## NEW QUESTION: 1

Select the three benefits of using Direct Capture of Objectives (DCO). (Choose Three)

- A. Empower project participants to review development progress.
- B. Enter and store business requirements in the application.
- C. Automate custom business processes.
- D. Generate the latest code from business-friendly metaphors.
- E. Facilitate collaboration between business and IT around working models.

**Answer: B,D,E (LEAVE A REPLY)**

## NEW QUESTION: 2

Which option follows best practices for naming a ruleset in Pega.....

- A. Expense:01-02-05
- B. Grand-Corporation-Human-Resources-Department:01-01-03
- C. Credit Check:03-01-02
- D. Pega-prod:01-04-01

**Answer: B (LEAVE A REPLY)**

## NEW QUESTION: 3

A report contains columns for Customer, Billing Cycle, Credit Card, and Expiration Date. A manager requests that the report show only those customers who meet the following conditions: - The customer is on a monthly billing cycle - The credit card is either MoreCash or Vista - The credit card expires within 60 days Which set of filtering conditions returns a report with the desired data?

- A. Credit Card equals MoreCash or Vista, Billing Cycle equals monthly, and Expiration Date equals next 60 days

**B.** Credit Card equals MoreCash AND Credit Card equals Vista AND Billing Cycle equals monthly AND Expiration Date is 60 days greater than today

**C.** Credit Card equals MoreCash OR Credit Card equals Vista AND Billing Cycle equals monthly AND Expiration Date equals next 60 days.

**D.** Credit Card equals MoreCash OR Credit Card equals Vista AND Billing Cycle is not quarterly AND Expiration Date is less than 60 days

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 4**

A case type for voice over requests includes two tasks: Edit Script and Record Script. Your team has been asked to route Edit Script tasks to editors and Record Script tasks to actors.

Which approach fulfills this requirement?

**A.** Create one new work queue and split the tasks by type.

**B.** Create two new work groups in Dev Studio that reference one work queue.

**C.** Create one work group for both personas and route to the work group.

**D.** Create two new work queues, one for editors and one for actors.

**Answer:** **D** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 5**

Which two requirements demonstrate the need to configure correspondence? (Choose Two)

**A.** Phone a customer for additional information about the case.

**B.** Fax a new insurance claim to the auto repair shop.

**C.** Assign a new insurance claim to a case worker to process.

**D.** Text the customer with status changes in an insurance claim.

**Answer:** **B,D** ([LEAVE A REPLY](#))

#### **NEW QUESTION: 6**

What are the minimum components of a user interface (UI) action set?

**A.** One action, one event, and one condition

**B.** Two actions and one event

**C.** One action and one event

**D.** One action and one condition

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 7**

Identify the two requirements that are satisfied by using a data transform. (Choose two.)

**A.** Validate the format of a property value.

**B.** Convert integer data to text data.

**C.** Display the same data on multiple user views.

D. Copy an existing order to a new case.

**Answer: B,D (LEAVE A REPLY)**

### **NEW QUESTION: 8**

Which two statements are true about styling controls in App Studio? (Choose two)

- A. Developers can configure a Date Time control to display as a text input field, drop-down list, or calendar control.
- B. Developers can configure a text input control to change the background when users click the control.
- C. Developers can configure a button control to hide when users click the control.
- D. Developers create a new style format to apply styling to an out-of-the-box button control.

**Answer: A,B (LEAVE A REPLY)**

### **NEW QUESTION: 9**

An internal application currently grants 75 employees access to one of four roles: Admin, Author, User, and Manager. A new analyst that joins the company requires all the Author role access but only some of the reporting capabilities available to the Manager role.

How do you satisfy this security requirement?

- A. Update the Author role to include the required analyst reports.
- B. Add the analyst to both the Author role and the Case Manager channel interface.
- C. Create a new Analyst role with the required access.
- D. Add the analyst to the Manager role.

**Answer: C (LEAVE A REPLY)**

### **NEW QUESTION: 10**

A survey is sent to a customer via email.

How do you configure a solution to ensure the email includes the case ID for the survey?

- A. Use the Insert Property feature of a Send Email step to add the case ID when composing the message dialog.
- B. Create a required field for the case ID that must be entered by a user during the case process prior to sending the survey.
- C. Create a process using the Send Email step allowing representatives to quickly add the case ID to the email.
- D. Call a data transform to copy the case ID from pyWorkPage to the email.

**Answer: A (LEAVE A REPLY)**

### **NEW QUESTION: 11**

Which two components on the Case Designer can users assign to a minimum lovable product (MLP) release for project sizing purposes? (Choose Two)

- A. A mobile User Portal

- B. An automation
- C. An approval decision
- D. An external system of record (SOR)

**Answer: A,C (LEAVE A REPLY)**

#### **NEW QUESTION: 12**

A purchase request list report includes columns for case ID and regional cost center. A manager wants to report to show the total of purchase requests for each of the regional cost centers.

How do you configure the report definition?

- A. Summarize the regional cost centers by account.
- B. Define a function for the cost center column to total the case IDs.
- C. Summarize the case ID column by count.
- D. Create a filter for each cost center and count the case IDs.

**Answer: C (LEAVE A REPLY)**

#### **NEW QUESTION: 13**

You configure a service level to adjust assignment urgency to 100 when the goal interval lapses. How does assignment urgency impact the deadline and passed deadline intervals?

- A. Urgency value continues to increment as configured.
- B. Urgency value remains at 100, but other service level processing continues.
- C. The user is notified that the maximum urgency has been reached.
- D. Service level processing is halted until the assignment is completed.

**Answer: B (LEAVE A REPLY)**

#### **NEW QUESTION: 14**

A form listing nearby restaurants has four columns:

Restaurant name Restaurant location Thumbnail image of the seating area Make reservation (check box) You want to ensure that users have the information they need to make a reservation regardless of screen size. When viewed on a small screen, you do not need to display the images.

What three configuration steps do you take to support this requirement? (Choose Three)

- A. Set the importance of the image column to Secondary.
- B. Set the importance of the Restaurant name and Make reservation columns to Primary.
- C. Set the importance of the Restaurant name column to Primary.
- D. Set the importance of the image column to Other.
- E. Set the importance of the Make reservation column to Primary.
- F. Set the importance of the Restaurant location and Make reservation columns to Secondary.

**Answer: C,D,F (LEAVE A REPLY)**

### NEW QUESTION: 15

You are developing a Visa case type to process visa applications. As part of the process, applicants need to schedule an interview with the consulate. A child Interview case is created for the interview process and assessment.

Following the interview, it typically takes 48 hours for the consulate to reach a decision. For the visa case to proceed to applicant notification, the Interview case needs to be resolved. How do you configure a case type to achieve the required behavior?

- A. Add a Create Case step that creates the Interview child case. Following this step, add a Wait step that pauses the parent case until the Interview case reaches a status of Resolved.
- B. Add a Create Case step that creates the Interview child case. Following this step, add a Wait step that pauses the parent case until the Interview case reaches a status of Resolved and after 48 hours have elapsed.
- C. Add a Create Case step that creates the Interview child case. There is no need to add a Wait step.
- D. Add a Create Case step that creates the Interview child case. Following this step, add a Wait step that pauses the parent case until 48 hours have elapsed.

**Answer:** ([SHOW ANSWER](#))

### NEW QUESTION: 16

A customer calls to apply for a new bank account. The customer service representative (CSR) needs to perform an assignment named Select Account Type. During the discussion, the customer can request written information regarding different account types. Select the case lifecycle design that satisfies this requirement.

- A. Add a case-wide optional action.
- B. Add a router to the Select Account Type assignment.
- C. A user view for requesting information to the Select Account Type assignment.
- D. Add an optional action to the stage that contains the Select Account Type assignment.

**Answer:** D ([LEAVE A REPLY](#))

### NEW QUESTION: 17

On the Case Designer, who two component can users tag with a Minimum Lovable Product (MLP) release for project sizing purposes? (Choose Two.)

- A. An approval decision
- B. An automation
- C. A user Mobile App channel
- D. An external system of record (SOR)

**Answer: B,D (LEAVE A REPLY)**

#### **NEW QUESTION: 18**

Which statement most accurately describes the use of pega mobile preview?

- A. pega mobile preview models a typical user interaction to scenario test a mobile app
- B. pega mobile preview simulates user loads to test mobile app performance
- C. pega mobile preview allows you to run a pega application on a mobile device
- D. pega mobile preview simulates the application user interface for various mobile devices

**Answer: D (LEAVE A REPLY)**

#### **NEW QUESTION: 19**

A business architect has developed a new process for a case type. To verify that the UI elements collect the expected results, you want to test the process and the fields. Which two configurations, when used together, allow you to record a set of interactions and save the test results to verify process functionality? (Choose Two)

- A. Create a unit test for the case type
- B. Add explicit assertions on the UI elements
- C. Add validations on the UI elements
- D. Create a scenario test for the case type

**Answer: B,D (LEAVE A REPLY)**

#### **NEW QUESTION: 20**

In which situation do you configure branched rulesets?

- A. Multiple teams need to work on the same application version
- B. You need to delegate rules to process owners from the business
- C. A team needs to work on the next version of an application while preparing to migrate the current version.
- D. One team creates a new patch for an application while another team creates a new major version of the application

**Answer: A (LEAVE A REPLY)**

#### **NEW QUESTION: 21**

User A should have application permissions that are identical to User B's permissions. Unlike User B, User A lacks access to the My Cases page. How do you grant access to the My Cases page for User A?

- A. Update the User A account to access the same portal as User
- B. Update User A to the same role as User B
- C. Add the My Cases page to the User A role
- D. Add the My Cases page to the User A profile.

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 22**

How do you guide users through an application form without requiring user training?

- A. Add an optional action to the case to explain the task.
- B. Add the corresponding step to an appropriate stage.
- C. Add an instruction to the assignment.
- D. Send a notification to the assigned user.

**Answer:** C ([LEAVE A REPLY](#))

#### **NEW QUESTION: 23**

A reservation process allows customers to reserve a flight, hotel room, and rental car as part of a travel itinerary. Which configuration displays a check box to allow users to select travel insurance only if the itinerary includes a flight?

- A. A validate rule applied to the flow action
- B. A visible when condition applied to the check box
- C. A declare expression configured for forward chaining
- D. An action set applied to the check box

**Answer:** B ([LEAVE A REPLY](#))

#### **NEW QUESTION: 24**

To process an employee retirement package, the system requires approvals from the supervising manager, and the ...

How do you implement the requirements so that each approver can work independently?

- A. Create three parallel processes with approval steps.
- B. Route the assignment to a work queue to which all three roles have access.
- C. Create business logic to route the assignment to the different approvers.
- D. Create an approval step with cascading approval.

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 25**

The business process for an automobile insurance claim consists of the following phases: - Submission: The customer contacts a customer service representative (CSR) to file the claim. -Review: An adjuster reviews the claim, assesses the damages to each vehicle, and provides an estimate of the cost of repairs. - Repair: A third party performs the repairs on each vehicle, communicating with the adjuster and customer as necessary. - Verification:

After each vehicle repair, the adjuster closes the claim. According to Pega best practices, which phase can you implement as a child case?

- A. Verification
- B. Repair
- C. Review
- D. Submission

**Answer: B (LEAVE A REPLY)**

#### **NEW QUESTION: 26**

Which studio do you use to configure a service level agreement (SLA) with a passed deadline?

- A. Dev Studio
- B. Admin Studio
- C. Prediction Studio
- D. App Studio

**Answer: A (LEAVE A REPLY)**

#### **NEW QUESTION: 27**

A data page holds product information. The data page's Reload if older Than field is set to 15 minutes. The data page is created at 06:12. At 06:20 the user requests product information. At 06:42 the user requests product information. When is the data page reloaded?

- A. 06:20
- B. 06:27
- C. 06:35
- D. 06:42

**Answer: D (LEAVE A REPLY)**

#### **NEW QUESTION: 28**

For which use case do you create a new rule in a Pega Platform application?

- A. A designer reuses a UI section every time the same behavior is needed in the application.
- B. A developer creates a parallel process to audit the changes that a service agent makes.
- C. A developer makes changes to an email message that is configured in the case life cycle.
- D. A designer uses Design mode at runtime to modify a view to use a two column template.

**Answer: A (LEAVE A REPLY)**

#### **NEW QUESTION: 29**

You are configuring routing for a customer warranty service request. All warranty service requests are routed to the warranty resolution group except for warranty service requests for beta and release product that requires review by the vice president of service. How do you configure assignment routing to review warranty service requests?

- A.** Route the assignment to the vice president of service who routes assignments to the warranty resolution group as needed.
- B.** Route the assignment to the vice president of service when the request is for the beta release. Otherwise, route the assignment to the warranty resolution group.
- C.** Route the assignment to the skilled group for the beta release when the request is for the beta release.  
Otherwise, route the assignment to the warranty resolution group.
- D.** Route the assignment to the warranty resolution group who sends an email notification to the vice president of service for the beta-release product.

**Answer: B (LEAVE A REPLY)**

#### **NEW QUESTION: 30**

A requirement for a hotel reservation case type states that as customers change their room selection, the total cost of the reservation updates. How do you satisfy this requirement?

- A.** Add a When condition to the room selection step.
- B.** Define a declare expression for the total cost field.
- C.** Configure a Validate rule for the room selection step.
- D.** Apply a Disable when condition to the total cost field.

**Answer: B (LEAVE A REPLY)**

#### **NEW QUESTION: 31**

An international online car parts business wants customers to find parts for any vehicle easily. You are asked to implement the following requirement: Customers must select a make, model, and year to initiate a vehicle-specific search. How do you configure the data storage in the application to implement the requirement?

- A.** Configure a local data storage of the make, model, and year vehicle data.
- B.** Configure a static list of the make, model, and year vehicle data.
- C.** Configure a data page to store the make, model, and year vehicle data.
- D.** Configure a connection to an external system of record that contains the make, model, and year vehicle data.

**Answer: D (LEAVE A REPLY)**

**NEW QUESTION: 32**

ABC BankCorp operates two subsidiaries, GloboBank and LocalBank, with different brandings. ABC BankCorp wants to create a mobile app experience for both users and customer service representatives (CSRs) for its Transaction Dispute application. Of the following requirements, which two options affect the number of mobile app channels that you need to configure? (Choose Two)

- A. Customers can create only dispute cases, while CSRs can also create fraud report cases.
- B. Mobile apps must support both phones and tablets.
- C. Mobile app color palette is customized for each subsidiary.
- D. The app customizes currency units and date/time format according to the user's locale.

**Answer: B,C (LEAVE A REPLY)**

**NEW QUESTION: 33**

An application allows consultants to enter hours worked on a project on a weekly basis. Consultant hours need approval by the manager and the project supervisor. The approvals can occur in any order Which approval configuration meets this requirement?

- A. Add an optional action for each approval in the appropriate stage
- B. Configure a parallel process for each of the required approvals
- C. Add the manager approval to an alternate stage in the case life cycle
- D. Configure a single cascading approval based on an authority matrix

**Answer: B (LEAVE A REPLY)**

**NEW QUESTION: 34**

Which two options can you configure for a mobile app channel? (Choose Two)

- A. Manage administrative functions such as access to log files.
- B. Define the UI behavior for each view in a case type when the case is displayed on a mobile device.
- C. Design how UI elements render across different mobile devices.
- D. Define security behavior for a mobile app such as biometric identifiers.

**Answer: C,D (LEAVE A REPLY)**

**NEW QUESTION: 35**

An online shopping application allows customers to select the item quantity of different goods and add items to the shopping cart. In the shopping cart, the application displays the price for each item type, indicates the quantity of each item type, calculate the total item

prices, and calculate the total cost for all items in the shopping cart. The application pulls the price of each item type from a data page that references an external inventory management system.

Select two unit tests useful in developing the shopping cart page. (Choose Two)

- A. Verify the data page has the correct item prices.
- B. Verify the data transform copies the correct value from the data page to the shopping cart page.
- C. Verify the order total cost property is accurately calculated
- D. Verify the price fields are displayed in the correct format.

**Answer: A,B,C ([LEAVE A REPLY](#))**

### **NEW QUESTION: 36**

An order form provides four options from which customers select one option. According to best practice, which of the following two UI control types can be used to minimize clutter on the order form? (Choose Two)

- A. Autocomplete
- B. Radio buttons
- C. Dropdown
- D. Checkbox

**Answer: B,C ([LEAVE A REPLY](#))**

### **NEW QUESTION: 37**

A human resources application contains reports that are used to review hiring practices. The product manager has asked you to test the recent hire training report.

How do you run a unit test on the report?

- A. Initialize the rule with test data using the run rule window
- B. Identify a data test page to unit test the rule
- C. Create a copy of the rule and use the run rule window
- D. Run the report definition using the contents of a database table

**Answer: A ([LEAVE A REPLY](#))**

### **NEW QUESTION: 38**

A process routes loan requests to a specific loan officer based on the type of loan. - If the loan is a mortgage, it is routed to Adam Ross. If the loan is for an automobile, it is routed to Julia Samuels. - If the loan is an equity line, the case is routed to Don Smith. How do you configure a router to ensure that case advances to the correct loan officer?

- A. Route the case to a work queue using a When condition.
- B. Route the case to a worklist using a skilled router.
- C. Route the case to a worklist using a When condition.
- D. Route the case to a work queue using a skilled router.

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 39**

Which two conditions do you test with a unit test? (Choose Two)

- A. An application is successfully migrated to a test system.
- B. A property value is set correctly by a data transform.
- C. An application displays user views for 20 users within three seconds.
- D. A data page populates without any errors.

**Answer: A,D (LEAVE A REPLY)**

**NEW QUESTION: 40**

Using the following Refund case life cycle, how do you design this case to skip the Item Return stage if the item will not be returned?

- A. Add an Item Retention alternate stage and define a process for retention of item.
- B. Add a condition to skip the Item Return stage when a return is not necessary.
- C. Add a decision in the Item Return process to change the stage when a return is not necessary.
- D. Replace the Wait step in the Item Return stage with a Change Stage step.

**Answer: B (LEAVE A REPLY)**

**NEW QUESTION: 41**

Which two items must be provided by the user to add an external data source to a data object? (Choose Two)]

- A. A data transform to map the application data model to the connector
- B. The uniform resource identifier that identifies the web service
- C. A simulated data source to test the implementation
- D. The authenticating information, if required by the corresponding service

**Answer: B,D (LEAVE A REPLY)**

**NEW QUESTION: 42**

On a service level, the passed deadline interval is measured from

- A. when a user begins the assignment
- B. when the assignment is ready for a user
- C. the end of the goal interval
- D. the end of the deadline interval

**Answer: D (LEAVE A REPLY)**

**NEW QUESTION: 43**

You want operators in two separate units to be able to perform work routed to either unit. Which configuration supports this requirement?

- A. On the work group record, associate the operators with the workgroup.
- B. On each unit record, associate both operators with each unit.

- C. On each operator's record, associate the operator with both units.
- D. On each operator's record, associate the operator with the same workgroup.

**Answer: (SHOW ANSWER)**

**NEW QUESTION: 44**

A retail store wants an application to process a new customer loyalty account. The customer enters their contact information; including name, email, phone number, and address. This information is displayed in a data relationship.

What type of data relationship do you create?

- A. A Data reference field
- B. An Embedded data field
- C. A Query field
- D. A Case reference field

**Answer: (SHOW ANSWER)**

**NEW QUESTION: 45**

An application must validate postal codes for Canadian customers to match the pattern A1A 1A1, where A represents a letter, and 1 represents a number. Which two distinct configurations ensure that a user provides a valid postal code? (Choose Two)

- A. Configure the postal code field as a text property with a required input field.
- B. Configure a drop-down control to select the postal code based on the specified city and province.
- C. Configure a validate rule to test that the entered postal code conforms to the required pattern.
- D. Configure an edit validate rule to test that the entered postal code conforms to the required partem.

**Answer: A,D (LEAVE A REPLY)**

**NEW QUESTION: 46**

You create an application to track package deliveries. Choose three elements that are essential for this application. (Choose Three)

- A. A shipment tracking case type
- B. A set of fields to capture the shipping details
- C. A delivery cancellation child case
- D. A work party to represent the customer
- E. A user view to enter the shipping details

**Answer: A,B,E (LEAVE A REPLY)**

#### **NEW QUESTION: 47**

In a Human Resources (HR) application, a business architect has developed a new process for the Onboarding case type. You want to test the process and the fields to verify the UI elements collect expected results.

- A. Create a unit test for the Onboarding case type
- B. Create a scenario test for the Onboarding case type
- C. Add validations on the UI elements
- D. Add explicit assertions on the UI elements

**Answer: (SHOW ANSWER)**

#### **NEW QUESTION: 48**

To reduce scrolling on a view, you want to organize existing content so that details display when an option is selected in a drop-down menu. There is no drop-down menu currently on the view.

Which two configurations achieve the business requirement? (Choose Two)

- A. Configure a disable condition (when rule) on each field to allow access when the associated option is selected on the drop-down control.
- B. Configure a repeating dynamic layout with an embedded section for each option and set the layout format to grouped.
- C. Configure a layout group to separate each option into individual panels and set the layout to a menu format.
- D. Configure a data relationship to select the option using the Drop-down list record selection.

**Answer: (SHOW ANSWER)**

#### **NEW QUESTION: 49**

You are defining a user view for a loan application. If the loan applicant indicates there is an existing open account, the Date account opened must be before the current date. Select the approach that meets the validation requirements.

- A. Use a pick list control to verify the Date account opened is in the past.
- B. Use a when rule to verify the Date account opened is in the past.
- C. Use a validate rule to verify the Date account opened is in the past.

D. Use a calendar control to verify the Date account opened is in the past.

**Answer: C (LEAVE A REPLY)**

**NEW QUESTION: 50**

ABC BankCorp wants to create a mobile app experience for users and CSRs for its Transaction Dispute application.

Of the following requirements, which option requires you to configure distinct mobile app channels? (Choose two)

- A. The mobile app supports all mobile phone operating systems.
- B. CSRs can create other case type instances on the mobile app.
- C. Mobile app color palettes are different for users and CSRs.
- D. The mobile app customizes currency units and date/time format according to the location of the users.

**Answer: (SHOW ANSWER)**

**NEW QUESTION: 51**

Consider the following scenario: During the Interview process for a Job Application case, an administrative assistant selects the date and location of the interview. - Next, an email confirmation is sent to the candidate. - During the interview, the hiring manager captures notes from the discussion. - Finally, the candidate is assigned a technical exercise and the results are added to the case. Select two step names that follow the guidelines for identifying and naming the steps in the process. (Choose Two)

- A. Ask Questions
- B. Notify Candidate
- C. Schedule Interview

**Answer: B,C (LEAVE A REPLY)**

**NEW QUESTION: 52**

You are configuring an accident claim case for an automobile insurance company with two child cases as illustrated. How do you suspend the Accident Claim case processing until the Vehicle Damage and Body Injury cases are resolved?

- A. Add an approval shape to each of the child cases to resolve the cases.
- B. Add a wait shape to the parent case pausing the parent case until the child cases resolve.
- C. Add a service level agreement to resolve the child cases within 90 days.
- D. Add a 30-day wait to the parent case to allow time for the child cases to resolve.

**Answer: B (LEAVE A REPLY)**

**NEW QUESTION: 53**

You have been asked to create a report definition that includes information about the sales offices and sales representatives. The manager wants to access the report in the Report

Browser in the user portal. The manager also wants to include the report in a new report category specifically for the sales group. What two configurations are required to support this request? (Choose Two)

- A. Add a report category for sales group reports in the Report Browser.
- B. Select the report definition option that displays your report in the Report Browser.
- C. Select the option in the Report Browser that allows users to view your report.
- D. Create a report category rule for sales office reports.

**Answer: A,B (LEAVE A REPLY)**

#### **NEW QUESTION: 54**

You are asked to build a report listing customer order cases with an Order Total value over USD10000 sorted by Creation date (pxCreateDate). The report should display the following three fields: Case ID (pyID), Customer ID, and Order Total. Which property or property combination should you optimize to improve performance?

- A. Customer ID and Order Total
- B. pxCreateDate
- C. pxCreateDate and Order Total
- D. Order Total

**Answer: (SHOW ANSWER)**

#### **NEW QUESTION: 55**

A flow action calls a pre-processing data transform to initiate values. There are several flow actions available for the assignment. You want to make sure that the values are only initiated once for each flow action. How do you implement a solution?

- A. Do nothing. The pre-processing data transform is only called once for each assignment.
- B. Add logic to the pre-processing data transform to test if values were already initiated.
- C. Configure the data transform as post-processing instead of pre-processing.
- D. Make sure that the flow action does not have the highest likelihood since it will always be invoked.

- A. To execute a flow action
- B. To display the destination value as the location value

- C. To set default values for a case
- D. To create the dependent property after case creation
- E. To copy the first and last name properties into a single property value

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 65**

A bookseller maintains a database of more than 10,000 book titles. You have been asked to configure a form that allow users to select a book by title.

How do you configure the form?

- A. Add a drop-down control and Source the data using a data page.
- B. Add a drop-down control and source the data from the property value used in the control.
- C. Add an autocomplete control and Source the data using a data page.
- D. Add an autocomplete control and source the data from the clipboard work page.

**Answer:** C ([LEAVE A REPLY](#))

#### **NEW QUESTION: 66**

As part of the case design, after someone completes a purchase, the application should send a confirmation email. How do you design the case life cycle to send the email?

- A. As a separate process step
- B. As part of the stage configuration
- C. As an alternate stage
- D. As part of the case configuration

**Answer:** A ([LEAVE A REPLY](#))

#### **NEW QUESTION: 67**

When processing an auto accident claim, the system requires three approvals: Approval from the adjuster who inspected the car, approval from the medical administrator who provided medical care to the insured, and approval from the insurance agent who verified the claim. How do you implement the requirements so each approver can work independently?

- A. Create three parallel processes with approval assignments.
- B. Create an approval step with cascading approval.
- C. Route to a workbasket where all three roles have access.
- D. Create business logic to route to the different approvers.

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 68**

Which two statements demonstrate the role of a report? (Choose Two)

- A. Reports are used to assess process performance.
- B. Reports are used to source a list of selectable items while working in an assignment

- C. Reports are used to update data in a database.
- D. Reports are used to select items from a list while working in an assignment.

**Answer: A,B ([LEAVE A REPLY](#))**

**NEW QUESTION: 69**

A form must support accessibility. How do you enable a user to specify a date?

- A. Use a calendar control that displays an entire month.
- B. Use a calendar control that displays an entire year.
- C. Provide separate controls for month, day, and year.
- D. Configure a text box to allow date entry.

**Answer: C ([LEAVE A REPLY](#))**

**NEW QUESTION: 70**

Which two dependencies do you directly enforce with a Wait step? (Choose Two)

- A. Pausing a case until a user submits a specified value
- B. Pausing a case until a new child case is created
- C. Pausing a case until another case reaches a specified status
- D. Pausing a case until a predetermined time expires

**Answer: C,D ([LEAVE A REPLY](#))**

**NEW QUESTION: 71**

While testing a form, you need to verify the contents of a data page in memory. Which tool do you use to view the current contents of the data page?

- A. Live UI
- B. Case Designer
- C. The Data Explorer
- D. The Clipboard tool

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 72**

How do you reference the State property on an Address page group with the index Home?

- A. .Address.Home.State
- B. .Home.State.Address
- C. .Address(Home).State
- D. .Home(Address).State

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 73**

You are configuring an external data source using the Integration Designer. You have the REST, Dev, Stage, and Prod endpoint URLs, and a name for the data source. What other information do you need to configure the external data source?

- A. A backup endpoint URL if the configured URL refuses to connect
- B. The data views using the external data source
- C. The name of the database where the source data is stored
- D. A plan for mapping the data and REST response fields

**Answer: D (LEAVE A REPLY)**

#### **NEW QUESTION: 74**

Users can access an apartment hunting application from different devices with different screen sizes.

A screen displays the photos of available properties. By default, the photos are displayed in three columns.

When the screen width is less than 800 pixels, the photos should be displayed in two columns. How do you implement the screen for this requirement?

- A. Use a dynamic layout with a responsive breakpoint at 800 pixels to change from inline-grid tripleto inline-grid double format.
- B. Circumstance the layout to display different number of columns at different screen sizes.
- C. Circumstance the section rule to display different number of columns at different screen sizes.
- D. Use a column layout with a responsive breakpoint at 800 pixels to hide the left column.

**Answer: A,C (LEAVE A REPLY)**
