1@contoso.com

You can't get there from here

This application contains sensitive information and can only be accessed from:

- Devices or client applications that meet Contoso management compliance policy.

You need to be signed in to Microsoft Edge with the work or school account shown above. To sign in, click on your account image. [Learn More](#)

[Sign out and sign in with a different account](#)

[More details](#)

Use the drop-down menus to select the answer choice that answers each question based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Answer Area

What is the cause of the error?

Multi-factor authentication for the user has failed.
The web-based application access is blocked by a Conditional Access policy.
The Teams web-based application will not correctly sign in if Teams is not allowed as a trusted site.
The user is trying to sign in to a new device. Windows Information Protection tool blocked the user from signing in.

What should you use to investigate the issue?

Azure Active Directory.
Windows Event Viewer.
Windows Information Protection.

Which action should you perform so that the user can sign in?

Clear user's browser cache.
Advise user to sign in by using the desktop app.
Advise user to enroll the device with Microsoft Intune.
Advise the user to sign in by using a different account.
Add <https://login.microsoftonline.com> and https://*.teams.microsoft.com URLs as trusted sites.

Answer:

Answer Area

What is the cause of the error?

Multi-factor authentication for the user has failed.

The web-based application access is blocked by a Conditional Access policy.

The Teams web-based application will not correctly sign in if Teams is not allowed as a trusted site.

The user is trying to sign in to a new device. Windows Information Protection tool blocked the user from signing in.

NEW QUESTION: 15

A company assigns Microsoft 365 E5 licenses to its users.

A user reports that the Microsoft Teams dial pad is missing.

You run the Get-csonlineuser PowerShell cmdlet. You observe the results shown in the following exhibit:

```
EnterpriseVoiceEnabled : False
SipProxyAddress        : sip:bq@qwasqq.com
SipAddress             : qwasqq.com
TeamsUpgradeEffectiveMode : SfbWithTeamsCollabAndMeetings
MCOValidationErrors    : {}
UsageLocation          : GB
ProvisioningStamp      :
ProvisioningCounter    : 0
LineServerURI          :
LineURI               :
VoicePolicy            : BusinessVoice
VoiceRoutingPolicy     :
```

You need to resolve the issue.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Run the following PowerShell Cmdlet Set-CsUser -Identity <User UPN> -EnterpriseVoiceEnabled \$True
- B. Change the value of the Usagelocation option to US.
- C. In the Teams admin center, change the coexistence mode to Teams only
- D. Assign a voice routing policy.
- E. Run the following PowerShell cmdlet: Set-CsOlineVoiceuser -identity -LocationID-telephonenumber

Answer: A,C,D (LEAVE A REPLY)

NEW QUESTION: 16

A company implements Microsoft Teams.
You need to recommend channel types so that the company can implement specific capabilities Which channel type should you recommend? To answer, select the appropriate configuration in the answer area.
NOTE: Each correct selection is worth one point.

Answer Area

Capability	Type
Create a separate SharePoint site.	Standard Private Standard
Ensure that a channel is not included in the copy when	Standard Private Standard
Can host channel meetings.	Private Private Standard
Can add members automatically.	Standard Private Standard

NEW QUESTION: 17

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A user works from a remote location and has a LAN connection and a mobile internet connection. Each connection is provided by a different internet service provider.

The user can make and receive calls by using the LAN connection. The user cannot make or receive calls by using the mobile connection.

You need to determine the cause of the issue.

Solution: Call Analytics, determine whether a voice call from the user was registered and review relevant call statistics.

Does the solution meet the goal?

A. No

B. Yes

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 18

When users attempt to delete a private channel in a Microsoft Teams environment the following error message displays:

We couldn't delete the channel. Try deleting it again.

You analyze the debug logs and see the following entry

```
2022-05-27T14:07:07.900Z Err ChannelService: Cannot delete channel 19:b3118bcb5f95462fae4cae2ceec74b61@thread.skype :  
{ "response": null, "status": 500, "_codeEnum": 0, "_code": "RemoveSiteFailed", "_message":  
"Unable to remove site 43e102f2-6514-4ffb-a4e9-94207ce816fbException encountered from Sharepoint for requestId  
4485f99e-503e-9000-d539-fdbaa69c15ca, Microsoft.SharePoint.SPException" }
```

Answer Area

What is the cause of this issue?

- A retention policy is applied to OneDrive for the user that is trying to delete the channel.
- The Allow members to create and update channels option is disabled.
- A retention policy is applied to the SharePoint site of the private channel.
- A retention policy is applied to OneDrive for the user that is trying to delete the channel.
- A retention policy is applied to the SharePoint site of the team that contains the private channel.

What does the HTTP error in the log output mean?

- Forbidden
- Internal Server Error
- Forbidden
- Not Found
- Unauthorized
- Bad Request

Answer:

NEW QUESTION: 20

A company configures IP address 10.3.0.0 as the Location Information Service subnet.

The Microsoft Teams client does not display the emergency address for a user. You confirm that the user has a correctly assigned and validated E911 address that includes geo-coordinates.

You observe the following record in the Teams log:

```
{"locationId":null,"publicIp":"216.82.234.65","networkInformation":{"mac":null,"ipv4":"10.3.145.22","subnetLengthIPv4":"20"}}
```

You need to identify the root cause of the issue.

Which segment of the Teams log record identifies the cause of the issue?

A. 'ipv4':'10.3.145.22',,'subnetLengthIPv4':'20'

B. locationId'inull

C. "publicip": "216.82.234.65"

Answer: (SHOW ANSWER)

NEW QUESTION: 21

A company configures external access for suppliers in the Microsoft Teams admin center.

Users can chat only with external users from VendorA.

You need to ensure that users can chat externally with users from VendorB.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Add the VendorB domain as a remote domain to the Connectors list.

B. Modify the CNAME for SIP federation.

C. Add the VendorB domain to the federation Allowed Domains list.

D. Ask the VendorB tenant to add your domain to their Allowed Domains list.

Answer: C,D (LEAVE A REPLY)

<https://docs.microsoft.com/en-us/microsoftteams/manage-external-access>

NEW QUESTION: 22

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals.

Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A user works from a remote location and has a LAN connection and a mobile internet connection. Each connection is provided by a different internet service provider.

The user can make and receive calls by using the LAN connection. The user cannot make or receive calls by using the mobile connection.

You need to determine the cause of the issue.

Solution: Confirm whether the user can communicate with external users.

Does the solution meet the goal?

A. No

B. Yes

Answer: A (LEAVE A REPLY)

NEW QUESTION: 23

Users from a company are collaborating with guests from other tenants.

The company's users report that they are unable to send messages to guest accounts.

You need to resolve the issue.

What should you do?

A. Update the Global messaging policy to enable chat

B. Add the domains for the guest accounts to the external access allow list.

C. Enable chat in Guest access.

D. Modify Guest access settings to allow guest access.

Answer: B (LEAVE A REPLY)

NEW QUESTION: 24

A company uses Microsoft Teams.

You need to prevent users from using a specific app within Teams.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A.** On the Permission policies page of the Teams admin center, create a custom policy and assign the policy to users.
- B.** On the Enterprise applications page in the Azure Active Directory admin center, disable the app.
- C.** On the Users page of the Azure Active Directory admin center, disable the app.
- D.** On the Manage apps page of the Teams admin center, disable the app.
- E.** On the Setup policies page of the Teams admin center, create a custom policy and assign the policy to users.

Answer: A,D ([LEAVE A REPLY](#))

NEW QUESTION: 26

A company limits users that are authorized to create Microsoft 365 groups.

A user reports that they do not have the option to create new teams in the Microsoft Teams app.

You need to ensure that the user can create teams.

What should you do?

- A.** Add the user to a security group.
- B.** Add the user to a distribution group.
- C.** Clear the Teams cache for the user and restart the Microsoft Teams client app.
- D.** Disable Conditional Access policies.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 27

A user works from a remote location and has a LAN connection and a mobile internet connection. Each connection is provided by a different internet service provider.

The user can make and receive calls by using the LAN connection. The user cannot make or receive calls by using the mobile connection.

You need to troubleshoot the issue.

Solution: Determine which calling policies are assigned to the user.

Does the solution meet the goal?

A. Yes

B. No

Answer: ([SHOW ANSWER](#))

<https://learn.microsoft.com/en-us/MicrosoftTeams/teams-calling-policy>

NEW QUESTION: 28

A company is using Microsoft Teams.

The company reports that employees are using a specific GitHub application in Teams. Employees must not be allowed to use the application.

You need to block the application.

What should you do?

A. Launch the Microsoft Teams admin center, expand Teams apps, and then select the Manage apps page.

B. Launch the Microsoft 365 compliance center and then select the Catalog page.

C. Launch the Azure AD admin center and then select the Azure Active Directory - App registrations page.

D. Launch the Azure Active Directory (Azure AD) admin center and then select the Enterprise applications page.

Answer: **A** ([LEAVE A REPLY](#))

NEW QUESTION: 29

You are an administrator in an organization. You share files in chats with other users.

The users report that they are unable to access the files. Users see an error message as shown in the image:

You need to resolve the issue by updating the OneDrive for Business settings for the users. You navigate to the settings page for the Team's SharePoint site collection.

What should you do?

A. Enable Limited-access user permission lockdown mode.

- B. Enable document sets.
- C. Disable Limited-access user permission lockdown mode.
- D. Disable site policy.

Answer: C (LEAVE A REPLY)

Reference:

<https://docs.microsoft.com/en-us/sharepoint/troubleshoot/administration/access-denied-or-need-permission-error-sharepoint-online-or-onedrive-for-business>

NEW QUESTION: 30

You own a team that has three standard channels.

The team has been deleted.

You need to locate the files from all three channels.

Where should you navigate to locate the files?

- A. The SharePoint site's first stage recycle bin.
- B. The tenant's SharePoint home page recycle bin.
- C. The SharePoint site's second stage recycle bin.
- D. The SharePoint site document library.

Answer: B (LEAVE A REPLY)

NEW QUESTION: 31

Contoso uses Microsoft Teams.

Users in the tenant have access to third-party applications that they are not supposed to in Microsoft Teams.

You need to block a small group of users from using the app in the Microsoft Teams app store.

Which steps should you take to achieve this goal? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

The screenshot shows the Microsoft Teams admin center interface. It includes the Microsoft logo, a search bar, and a navigation pane on the left. The main content area displays the following steps:

- In the Microsoft Teams admin center, create a custom policy in **Permission policies**.
- Under Third-party apps, choose **Block specific apps and allow all others**.
- Assign the policy to the group of users.

The options for the first step are: **Permission policies**, **Setup policies**, and **Permission policies**. The options for the second step are: **Block specific apps and allow all others**, **Block specific apps and allow all others**, and **Block all**.

Answer:

The screenshot shows the Microsoft Teams admin center interface. It includes the Microsoft logo, a search bar, and a navigation pane on the left. The main content area displays the following steps:

- In the Microsoft Teams admin center, create a custom policy in **Permission policies**.
- Under Third-party apps, choose **Block specific apps and allow all others**.
- Assign the policy to the group of users.

The options for the first step are: **Permission policies**, **Setup policies**, and **Permission policies**. The options for the second step are: **Block specific apps and allow all others**, **Block specific apps and allow all others**, and **Block all**.

NEW QUESTION: 32

You are administering a Microsoft Teams environment for a company.

A producer deletes a live event from a Teams calendar. The producer must access the recording, attendee engagement report, and Q&A report for the live event.

You need to retrieve the resources for the producer.

Where should you look for the resources?

- A. Teams admin center
- B. OneDrive for Business
- C. Microsoft Stream
- D. Microsoft 365 admin center

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 33

You need to resolve the issue reported by User5. Which PowerShell command should you run?

- A. Import-ContactList -CSV -CSVData
- B. Set - CsAddressBookConfiguration -identity Site:Redmond -RunTimeOfDay 23:00
- C. Set-CsUserServicesPolicy -Identify "<policy name>" -UcsAlloMed \$False
- D. Invoke-CsUcsRollback -Identity "<UPN>~

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 34

You need to recommend a solution for configuring the the environment to meet the requirements for the Project NextGenApp channel. Which actions should you recommend? To answer, select the appropriate options in the answer are a. NOTE: Each correct selection is worth one point.

Answer Area

Location	Action
Private channel SharePoint site	These are the selections for the location: Private channel SharePoint site. - Add the user to the Members group. - Add the user to the Guests group. - Add the user to the Visitors group.
Microsoft Teams admin center	- Ensure the user is added as a guest to the private channel. - Ensure the user is not added as a guest to the private channel.

Answer:

Answer Area

Location	Action
Private channel SharePoint site	☐ Add the user to the Members group. ☐ Add the user to the Guests group. ☒ Add the user to the Visitors group.
Microsoft Teams admin center	☐ Ensure the user is added as a guest to the private channel. ☒ Ensure the user is not added as a guest to the private channel.

These are the selections for the location: Private channel SharePoint site.

NEW QUESTION: 35

You need to identify the root cause of the issue that was reported by User6.

What is the cause of the issue?

- A. The sharing permissions for the organization are set to internal only.
- B. The external sharing permissions have been set to existing external users only.
- C. Sharing permissions for the file have been revoked.
- D. The file link is expired.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 36

You need to validate the conditional access policy.

What should you conclude? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Assignment	Applies to
To which users does this policy apply?	☒ Guest and external users ☐ All users ☐ Users and groups ☐ Guest and external users
To which type of clients does this policy apply?	☒ Desktop apps and mobile apps only ☐ Browsers only ☐ Desktop apps and mobile apps only ☐ Browsers, desktop apps, and mobile apps
Which type of action does this policy specify?	☐ Grant ☒ Grant ☐ Block

NEW QUESTION: 43

Contoso uses Microsoft Teams.

Users are unable to use a storage service provided by Google as file storage in Microsoft Teams.

You need to resolve the issue.

How should you complete the PowerShell cmdlet? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Answer:

NEW QUESTION: 44

A user works with two Microsoft 365 accounts on a domain-joined device. The user's device automatically signs in to Microsoft Teams by using a domain-joined account each time the user restarts their device.

The user must manually sign out from Teams and then enter credentials for the second account when they want to use the second account. Microsoft Teams must launch without the user signing in to an account.

You need to recommend a solution for the user.

What should you recommend?

- A. Rename the following folder and restart the machine: `C:\users\%dir\AppData\Local\Packages\Microsoft.AAD.BrokerPlugin_cw5n1h2txyewy`
- B. Create the following registry key: (UPN) `Computer\HKEY_CURRENT_USER\Software\Microsoft\Office\16.0\Common\Identity EnableADAL(REG_DWORD) 0x00000001 (0)`.
- C. Configure Teams to use the Microsoft Authenticator app for authenticating users.

Answer: C (LEAVE A REPLY)

NEW QUESTION: 45

Users report call delay during Microsoft Teams audio conferences.

You run a network trace from a user's device during an audio conference. You review the following trace results:

Frame Details:	X
Checksum: 0 (0x0)	
SourceAddress: 10.10.10.110	
DestinationAddress: 52.114.188.31	
0-TCP: Flags=. . .A. . . ., SrcPort=50008, DstPort=HTTPS (443), PayloadLen=0,	
SrcPort: 50008	
DstPort: HTTPS (443)	
SequenceNumber: 4077031237 (0xF3028F45)	
E AcknowledgmentNumber: 223214542 (0xD4DFD5E)	
E B DataOffset: 80 (0x50)	
0 Flags: . . .A	
Window: 1025 (scale factor 0x8) = 262400	
Checksum: 0x254, Disregarded	
UrgentPointer: 0 (0x)	

You need to identify the cause of delay.

What is the cause?

- A. The source port for audio is above 50.000.
- B. The source port range for audio is too narrow.
- C. The UDP traffic is being limited.
- D. The TLS traffic is being limited.

Answer: (SHOW ANSWER)

NEW QUESTION: 49

A company has their headquarters in France and stores all over the world. The company wants to organize live events in China.

Meeting organizers in China cannot create Microsoft Teams live events.

You need to determine the cause of the issue.

What are two possible causes? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. The company already has 15 Teams live events running concurrently.
- B. Azure content delivery networks (CDNs) are not accessible in China.
- C. The company has not configured a VPN for connecting to the corporate network.
- D. Users do not have valid Advanced Communication licenses.

Answer: (SHOW ANSWER)

Event team members and attendees will not be able to use Teams live events because Azure CDN is not accessible in China. A workaround is to use a company VPN connection, which gets the client connected to CDN via the customer's corporate network.

Note: The maximum number of concurrent live events per Microsoft 365 or Office 365 organization is 15.

NEW QUESTION: 50

A company uses Microsoft Teams. A user reports that they are unable to sign in to Teams. The user is able to reproduce the issue on multiple devices. The user provides you with the following screenshot that shows the error message.

Use the drop-down menus to select the answer choice that answers each question based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Which logs should you investigate for more information about the error?

▼
SBC logs
Fiddler logs
Event viewer log
Desktop logs

What should you do to troubleshoot the issue?

▼
Re-add the user's work or school account in Windows settings.
Recreate the registry key HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Run.

Which additional action should you perform?

▼
Disable Active Directory Authentication Library (ADAL).
Delete the contents of the Ngc folder.

Answer:
