NEW QUESTION: 1

In which two ways can an administrator ensure that Patient Risk scores are recalculated periodically? (Choose Two.)

- A. Setup a scheduled Apex batch job.
- B. Use the CMS recalculation API
- C. Use a third party API to recalculate CMS risk score
- D. Setup a Apex batch job and run the job manually
- E. Create a Healthcare Provider enrollment flow.

Answer: ([SHOW ANSWER](#))

Explanation

Reference and details below.

Calculate Referral Scores

Calculate referral scores with a batch Apex job.

Referral scores are based on the Total Referrals and Converted Referrals fields on the referring practitioner's contact record. The calculated score appears in the Referrer Score field.

Use the scheduled job class name: `HcReferrerScoreScheduledJob`. To invoke Apex classes to run at specific times, first implement the `Schedulable` interface for the class. Then, schedule an instance of the class to run at a specific time using the `System.schedule` method.

 **Example:** To run the `HcCMSRiskScoringScheduledJob` class once, select **Debug | Open Execute Anonymous Window**. Enter the following text in the Enter Apex Code window in Developer Console.

```
// scheduled job sample
int batchSize = 200;
SchedulableContext sc = null;
HcReferrerScoreScheduledJob scheduledJob = new HcReferrerScoreScheduledJob(batchSize);
scheduledJob.execute(sc);
```

NEW QUESTION: 2

Healthcare companies face challenges from a variety of sources. What are three common challenges they could encounter that HC solves for? (Choose 3)

- A. Growing customer expectations for delivery of care everywhere.
- B. Insufficient funds allocated to Research and Development.
- C. Growing demand for a more personalized care experience.
- D. The need to drive sales while reducing cost.
- E. There are not enough Providers for the amount of the Care Requests.

Answer: [\(SHOW ANSWER\)](#)

NEW QUESTION: 3

Which three type of basic Patient or Member information is displayed on the Patient info component? (Choose three.)

- A. Primary Care Coordinator
- B. Thumbnail of Chatter Photo
- C. Gender
- D. Date of Birth and Age
- E. List of Patient/Member Conditions

Answer: **B,C,D** [\(LEAVE A REPLY\)](#)

NEW QUESTION: 4

The Salesforce administrator for ABC Policies Inc, a Health Care Payer Organization, would like to enable the members to enroll in and out of Care Program multiple times. Where, within Health Cloud Settings, should a Health Cloud administrator make changes to accomplish this requirement?

- A. Program Enrollee Settings
- B. Care Program Settings
- C. Health Cloud Settings
- D. Care Request Settings

Answer: **A** [\(LEAVE A REPLY\)](#)

Explanation

Reference and details below.

The screenshot shows the Salesforce Health Cloud Settings interface. The left sidebar lists various settings under 'Health Cloud', with 'Program Enrollee Settings' highlighted. The main content area displays the 'Allow Multiple Enrollees' setting, which is currently disabled. A yellow highlight is placed over the text 'Multiple Enrollments in the Same Care Program' and its description: 'Let users enroll patients multiple times in the same care program. Once you enable this setting, you can't disable it.' The toggle switch is labeled 'Disabled'.

NEW QUESTION: 5

A Health Cloud administrator would like to setup a new default sub-tab when opening record, where in the setup menu would the administrator go to accomplish this?

- A. Custom Settings
- B. Custom Permissions
- C. Custom Metadata Types
- D. Custom Labels
- E. Custom Object

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 6

What are the two steps required to create Health care providers for Health program? Choose two

- A. Add the UPIN
- B. Create Care Program Providers from the App Launcher
- C. Add NPI for associated provider
- D. Choose associated facility for Care Program.
- E. Create a care program health care provider with an associated care prgm provider

Answer: B,E ([LEAVE A REPLY](#))

NEW QUESTION: 7

Which three medication related FHIR resources are supported in the new data model of Health cloud (Choose Three)

- A. Medical Administration
- B. Medication Dispense
- C. Dosage
- D. Medication
- E. Medical Request

Answer: C,D,E ([LEAVE A REPLY](#))

NEW QUESTION: 8

A Salesforce Admin wants to create tasks within a Care Plan that is related to a specific problem or goal.

Which three different locations in the Health Cloud console can be used to create tasks related to a specific problem or goal within a Care Plan? (Choose three.)

- A. Timeline Tab
- B. Care Plan page
- C. Patient List
- D. Care Team
- E. Household Tab

Answer: B,C,D ([LEAVE A REPLY](#))

NEW QUESTION: 9

Dr. Jill Mikel at Tahoe Hospital would like to improve the management of patient visits. Which steps should the salesforce Administrator complete to setup a patient visit Process? (Choose two)

- A. Create a Task and add task to an action plan template.
- B. Create flow for the business process.
- C. Create a task and add the task to visit creation.
- D. Create an action plan template add flow and published the template.

Answer: B,D (LEAVE A REPLY)

Explanation

Reference and details below.

Set Up Your Action Plan Templates

Your users can use the action plan templates you define to create different types of visits. An action plan template adds a set of assessment tasks to a visit that your sales rep completes before ending the visit.

Before you create an action plan template, make sure you have the business flows that your sales reps need for their assessment tasks. You can either build your own flows using the Flow Builder, or you can use the Patient Registration and Order Authorization flows provided with Intelligent Sales. If you create a flow, make sure that this flow accepts VisitId and AssessmentTaskId as input.

2. Add task flows in an action plan template and publish it.

- a. In the Items tab of your action plan template, click **Add Flow**.

 **Warning:** Only add task flows to your template. Intelligent Sales doesn't support assessment task definitions.

Consent can take place with the participant providing consent in person, using a tablet or mobile device. Patients and members who aren't physically present can log into their Experience Cloud site, then view and provide consent for documents related to the program.

NEW QUESTION: 10

Which twopreference must a salesforce administrator enable to begin using Intelligent Sales for Medical Devices? (Choose two)

- A. Visit Inventory Management
- B. Intelligent Sales
- C. Action Plans
- D. Lightning Flows
- E. Lightning App builder

Answer: (SHOW ANSWER)

Explanation

Reference and details below.

The FHIR-Aligned Clinical Data Model

Health Cloud's new clinical data model maps closely to FHIR R4 specification, but with a few minor differences.

- The new clinical data model supports most of the FHIR R4 attributes, except certain instances that aren't relevant for the typical Health Cloud user.

Enable Intelligent Sales

Before your users can use Intelligent Sales, you must enable the Intelligent Sales and Visit Inventory Management org prefs in your Salesforce org.

NEW QUESTION: 11

In which two ways can Makana health service administrator prevent unauthorized users accessing the data?(choose two)

- A. create sharing sets
- B. Install shield and enable mask.
- C. use field level security setting, record access setting and object permission.
- D. Encrypt the data using shield
- E. optimize data using mask

Answer: B,D ([LEAVE A REPLY](#))

NEW QUESTION: 12

In which three ways does Health Cloud meet compliance and regulatory requirements? (Choose three.)

- A. Health Cloud is HITRUST certified
- B. Health Cloud helps HIS organization achieve HIPAA compliance
- C. Health Cloud is HIPPA certified
- D. Health Cloud is GDPR certified
- E. Health Cloud is HL7 compliant

Answer: B,C,E ([LEAVE A REPLY](#))

NEW QUESTION: 13

Which entity in the new data model of Health Cloud can be used to store mappings between different coding systems such ICD and HCC codes?

- A. Identifier
- B. Codeset Bundle
- C. Codesets
- D. ContactPoint

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 14

How would a Health Cloud administrator indicate which tab should appear when a patient record is opened in the Patient Console?

- A. In the CardView dropdown custom setting for that tab, select Subtab for Tab Type.
- B. Edit the Patient Card configuration for the tab and enable Default Subtab
- C. In the CardView dropdown custom setting for that tab, enable Default subtab.
- D. In the CardView dropdown custom setting for that tab, enter Default for Category Name.

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 15

A Health Cloud administrator is working to create an external facing site to allow patients to find providers within their network. The site is being built by Experience Cloud. The administrator needs to determine what access external users must be granted to allow patients to search and find Providers that fit selected criteria A.

Which object do the external user need read access to?

- A. CareProviderSearchableField
- B. HealthcarePractitionerFacility
- C. CareProviderFacilitySpeciality
- D. CareProviderSearchConfig

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 16

Which two actions should be completed by health cloud admin in order to leverage the health cloud utilization management capabilities?

- A. Install the health cloud unmanaged package extension
- B. Install the health cloud managed package
- C. Install the healthcloud care request extensions managed package.
- D. Assign the health cloud social determinants permission set
- E. Assign the health cloud foundation permission set

Answer: **B,C** ([LEAVE A REPLY](#))

Explanation

Reference and details below.

Prepare to Set Up Utilization Management

Before you get started, install and configure Health Cloud.

- Install the Health Cloud Care Request Extensions unmanaged package.
- Assign the Health Cloud Permission Set License and the Health Cloud Platform permission set license to yourself and your users.
