NEW QUESTION: 1

MyCo insurance company completes the development phase of its application and decides to start the testing phase of the application in a testing environment. To migrate the application, the development team created an instance of the Rule-Admin-Product class that includes the application instances to migrate.

Which two components does the Rule-Admin-Product instance include by default when you generate an archive file? (Choose two.)

- A. MyCo- class instances
- B. Checked-out rules
- C. Checked-in rules
- D. Data- class instances

Answer: B,C ([LEAVE A REPLY](#))

NEW QUESTION: 2

During an Account review case, an accountant wants to evaluate the client's retirement plan. A Retirement planning case is created that runs in parallel with the Account review case. Neither case waits for nor reports to the other.

To configure this workflow, which type of parallel processing shape do you use?

- A)
- C)
- D)
- A. Option D
- B. Option C
- C. Option A
- D. Option B

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 3

Which two statements are valid regarding Pega Web Mashup? (Choose Two)

- A. A mashup can allow access to Dev Studio for full system configuration.
- B. Mashup requests are checked for the corresponding mashup channel ID parameter.
- C. A user can view their worklist in an external portal and select items on which to take action.
- D. Pega Platform limits mashup users to working on existing cases.

Answer: B,C ([LEAVE A REPLY](#))

NEW QUESTION: 4

A client requests that you add a footer to the Case Manager portal. How do you satisfy this request?

- A. Configure a navigation record to describe the new portal format.
- B. Update the portal format in the skin applied to the portal.
- C. Update the portal type on the portal record.
- D. Change the section layout on the harness referenced on the portal record.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 5

Which three items are generated and displayed in the compliance score of an application? (Choose three.)

- A. Rules with warnings in the application
- B. Unweighted compliance score
- C. Pega Platform core rules used in the application
- D. Rules with unjustified warnings in the application
- E. Percentage of compliant rules in the application

Answer: A,B,D ([LEAVE A REPLY](#))

NEW QUESTION: 6

Which statement is true about connectors?

- A. Connectors require a REST service to function.
- B. Connectors establish a link to a service on another system.
- C. Connectors can be referenced from data transforms.
- D. Connectors use a listener that runs in the background.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 7

A fitness organization wants to ensure that data is entered correctly into an online form when users apply for, or update, their membership information.

Which scenario requires an edit validate rule?

- A. New members can get a 20% discount, if they enter the Coupon Code SAVE.
- B. Existing members must enter their membership number in the correct format, M-#####-0#.

- C. The first and last name are required on the form, but a middle name or initial is optional.
- D. New members must be at least 18 years of age at the time they sign up for membership.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 8

Application Settings allow you to_____.

- A. store references to an external system connected to an application
- B. execute connectors in parallel to improve performance
- C. automate the application migration process
- D. simulate data in an environment for testing purposes

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 9

In which scenario is a Declare OnChange rule appropriate?

- A. When a user updates their address, the active case is suspended until the address can be confirmed.
- B. When a developer changes a view, the change is checked into a development branch.
- C. When a manager approves a case, the case is routed back to the appropriate caseworker.
- D. During a nightly backup process, only updated fields are backed up.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 10

A class group is used to_____.

- A. assign work to a specific group of users
- B. identify a layer of the Enterprise Class Structure
- C. associate child classes with a single database table
- D. combine related properties by usage

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 11

There are five instances of a rule in the rules cache. The only differences between these are the circumstance settings and ruleset version. The operator's access group has access to all ruleset versions.

On 1 June 2020, which instance is chosen by rule resolution if .Country = Algeria?

- A. SelfService:01-01-03 (Circumstance: None, Base Rule checked)
- B. SelfService:01-01-01 (Circumstance: .Country=Algeria)
- C. SelfService:01-01-02 (Circumstance: Start Date = 1 January 2020; End Date = 31 December 2020)
- D. SelfService:01-01-05 (No Circumstance)
- E. SelfService:01-01-01 (No Circumstance)

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 12

What is the function of class mapping for reports?

- A. Retrieve data from an associated database table.
- B. Ensure all data from one report belongs to a single Case type instance.
- C. Create a new Database table record for a Pega Platform class.
- D. Assign an ID to a class so reports can reference specific properties.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 13

An application includes the following set of circumstanced instances of a decision table.

Class

Ruleset

Version

circumstance

MyCo-Account Manage-Work-AccountOpen

Ruleset

MyCo-Account Manage-Work-AccountOpen

Account Manage

01-01-01

01-01-05

Circumstance

AccountManage

None

Status "Silver"

MyCo-Account Manage-Work-AccountOpen AccountManage

01-01-05

01-01-15

Status="Gold"

MyCo-Account Manage-Work-AccountOpen AccountManage

Status="Platinum

Status="Silver"

MyCo-Account Manage-Work-AccountOpen Account Manage

Version

01-01-15

You update the application and increment the Account Manage ruleset version to 01.02-01. As part of this update, the circumstance .Status="Silver" is no longer needed by the application.

How do you implement this change?

- A. Create a new version of the circumstanced decision table in Account Manage:01-02-01 and set the availability of the rule to Blocked.

B. Create a new version of the circumstanced decision table in Account Manage: 01-02-01 and set the availability of the rule to Withdrawn.

C. Do nothing. Rule resolution does not consider rules in a lower minor version of a ruleset.

D. Create a new version of the circumstanced decision table in Account Manage: 01-02-01 and select the Base rule option.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 14

The primary purpose of a production ruleset is to allow rules to be

A. updated in a production environment

B. migrated to a production environment

C. tested in a production environment

D. reused in multiple production environments

Answer: **B** ([LEAVE A REPLY](#))

NEW QUESTION: 15

Your application contains the following versions of a service level named AuthorizeClaim.

The application is being updated with a new version of the AccountManage ruleset. As part of the update, the service level is no longer circumstanced for AccountOpen cases. The update must retain the circumstancing for the other case types in the application.

Which option do you use to reset the circumstancing for the AccountOpen case type?

A. Make the circumstanced rules in the AccountOpen class unavailable.

B. Withdraw the circumstanced rules in the AccountOpen class.

C. Block the circumstanced rules in the AccountOpen class.

D. Copy the non-circumstanced rule to the AccountOpen class and select the base rule option.

Answer: **A** ([LEAVE A REPLY](#))

NEW QUESTION: 16

Which three approaches are valid for improving activity security? (Choose Three)

A. Configure the activity to require authentication to prevent unauthorized use.

B. Configure the activity to restrict individual parameters to authorized users.

C. Limit the activity to calling activities of the same Apply to class.

D. Apply a privilege to the activity to restrict the activity to authorized users.

E. Select the activity type to limit which rule types can call the activity.

Answer: **A,D,E** ([LEAVE A REPLY](#))

NEW QUESTION: 17

Which two best practices for creating a mobile app on Pega Platform guarantee a consistent user experience? (Choose Two)

- A. Incorporate Android emulators during the development and production phases.
- B. Apply both responsive and adaptive user interface designs to optimize the display of the app.
- C. Decide early in the development process if the mobile app supports offline mode.
- D. Use multiple unlocked rulesets when developing a mobile app.

Answer: B,C ([LEAVE A REPLY](#))

NEW QUESTION: 18

Which two statements about keyed data pages are true? (Choose Two).

- A. A keyed data page supports editable data pages only.
- B. A keyed data page can have multiple keys.
- C. A keyed data page can be any structure except a list.
- D. A keyed data page can return multiple embedded pages.

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 19

You want to create a new minor version of an application ruleset to add a new feature to your application. The new feature will be made available to users in a phased rollout.

How do you update the application to add the new ruleset version?

- A. Create a branch ruleset and a new application, and add the branch ruleset to the application.
- B. Create a new application version and add the new ruleset version as a production ruleset.
- C. Lock and roll the existing ruleset, and create a new application version.
- D. Lock and roll the existing ruleset, and update the existing application version.

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 20

You are creating a report that lists all open Personal Injury cases with related Auto Claim case information. Personal Injury and Auto Claim cases belong to the same class group.

The report includes three columns:

- * Case ID for the Personal Injury case
- * Case ID for the parent Auto Claim case
- * Claim adjuster for the Auto Claim case

Personal Injury case data includes the Auto Claim case ID.

What join type do you use to configure the report?

Answer:

See it below:

NEW QUESTION: 21

A courier company wants a mobile app to scan and track the parcels collected from remote areas with no internet access.

Which mobile app do you develop to fulfill the requirement?

- A. SDK app
- B. Unsigned app
- C. Native app
- D. Signed app

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 22

A requirement states that the Manager role cannot open a purchase request during the Audit stage. How do you configure the case stage to satisfy this requirement?

- A. Apply an Access When record.
- B. Apply an Access Deny record.
- C. Apply a Privilege record.
- D. Apply a When record.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 23

Your application is deployed to the cloud. A data source outside your application populates a data page by using your data access pattern configuration. You receive complaints that the system takes a long time to fetch data each time the case worker accesses information for a different customer.

Which approach solves this performance issue?

- A. Fetch only the targeted data from the database each time data is needed so access is faster.
- B. Access data page with a predefined key so that, once loaded, data access is faster.
- C. Move to local installation because network traffic in cloud deployment is often slow.
- D. Change snapshot data access method to reference pattern data access method.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 24

Drag the Enterprise Class Structure (ECS) layers on the left to the appropriate classes and associated rules on the right

Answer:

NEW QUESTION: 25

Which three types of information can represent an attribute in attribute -based access control (ABAC)?

- A. Property
- B. List of strings
- C. Number value
- D. Single string
- E. Boolean

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 26

Which action can a Declare OnChange rule perform when a specified property changes?

- A. Specify which flow action to run
- B. Update an activity
- C. Suspend the current work object
- D. Execute a data transform

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 27

You perform a major skim on the ruleset ABC:02-02 to ABC:03-01.

In the Answer area, select the ruleset versions that the skim operation uses.

Does the skim operation to the ruleset version?

Answer:

NEW QUESTION: 28

A data page is used to retrieve data from an external system. If an error occurs, you want to display a message to the user and send an email to the system administrator.

How do you implement this requirement?

- A. Configure an activity's input source as the error message and the output as an email.
- B. Reuse the out-of-the-box Connection Problem error handling flow on the Service tab for the connector. .000
- C. Create an error handler data transform that adds an error message to the data page and sends an email.
- D. Configure an error handling process that displays the error message and sends an email.

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 29

The AccountManage ruleset contains the following versions of a service level named ReviewAccountChange:

The application is being updated with a new patch version of the AccountManage ruleset. As part of the update, the service level is no longer specialized for AccountOpen ases. In the updated ruleset, the circumstancing in the class group applies to all case types.

Which option do you use to reset the circumstancing for the AccountOpen case type?

- A. Withdraw the circumstanced rules in the AccountOpen dlass.

- B. Copy the non-circumstanced rule to the AccountOpen class and select the base rule option.
- C. Make the circumstanced rules in the AccountOpen class unavailable.
- D. Block the circumstanced rules in the AccountOpen class.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 30

As a best practice, in which situation do you use a keyed data page?

- A. A user selects an emoji from a short list that updates often.
- B. A user selects a replacement part from a long list that seldom changes.
- C. A user selects an image from a long list that updates often.
- D. A user selects a delivery option from a short list that rarely changes.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 31

A music production company's application contains the following classes:

- UPlusMusic-Production-Work
- UPlusMusic-Production-Work-Studio
- UPlusMusic-Production-Work-Brand UPlusMusic-Production-Work-Studio-Recording
- UPlusMusic-Production-Work-Studio-Editing
- UPlusMusic-Production-Work-Brand-Marketing
- UPlusMusic-Production-Work-Brand-Distribution

A requirement states that users with the Guest role can edit objects related to recording but not editing work.

At which position in the class hierarchy do you configure an Access of Role to Object (ARO) record to satisfy this requirement?

- A. UPlusMusic-Production-Work-Studio-Recording
- B. UPlusMusic-Production-Work
- C. UPlusMusic-Production-Work-Studio
- D. UPlusMusic-Production-Work-Studio-Editing

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 32

You are integrating two Pega Web Mashups into a client's mortgage loan financing page. What do you configure to successfully embed both mashups?

- A. Identify unique names for each mashup.
- B. Load both mashups simultaneously.
- C. Run the mashups on the same thread.
- D. Define identical URLs for each mashup.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 33

What are the two most common ways to expose your application to an external system? (Choose Two)

- A. Create a connector linked to a data page.
- B. Create a web service with the Service wizard.
- C. Configure a signed certificate.
- D. Leverage the Pega API.

Answer: B,D ([LEAVE A REPLY](#))

NEW QUESTION: 34

You have a requirement to associate users in different units to the same work queue. How do you implement this requirement?

- A. Associate the users to a common work group. Then associate the work group to the appropriate units.
- B. Associate the users to a common work queue. Then associate the work queue to the appropriate units.
- C. Associate the users to common work group. Then associate a work queue to the work group.
- D. Associate the users to common units. Then associate a work queue to the common unit.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 35

Teams X and Y work on different enhancements in the same ruleset. The release date for each enhancement is uncertain.

Which two options, when performed together, allow each team to keep its work separate? (Choose Two)

- A. Create a new ruleset version for one of the teams.
- B. Create access groups for each of the teams.
- C. Create a branch ruleset for each team.
- D. Apply privileges to the rules each team configures.

Answer: A,C ([LEAVE A REPLY](#))

NEW QUESTION: 36

An application includes the following set of circumstanced instances of a decision table.

You update the application and increment the AccountManage ruleset version to 01-02-01. As part of this update, the circumstance .Status="Silver" is no longer needed by the application. How do you implement this change?

- A. Do nothing. Rule resolution does not consider rules in a lower minor version of a ruleset.
- B. Create a new version of the circumstanced decision table in AccountManage:01-02-01 and set the availability of the rule to Withdrawn.
- C. Create a new version of the circumstanced decision table in AccountManage:01-02-01 and select the Base rule option.
- D. Create a new version of the circumstanced decision table in AccountManage:01-02-01 and set the availability of the rule to Blocked.

Answer: D ([LEAVE A REPLY](#))

NEW QUESTION: 37

You are creating a report that lists all open Personal Injury cases with related Auto Claim case information. Personal Injury and Auto Claim cases belong to the same class group.

The report includes three columns:

- * Case ID for the Personal Injury case
- * Case ID for the parent Auto Claim case
- * Claim adjuster for the Auto Claim case

Personal Injury case data includes the Auto Claim case ID.

What join type do you use to configure the report?

Answer:

See it below:

NEW QUESTION: 38

Which three mobile device features can you leverage by using Pega Mobile Client? (Choose Three)

- A. Biometric identification
- B. Barcode scanning
- C. Phone calls
- D. Text messages
- E. Push notifications

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 39

You are analyzing application performance and identify a data transform exceeding preferred performance parameters. Which performance tool do you use to help troubleshoot the issue?

- A. Performance Analyzer (PAL)
- B. Tracer
- C. Performance Profiler
- D. Database Trace

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 40

In the Answer Area, drag each mobile application solution on the left to the correct scenario.

Answer:

NEW QUESTION: 41

A travel reservation servicing case includes a service level for responding to requests. The service level intervals vary according to passenger status, class of service, and fare type. Which implementation satisfies this requirement?

- A. Create a multivariate circumstanced rule, a circumstanced definition, and a circumstanced template.
- B. Create a multivariate circumstanced rule and a when rule.
- C. Create a single property circumstanced rule and a when rule.
- D. Create a single property circumstanced rule.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 42

There are five instances of a rule in the rules cache. The only differences between these are the circumstance settings and ruleset version. The operator's access group has access to all ruleset versions.

On 1 June 2020, which instance is chosen by rule resolution if .Country = Algeria?

- A. SelfService:01-01-02 (Circumstance: Start Date = 1 January 2020; End Date = 31 December 2020)
- B. SelfService:01-01-05 (No Circumstance)
- C. SelfService:01-01-01 (Circumstance: .Country=Algeria)
- D. SelfService:01-01-01 (No Circumstance)
- E. SelfService:01-01-03 (Circumstance: None, Base Rule checked)

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 43

A requirement states that when a case is assigned to a user for review, its work status is set to Open-Review. Which two steps do you perform to implement this requirement? (Choose Two)

- A. Apply the Open-Review status to the appropriate assignments.
- B. Add Open-Review as an allowed status on the case type record.
- C. Configure a data transform to apply the Open-Review status on the appropriate assignments.
- D. Create a field value record for the Open-Review status.

Answer: A,C ([LEAVE A REPLY](#))

NEW QUESTION: 44

Which configuration controls the access to an attachment category?

- A. Configure the when rule IsCurrentStage Testing to allow users to view an attachment if the rule returns as true.
- B. Configure a connector that grants permission to a user to delete an attachment if they are the creator.
- C. Configure a visible when rule, IsDocumentPrivate, to allow users to view an attachment if the rule returns as false.
- D. Configure client-based access control on the class where the attachment exists to restrict access to the attachment

Answer: (SHOW ANSWER)

NEW QUESTION: 45

Which statement is true about connectors?

- A. Connectors can be referenced from data transforms.
- B. Connectors require a REST service to function.
- C. Connectors use a listener that runs in the background.
- D. Connectors establish a link to a service on another system.

Answer: A (LEAVE A REPLY)

NEW QUESTION: 46

Which two data elements can be used as an attribute for an access control policy? (Choose Two)

- A. Encrypted bank account number
- B. Number of dependents
- C. Password string
- D. Appointment date

Answer: A (LEAVE A REPLY)

NEW QUESTION: 47

A Pega Platform application has just been integrated with an external data source.

Which of the following tests do you perform to ensure that the integration passes data as expected?

- A. Unit Test
- B. Scenario Test

C. Performance test.

D. Automation Test

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 48

If a customer reports an issue with their order, an Investigation case is created. All investigation cases are higher priority than other case types.

What configuration supports this requirement?

A. Configure an optional action to enable manual changes to case urgency.

B. Create a service-level agreement (SLA) rule and ensure that the assignment is ready immediately.

C. Increase the initial urgency on the case type settings.

D. Create a service-level agreement (SLA) rule and increase the initial urgency.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 49

A requirement states that the Manager role cannot open a purchase request during the Audit stage.

How do you configure the case stage to satisfy this requirement?

A. Apply a When record.

B. Apply a Privilege record.

C. Apply an Access When record.

D. Apply an Access Deny record.

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 50

Which two statements are true about configuring Pega Web Mashup? (Choose Two)

A. Use action objects to transfer data between gadgets in a mashup.

B. Add a list of trusted domains to the application that contains the mashup.

C. Keep the original names of default actions in the mashup code to prevent security risks.

D. Use the Integration wizard to generate mashup code for use in other systems

Answer: B,D ([LEAVE A REPLY](#))

NEW QUESTION: 51

Which requirement is a prerequisite for configuring a Pega Web Mashup?

A. At least one Access control policy rule

B. A web server to test your host page

C. No outstanding Guardrail violations

D. At least one work queue in your application

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 52

During an Account review case, an accountant wants to evaluate the client's retirement plan. A Retirement planning case is created that runs in parallel with the Account review case. Neither case waits for nor reports to the other.

To configure this workflow, which type of parallel processing shape do you use?

- A)
- C)
- D)
- A. Option D
- B. Option C
- C. Option B
- D. Option A

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 53

Which statement describes the appropriate use of the Purge/Archive wizard to address application performance?

- A. Delete any properties exposed in table columns from the BLOB.
- B. Remove unused rules caches maintained on the system.
- C. Remove old cases to reduce the size of a database table.
- D. Delete stored SQL procedures that have been updated.

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 54

A medium-size toymaker wants to full fill orders received during the peak season in December and process the orders in batches multiple times a day.

How do you implement this use case?

- A. Create batches of orders and send each batch for processing when it gets full.
- B. Create scheduled jobs, one for each run, that can process accumulated orders.
- C. Create one scheduled job and set its run scheduled to multiple times a day.
- D. Create a queue processor that can process orders received by the company.

Answer: ([SHOW ANSWER](#)**)**

NEW QUESTION: 55

In the Answer Area, drag each mobile application solution on the left to the correct scenario.

Answer:

NEW QUESTION: 56

A data page is used to retrieve data from an external system. If an error occurs, you want to display a message to the user and send an email to the system administrator.

How do you implement this requirement?

- A. Configure an activity's input source as the error message and the output as an email.
- B. Create an error handler data transform that adds an error message to the data page and sends an email.
- C. Configure an error handling process that displays the error message and sends an email.
- D. Reuse the out-of-the-box ConnectionProblem error handling flow on the Service tab for the connector.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 57

How do you ensure that only a manager can run a specific flow action?

- A. Add a privilege to the flow action form, then add the privilege to a role assigned to the access group for managers.
- B. Add a validate rule to the flow action form to determine whether the user is a manager.
- C. Add an Access When condition to the flow action to determine whether the user is a manager.
- D. Add a pre-processing activity to the flow action form to determine whether the user is a manager.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 58

Place the steps in the order in which a service processes a request.

Answer:

NEW QUESTION: 59

An assignment service-level agreement (SLA) is configured with the following details?

- * Initial urgency: 20
- * Assignment ready: Timed delay of 1hr
- * Goal: 5hr and increase urgency by 10
- * Deadline: 8hr and increase urgency by 20
- * Passed deadline: 2hr, increase urgency by 20, and limit events to 5

Assuming no other urgency adjustment, what is assignment urgency 16hr after the case reaches the assignment?

Answer:

100

NEW QUESTION: 60

A city resident can report potholes to the Department of Transportation by logging in to a mobile Pega Platform application that utilizes the Pega API.

Which two Pega API interactions do you use to facilitate this? (Choose two.)

- A. Access the related case type to report using GET/casetypes
- B. Submit the report using POST/cases

- C. Update the report using GET/cases
- D. Log into the application using PUT/authenticate

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 61

What are three valid ways to exchange data through a Pega Web Mashup? (Choose Three)

- A. Use an SQL call to exchange data between the mashup and hosting web page.
- B. Use an action object configured as a script to perform additional actions on a web mashup gadget.
- C. Use the Javascript function doAction() to set or read data values through the hosting web page.
- D. Use a queue processor to pass updated attributes to the gadget on the hosting web page.
- E. Use the data-pega-event-onpagedata attribute to configure the default value for the gadget.

Answer: B,C,E ([LEAVE A REPLY](#))

NEW QUESTION: 62

Which two statements about guardrails are true? (Choose Two).

- A. A product owner creates all the guardrails for the application design.
- B. Each rule may have multiple guardrail warnings.
- C. A guardrail warning indicates the severity of an error.
- D. Pega Platform performs guardrail examination when a rule is checked out.

Answer: B,C ([LEAVE A REPLY](#))

NEW QUESTION: 63

Your application is deployed to the cloud. A data source outside your application populates a data access pattern configuration. You receive complaint that the system takes a long time to fetch data each time the case worker accesses information for a different customer?

Which approach solves this performance issue?

- A. Access data page with a predefined key so that, once loaded, data access is faster.
- B. Fetch only the targeted data from the database each time is needed so access is faster.
- C. Change snapshot data access method to reference pattern data access method.
- D. Move to local installation because network traffic in cloud deployment is often slow.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 64

A medium-size toymaker wants to fulfill orders received during the peak season in December and process the orders in batches multiple times a day.

How do you implement this use case?

- A. Create scheduled jobs, one for each run, that can process accumulated orders.
- B. Create one scheduled job and set its run schedule to multiple times a day.
- C. Create a queue processor that can process orders received by the company.
- D. Create batches of orders and send each batch for processing when it gets full.

NEW QUESTION: 66

You want to create a new minor version of an application ruleset to add a new feature to your application. The new feature will be made available to users in a phased rollout.

How do you update the application to add the new ruleset version?

- A. Create a new application version and add the new ruleset version as a production ruleset.
- B. Lock and roll the existing ruleset, and create a new application version.
- C. Skim the existing ruleset and update the existing application version.
- D. Create a branch ruleset and a new application, and add the branch ruleset to the application.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 67

Organize the classes and associated rules in the appropriate Enterprise Class Structure (ECS) layer.

Answer:

NEW QUESTION: 68

Items selected by a user need to be copied to a page list property when the user submits the form. How do you copy the items?

- A. Add a data transform to the flow action as a pre-processing action.
- B. Add a data transform to the flow action as a post-processing action.
- C. Create a validate rule to copy the selected items.
- D. Create a declare expression with the page list property as the target.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 69
