NEW QUESTION: 1

During the pre-configuration workshop, you had identified multiple custom attributes that must be created on items in Product Data Hub. Identify the option that outlines the correct steps needed to create Extensible Flexfield attributes.

Response:

- A. Create Value Set > Create Item Attribute Groups and Attributes > Assign Attribute Group to Item Class > Deploy Flexfield
- B. Create Value Set > Create Item Attribute Groups and Attributes > Deploy Flexfield > Assign Attribute Group to Item Class
- C. Create Value Set > Assign Attribute Group to Item Class > Create Item Attribute Groups and Attributes > Deploy Flexfield > Create Item Attribute Groups and Attributes > Create Value Set > Assign Attribute Group to Item Class
- D. Assign Attribute Group to Item Class > Deploy Flexfield > Create Item Attribute Groups and Attributes > Create Value Set

Answer: B (LEAVE A REPLY)

NEW QUESTION: 2

You are transferring your configuring data from your customer's test environment to your customer's production environment. You are in the Import/Export Lifecycle phase.

What would you do to export your configuration data?

Response:

- A. Setup and Maintenance > Open Task Pane > Manage Configuration Packages > Create Configuration Package
- B. Setup and Maintenance > Select Implementation Projects button > Create Implementation Project

- C. Navigator > Configuration Packages > Create Configuration Package
- D. Navigator > Implementation Projects > Create Implementation Project

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 3

You are creating an implementation project and are unable to select the Item and Catalog Management functional area within the Product Management module. What would you do to fix this?

Response:

- A. Setup and Maintenance > Product Hub offering > Change Configuration > Enable Item and Catalog Management for implementation
- B. Setup and Maintenance > Product Management Offering > Setup > Enable Item and Catalog Management for implementation
- C. Setup and Maintenance > Product Management Offering > Change Configuration > Enable Item and Catalog Management for implementation
- D. Setup and Maintenance > Manage Item and Catalogs > Enable Item and Catalog Management for implementation

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 4

Oracle Product Data Quality has standard validation rules that can be used to overcome data quality issues. Identify three events where they are applied.

Response:

- A. when exporting a batch of items
- B. when creating multiple items
- C. when implementing a batch of items
- D. when editing an item
- E. when running a BI report that identifies data quality

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 5

Product data stewards are able to control suppliers access to which three data elements in the Product Hub Portal?

Response:

- A. Supplier-specific Smart Spreadsheet templates for import map
- B. Access to items in an Items Class
- C. Access to suppliers
- D. Access to all Operational attributes
- E. Access to all Extensible Flexfield attributes

Answer: A,C,E ([LEAVE A REPLY](#))

NEW QUESTION: 6

Your customer wants a For Your Information (FYI) notification to be sent to approvers when a change order workflow is completed.

Which configuration setup on the Notifications page of ChangeOrderApprovalTask will enable this requirement?

Response:

- A. Task Status = Alert, Recipient = Reviewers
- B. Task Status = Complete, Recipient = Reviewers
- C. Task Status = Outcome Update, Recipient = Assignees
- D. Task Status = Complete, Recipient = Owner
- E. Task Status = Complete, Recipient = Assignees

Answer: C (LEAVE A REPLY)

NEW QUESTION: 7

Supply Chain Financial Orchestration supports which three things? (Choose all correct answers)

- A. Resource transactions are interfaced directly from Manufacturing
- B. The user interface gives you the status of the orchestration transactions item serial numbers
- C. Configuration to define cost-based, document-based support for third-party transfer pricingrules
- D. Infrastructure and framework to define the financial trade and physical flows independently
- E. Separate physical movement from financial flow

Answer: A,B,C (LEAVE A REPLY)

NEW QUESTION: 8

Your customer wants to initiate a change order when the value of the Weight attribute in an item is changed by more than 15% in Oracle Product Hub Cloud. What would you do to fulfill this requirement?

Response:

- A. Lock updates to the Weight attribute by using edit privileges.
- B. Define an item rule of type 'Validation' and severity 'Needs Approval' on the Weight attribute.
- C. Set up a change policy on the Weight attribute based on the lifecycle phase.
- D. Define an item rule of type 'Assignment' on the Weight attribute to add it to a change order.

Answer: B (LEAVE A REPLY)

NEW QUESTION: 9

Field (in Rule)	Value
Name	MyItemRule 1
Return Type	Item Description
Primary If Expression	True
Secondary If Expression	True
Return Value	[Item].[Main].[ITEM_TYPE]+[item].[Main].[LONG_DESCRIPTION]

On the Edit Rule Set page, the details of a rule are as shown in the following table. What is the expected behavior of the rule?

Response:

- A. Item Description Rule: Auto-generates the item description by concatenating the item type and long description attributes
- B. Assignment rule: Concatenates the item type with the long description attribute
- C. Composite rule: Validates the item description, and then assigns the concatenated value of the item type and long description
- D. Assignment rule: Concatenates the long description with the item type attribute
- E. Validation rule: Validates the item type and the long description

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 10

Which two objects in Product Hub can be shared with Oracle Social Network?

Response:

- A. Item Batch
- B. Change Order Type
- C. New Item request (NIR)
- D. Item
- E. Item Organization

Answer: A,C ([LEAVE A REPLY](#))

NEW QUESTION: 11

In your Product Hub Portal implementation, four suppliers A, B, C, and D are providing data for the same Motor. The motor efficiency is a critical attribute and the blending rule setup is as follows:

Priority Spoke 1. Supplier A 2. Supplier B 3. Supplier C 4. Supplier D

The efficiency value provided by Supplier A is 93% while Suppliers B and C both provided the value as 95% and Supplier D provides it as 91%.

What will the efficiency value be for the motor in the Product Hub?

Response:

- A. 91%
- B. 93%
- C. 95%, since the majority of the suppliers are providing it
- D. Average of the four values provided by suppliers

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 12

Two suppliers provide different sets of data for the same item attribute.

Which action is NOT available for Product Data Steward to resolve the situation?

- A. Reject the data

- B. Request the suppliers for clarification or corrective action
- C. Set up a blending rule to prioritize the inputs from one supplier over the other
- D. Edit the incorrect data in the data staging area and import it in

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 13

Your organization is beginning Fusion implementation and has decided to implement Product Development in the first phase.

Which three mandatory configurations are required to work with Product Development? (Choose all correct answers)

- A. Create Manufacturers
- B. Create Organization
- C. Create Change Order Types
- D. Create Location
- E. Add UOM

Answer: A,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 14

When item metadata publish is enabled for an item class in Oracle Product Hub Cloud, which entities are included in the published payload during the first publish?

Response:

- A. item profile options definition, value set definition, and Item Operational attributes definition
- B. value set definition, associated transactional item attributes, and item Operational attributes definition
- C. value set definition, associated attribute groups and attributes, and associated transactional item attributes
- D. associated attribute groups and attributes, associated transactional item attributes, and Item Operational attributes definition
- E. item class definition, associated attribute groups and attributes, and associated transactional item attributes.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 15

Your customer has used Configuration Package to import setup data, and would like to ascertain that all objects have been imported as expected.

Which two reports in the Manage Export and Import Processes task would you tell your customer to review to fulfill this requirement?

(Choose all correct answers)

- A. Configuration Package Export and Import report
- B. Export and Import report
- C. Setup Data report

- D. Process Results Summary report
- E. Configuration Import report

Answer: A,B,E (LEAVE A REPLY)

NEW QUESTION: 16

When creating style and SKU items, your customer wants to manage some attributes at both the style and SKU levels, and manage the remaining attributes only at the style level.

Identify the two setups that are required in the attribute group definitions in order to fulfill this requirement.

Response:

- A. For attribute groups to be managed both at the style and SKU levels, set the Style to SKU field to Defaulted in the context usage.
- B. For attribute groups to be managed only at the style level, set the Style to SKU field to None in the context usage.
- C. For attribute groups to be managed only at the style level, set the Style to SKU field to Inherited in the context usage.
- D. For attribute groups to be managed both at the style and SKU levels, set the Style to SKU field to Inherited in the context usage.
- E. For attribute groups to be managed both at the style level, set the Style to SKU field to Defaulted in the context usage.

Answer: D,E (LEAVE A REPLY)

NEW QUESTION: 17

Your customer has been using Product Hub and has decided to extend it's manufacturing operations to a new facility. They want to transfer the manufacturing of some of their existing items to this new facility.

Identify the two required setups in Product Hub to support this change.

Response:

- A. Define Catalogs
- B. Define Item or Inventory Organization
- C. Define Lifecycle Phases and Assign to Item Class
- D. Define Item Class Security

- E. Define Units of Measures
- F. Define Key Flexfield for Categories

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 18

Which action would a Product Data Steward not be able to do in the Product Hub Portal?

Response:

- A. Edit the product data submitted by suppliers
- B. Approve the product data submitted by suppliers
- C. Review product data uploaded by suppliers
- D. Reject the product data submitted by suppliers
- E. Request clarification or corrective action to product data submitted by suppliers

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 19

Your organization has a need to use multiple catalogs and share categories across catalogs.

Which four options apply to Catalog sharing?

Response:

- A. Changing the catalog security from public to private might impact the catalogs that are sharing the category by reference.
- B. Public catalog categories can be shared across multiple catalogs.
- C. Public catalog categories cannot be shared across multiple catalogs.
- D. Items cannot be assigned to multiple shared catalogs.
- E. Multiple catalogs can share the same category by reference sharing.
- F. Source categories by copying from multiple catalogs.

Answer: D,E,F ([LEAVE A REPLY](#))

NEW QUESTION: 20

Which three entities can be controlled through item batch options?

Response:

- A. Attachments
- B. New item requests
- C. Structures and packs
- D. Cross references and relationships
- E. Change orders

Answer: B,C,E ([LEAVE A REPLY](#))

NEW QUESTION: 21

The security setup for the Laptops Item Class is as shown here. Which three options are true based in this setup?

Security Setup for Laptops Item Class

Principal	Name	Organization	Item Class	Inherited	Start Date	End Date	Actions
Group	Product Data Steward	MST	Laptops	-	11/26/14		<ul style="list-style-type: none"> • Create Item Class Item. • Maintain Item Basic. • Maintain Item Pack. • View Item Pack. • Maintain Item People. • View Item Basic.
Group	Product Manager	MST	Laptops	-	11/26/14		<ul style="list-style-type: none"> • Maintain Item Basic. • View Item Basic. • View Item Attribute. • Maintain Item Attribute.

Response:

- A. Product Data Stewards can create new Laptop items and manage pack hierarchies.
- B. Product Managers cannot search and view Laptop items.
- C. Product Managers can search and view Laptop items.
- D. Product Managers can view and edit user-defined attributes for Laptop items.
- E. Product Data Stewards and Product Managers can create new Laptop items and edit their user-defined attributes.

Answer: B,D,E (LEAVE A REPLY)

NEW QUESTION: 22

If your organization wants to use catalogs and categories, what is the key flexfield name for the key flexfield structure and structure instance?

Response:

- A. FLEXFIELD_CODE
- B. EGP_CATEGORY
- C. EGO
- D. KEY
- E. MCAT

Answer: D (LEAVE A REPLY)

NEW QUESTION: 23

As part of your implementation project, it is required to set up validation rules on items in Product Data Hub. Which option outlines the correct steps needed to create validation rules?

Response:

- A. Create Rule Set > Select Composite = Yes > Select Type = Assignment > Go to "Edit Rule Set" page and select "Rule Tab" > Create Rule button
- B. Create Rule Set > Create Rule button > Select Composite = No > Select Type = Validations > Go to "Edit Rule Set" page and select "Rule Tab"
- C. Create Rule Set > Select Composite = Yes > Select Type = Validations > Go to "Edit Rule Set" page and select "Rule Tab" > Create Rule button
- D. Create Rule button, Create Rule set > Select Composite = No > Select Type = Validations > Go to "Edit Rule Set" page and select "Rule Tab"
- E. Create Rule Set > Select Composite = No > Select Type = Validations > Go to "Edit Rule Set" page and select "Rule Set" > Create Rule button

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 24

You are configuring custom attributes to show up on Audit Trail reports. While doing Audit Trail setups, when you are in the Configure Business Object Attributes screen, your attributes are not showing up. Why?

Response:

- A. When editing the attribute group, the Enable Audit checkbox is not selected.
- B. When editing the attributes within the attribute group, the Enable Audit checkbox is not selected.
- C. Item Extensible Flexfields cannot be audited.
- D. In the Item Extensible Flexfield Audited Attributes, the Flexfield (Additional Attributes) checkbox is not selected.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 25

Organizations may decide to create either new items or new revisions to capture major changes that affect the form, fit and function of an item. Which statement is true regarding revisions?

Response:

- A. A revision is required attribute to be selected when you create a new item.
- B. A revision is not required when you create an item until a change order is created.
- C. A revision will always be created when an item is created.
- D. A revision will always require users to create a change order to add a revision to an item.
- E. A revision is not required as long as the item is not approved.

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 26

Your customer has a requirement to publish the entire pack hierarchy from Oracle Product Hub Cloud whenever there is a change in any of the items within the pack hierarchy.

Which two options can you set to fulfill this requirement? (Choose all correct answers)

- A. Set All Structures in the Publication Criteria for a spake system.

- B. Set Yes for Items while submitting the Product Hub Publication ESS.
- C. Set Item Category Assignments in the Publication Criteria for a spoke system.
- D. Set Yes for Item Catalog while submitting the Product Hub Publication ESS
- E. Set All Pack Items in the Publication Criteria for a spoke system.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 27

Your customer wants to add a new supplier to Oracle Product Hub Cloud. What steps must you complete in order to do so?

Response:

- A. Create Address, Create Supplier, Create Site, Create Site Assignments, Create Suppliers Site Contact
- B. Create Address, Create Supplier, Create Site Assignments, Create Site, Create Suppliers Site Contact
- C. Create Supplier, Create Address, Create Site, Create Site Assignments, Create Suppliers Site Contact
- D. Create Supplier, Create Site, Create Site Assignments, Create Address, Create Suppliers Site Contact
- E. Create Supplier, Create Address, Create Site Assignments, Create Site, Create Suppliers Site Contact

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 28

Which statement is true in regard to business events?

Response:

- A. Business events are fired based on database triggers and specific to one table.
- B. Business events are used to manually trigger actions.
- C. Business events may not be specific to just one table, and are fired based on DML (Data Manipulation Language) operations on business objects.
- D. Business events are custom codes that require scripting.
- E. Business events are business rules that need to be developed.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 29

Choose the two different input file types that Product Hub supports for Import Maps.

Response:

- A. HTML
- B. Excel
- C. PDF
- D. XML
- E. Text

Answer: A,D ([LEAVE A REPLY](#))
